QUESTIONNAIRE

1. SIZE OF PROPERTY: 1,994 square foot (75'x25'x58')
2. SOURCE OF UTILITIES: WATER: well GAS: n/a
SEWER: septic ELECTRIC: Ameren
3. PRESENT USE OF PROPERTY: Residential
4. PRESENT ZONING OF PROPERTY: Residential
5. HAVE YOU PREVIOUSLY APPLIED FOR A VARIANCE ON THIS PROPERTY?
IF SO, WHEN? No
6. HOW LONG HAVE YOU OWNED THE SUBJECT PROPERTY? 39 years
7. PLEASE LIST ANY EXISTING STRUCTURES ON THE PROPERTY AND THE YEAR BUILT. mobile home
8. DO YOU OWN ANY PROPERTY ADJACENT TO THE SUBJECT PROPERTY? NO
9. WHY, IN YOUR OPINION IS YOUR CURRENT SITUATION, AND OR THE EXISTING
SIZE /EXTENT OF THE USE NOT ACCEPTABLE? Applicant desires to
improve and upgrade the structure on the lot, however,
setback ordinance compliance with its terrain prohibit
applicant from doing so.
10. IS THERE ANY PARTICULAR HARDSHIP RELATED TO YOU OR YOUR PROPERTY OF
WHICH THE BOARD SHOULD BE AWARE? The application of the setback
ordnance to the parcels unique, long and narrow shape
coupled with the lots size and steep, lake front topography
renders upgrades or additions excessively expensive or
potentially prohibited completely.
11. LIST SPECIAL CIRCUMSTANCES WHICH ARE PECULIAR TO THE LAND STRUCTURE
OR BUILDING IN QUESTION AND DO NOT GENERALLY APPLY TO THE NEIGHBORING
LANDS, STRUCTURES OR BUILDINGS IN THE SAME DISTRICT OR VICINITY. The lot,
as purchased by owner, is uncommonly
restricted due to multiple factors of lot size
lot shape, and terrain.

12. LIST REASONS WHY STRICT APPLICATION OF THE PROVISIONS OF THE ZONING
ORDINANCE WOULD DEPRIVE YOU OF REASONABLE USE OF THE LAND, STRUCTURE
OR BUILDING IN A MANNER EQUIVALENT TO THE USE PERMITTED TO BE MADE BY
OTHER OWNERS OF NEIGHBORING LANDS, STRUCTURES OR BUILDINGS IN THE SME
DISTRICT. Without a variance applicant will be unable
to adequately upgrade his lot.

13. WERE THESE SPECIAL CIRCUMSTANCES THE RESULT OF ANY ACTION TAKEN
SUBSEQUENT TO MAY 10, 1984? YES NO ☒

NOTE: Applications must be accompanied by additional information as outlined in the Board of Adjustment Application Procedures. (Page 1 of this packet). The Administrative Officer of the Zoning Ordinance will review the application for Variance and determine if sufficient data is contained to adequately describe the situation to the Board of Adjustment. If the data is not adequate, the Administrative Officer shall return the application to the applicant for additional information. Only completed applications shall be forwarded to the Board of Adjustment.

Dear Committee Members of The Board of Adjustment,

As members of this committee we appreciate the time and platform you have provided us to present our request. Our request is in regards to 4895 Pennel Lane located in Clown Cove Estates.

A tract of land lying wholly in Lot 2 of the aforementioned cove was purchased by our family some 44 years ago before there were real estate ordinances, rules or regulations. Our family purchased the lot with a 12x60 1971 mobile home intact. Throughout the years we have maintained the mobile home to the best of our ability. Our efforts include upgrading the inside with bathroom and kitchen remodels, cedar wood walls and doors, new flooring and windows, and new roofs over the years. We also performed system upgrades. As you might imagine, many things have plagued us over the years that are not as 'fixable.' One being the aging of the structure, however the most pertinent being black mold under the floors and in window sills.

It is our goal to replace the existing mobile home with a new structure. This will allow us to continue our family traditions as our family grows.

Thank you for your time and consideration.

Sincerely,

John & Maureen Green

**PLANNING DEPARTMENT
REPORT TO
BOARD OF ADJUSTMENT**

Date: August 16, 2023

Case Number: 348

Applicant: John Green

Location: 4895 Pennel Lane

Petition: Variance from minimum setback requirements

Purpose: Replace existing non-conforming structure

Existing Use: Single-family home

Zoning: M (Mobile Home)

Tract Size: Approximately 1,994 sq ft

<u>Case History</u>	<u>Case #</u>	<u>Date</u>
----------------------------	----------------------	--------------------

None

Utilities

<u>Water:</u>	City
<u>Electricity:</u>	Ameren

<u>Gas:</u>	Summit
<u>Sewer:</u>	City

Access: The subject property derives access from Pennel Ln.

Analysis:

1. The applicant is the owner of the property in question. The property is a portion of lot 2 of Clown Cove Estate and is designated with the physical address 4895 Pennel Lane.
2. The applicants are requesting a variance to replace the existing mobile home with a new house structure. As you can see on the site plan, the new structure is proposed to be one (1') foot from the front property line, eight tenths (.8') of a foot from the west side property line, and three and six tenths (3.6') feet from the rear property line. Approval of the requested variance will allow the city to issue a legal building permit to construct the addition as per the submitted site plan. In the R-1b zone, the minimum required front yard setback is twenty-five (25') feet from the front property line and the side yard setback requirement is ten (10') feet from the side property line.
3. It is worth noting that the proposed structure improves the non-conforming issues that exist with the current structure in which portions of it encroach over the property lines in both the front and rear of the lot. The proposed structure falls completely on the applicant's property and allows for the creation of two parking spaces, on their property, as opposed to parking in the Pennel Lane Right of Way or on the neighbor's property as they currently are forced to do.
4. Of course, if approved the addition cannot be built on or over any public utilities or easements.

Department Comments:

It of course is up to this board to use the facts in this case along with any written or verbal testimony and make the decision that is right.

If this request is approved, the following conditions shall apply:

1. The structure must be built according to the submitted site plan.
2. A minimum construction easement of fifteen (15') feet must be acquired from the adjacent property to the west of the subject property. This easement must be signed by all necessary property owners to make it legally executable and recorded with Camden County.
3. Any expansion or significant change in the proposal shall require Board of Adjustment approval.

4. A building permit must be obtained for the new construction and all other zoning codes be adhered to. The variance must be used within a year of the approval date.

Dear City of Osage Beach,

Craig and Brooke Loo are requesting another variance to rebuild our property at 4507 Cove Rd. Osage Beach, MO 65065 in the existing location so we are able to use the existing foundation which has been tested and verified by Miller Companies that the foundation is still good. We were unable to complete the 1 year rebuilding and permit process from December 15, 2021 due to the inability of being able to find a builder at the lake. We found a builder, Joe Elder from Overland Park, KS in April 2023 who plans to start the rebuilding process in September of 2023. We apologize it has taken awhile to get this process started but really hope it will be completed sometime next year!

Thank you for your time!
Brooke/Craig Loo

Subject: Case No. 349 4507 cove Rd

Good morning,

Per our conversation 8/1/23, we are unable to attend the meeting 8/16/23.

I understand this was already approved, didn't meet the expiration date, so has to be reprocessed.

We are owners of 4511 Cove Rd, we share the driveway and are informing you that we are fine with any construction machinery, vehicles and workers utilizing our property when needed for the completion of the home.

We do ask that the fence that is blocking access to the lower driveway, which is actually our property be removed to block only access to the other half of the access to their property.

My husband needs to drive down to that lower driveway as he is weak from his ongoing illness and cannot walk up the hill. It takes everything he can muster to make it up the steps and for that he has to sit after every 2 or 3 steps.

We hope all goes smoothly for the Loo family, and look forward to seeing the completed home.

Respectfully,

Date: August 16, 2023 **Case Number:** **349**

Applicant: Craig & Brook Loo

Location: 4507 Cove Road (behind 4505 Cove Road)

Petition: Variance from minimum setback requirements

Purpose: Rebuild dwelling on an existing foundation (structure destroyed by fire)

Existing Use: Single-family home

Zoning: R-1a (Single Family)

Tract Size: 13,977 sq ft

<u>Case History</u>	<u>Case #</u>	<u>Date</u>
Variance	345	12/15/21

Utilities

<u>Water:</u>	City	<u>Gas:</u>	Summit
<u>Electricity:</u>	Ameren	<u>Sewer:</u>	City

Access: The subject property derives access from Cove Road

Analysis:

1. The applicant is the owner of the property in question. The property is a platted lot designated as “Lot 1 of Frank Clark’s Subdivision” and is designated with the physical address 4507 Cove Road.
2. The dwelling structure at the subject location was destroyed by fire in June of 2021. At the time it was destroyed, the dwelling was a legal non-conforming structure. The applicants are requesting a variance from setback regulations to rebuild the structure on the existing foundation. The applicants have had an engineer do a structural evaluation of the existing foundation and it was found to be capable of handling the new structure. That report and statement will be submitted to the Building Official with the building permit application if the requested variance is approved.
3. The applicant is requesting a variance to rebuild a dwelling on an existing foundation that will be 6.25 ft. from the side property line and 23.88 ft. from the rear property line at its closest point. Approval of the requested variance will allow the city to issue a legal building permit to construct the dwelling as per the submitted site plan. The minimum required side yard setback in the R-1a zone is ten (10’) feet from the side property line and the required setback in the rear is thirty (30’) feet from the lakeside property boundary.
4. The applicant was granted a variance by the Board of Zoning Adjustment in December 2021, but failed to use the variance within a year which resulted in the variance being cancelled. This is the reason that the applicant is before the Board once again, requesting the same variance relief.
5. Of course, if approved the addition cannot be built on or over any public utilities or easements.

Department Comments:

It of course is up to this board to use the facts in this case along with any written or verbal testimony and make the decision that is right.

If this request is approved, the following conditions shall apply:

1. The structure must be built according to the submitted site plan.
2. Any expansion or significant change in the proposal shall require Board of Adjustment approval.
3. A building permit must be obtained for the new construction and all other zoning codes be adhered to. The variance must be used within one year of the approval date.

Note:
1. Bearings and Distances in parenthesis are from recorded deed(s) and/or plat(s).
2. All monuments found are 3/8" iron pins and all set monuments are 1/2" iron pins, unless otherwise noted.
3. Property is Zoned R-1.
