ROLL CALL

CITIZEN'S COMMUNICATIONS

This is a time set aside on the agenda for citizens and visitors to address the Mayor and Board on any topic that is not a public hearing. For those here in person, speakers will be restricted to three minutes unless otherwise permitted. Minutes may not be donated or transferred from one speaker to another.

Any questions or comments for the Mayor and Board may also be sent to the City Clerk at tberreth@osagebeach.org no later than 10:00 AM on the Board's meeting day (the 1st and 3rd Thursday of each month). Submitted questions and comments may be read during the Citizen's Communications section of the agenda.

The Board of Aldermen will not take action on any item not listed on the agenda, nor will it respond to questions, although staff may be directed to respond at a later time. The Mayor and Board of Aldermen welcome and value input and feedback from the public.

Is there anyone here in person who would like to address the Board?

APPROVAL OF CONSENT AGENDA

If the Board desires, the consent agenda may be approved by a single motion.

A Safe, Efficient, and Innovative Transportation Solution for Osage Beach

Date: March 7, 2023

The Challenge

The Grand Glaize Bridge, which connects the east and west sides of Osage Beach, poses significant safety risks for pedestrians and cyclists. The bridge serves as a single crossing point where two parallel roads, Highway 54 and Osage Beach Parkway, merge. The limited shoulder space, high-speed traffic, and lack of bike lanes or sidewalks make it dangerous for non-motorized traffic. The Missouri Department of Transportation (MODOT) has clearly stated that attaching a pedestrian crossway to the existing bridge is not feasible.

Explored Alternatives

Several alternatives have been explored to address this challenge, including a separate pedestrian bridge, a gondola, a ferry, a cable-pulled boat, and a floating bridge. However, each of these options comes with its own set of challenges, such as high costs, lengthy implementation timelines, regulatory hurdles, and design complexities.

The BeachLink Solution

After evaluating the alternatives, Blake Hodits, a strategic planning consultant and lake native, has proposed BeachLink – an autonomous bus system that emerged as the most promising solution.

BeachLink offers several advantages:

- Quick implementation timeline compared to other alternatives
- Reasonable cost compared to other alternatives
- Faster travel times than walking or biking
- 24-hour service availability
- Low maintenance requirements
- Enhanced safety features

BeachLink represents an opportunity for Osage Beach to showcase its commitment to innovation, sustainability, and the well-being of its residents. By implementing this cutting-edge transportation solution, the city can demonstrate its leadership in addressing complex challenges and improving the quality of life for all.

The proposed BeachLink route consists of a 3.2-mile loop with 4 smart stops, offering 3-minute ride times, 1-minute average wait times, and a 160-person hourly capacity (80 per direction). The **estimated cost range for implementing BeachLink is between \$950,000 and \$2.6 million**, which covers bus acquisition, planning and design, route training, smart bus stops, regulatory compliance, and operational costs.

Funding Options

Potential funding sources for BeachLink include:

- Safer Roads and Streets for All (SS4A) grant
- RAISE Grant
- Capital Investment Grant (CIG)
- Innovative Coordinated Access and Mobility Grant (ICAM)
- Community Development Block Grant (CDBG)

Next Steps

To move the BeachLink project forward, the next step is to include the exploration study in the scope of the SS4A grant. This will allow for a thorough evaluation of the feasibility, benefits, and implementation plan for the autonomous bus system.

As the proposer of BeachLink, Blake Hodits is well-equipped to guide the implementation of this innovative solution. With his experience in leading large-scale projects and his deep understanding of the community's needs, he is committed to working with the city to enhance safety, connectivity, and quality of life for Osage Beach residents.

Disclaimer

While autonomous bus technology is rapidly advancing, it is important to note that the fastest autonomous buses currently operate at a maximum speed of 50 mph. The feasibility of the BeachLink proposal will be subject to the findings of the exploration study. However, it is believed that autonomous bus technology will be available sooner than the time required to build a traditional pedestrian bridge.

Mayor and Members of the Board,

Regarding the Liquor License application for Ballparks National. The requested liquor license is a full license that would allow liquor, wine and beer to be sold at the City Park.

When the City held the Liquor License we were only licensed for wine and beer, as is the case with most city parks that sell alcohol.

My professional opinion and experience have been that adding the hard liquor leads to intoxication quicker with less quantity of beverages. When individuals become intoxicated, they also tend to change their behavior which cannot always be favorable, especially when sports are involved. I know we want the visitors to our city park to have a great experience when visiting.

I reached out to the other Liquor Control Board members and the consensus was that it should be limited to Wine and Beer only. I, Alderman Hoffman, and Collector Brad Smith felt that wine and beer were sufficient. Member Susan Ebling was in favor of the full license.

Ultimately this is a board decision.

Respectfully,

Todd Davis
Police Chief

Section 610.050 Application For Identification Card or Food Truck Permit.

Any person or organization may apply for one (1) or more identification cards **or a Food Truck Permit** by completing an application form at the office of the City Clerk during regular office hours.

Section 610.060 Contents of Application.

A. The applicant shall provide the following information:

1. Name of applicant. **If the applicant is a company, LLC, corporation, partnership, or other entity, said entity shall provide the name(s) of all responsible owners, members, officers, and/or employees of said entity and provide the following information for each.**
2. Number of identification cards **or permits.**
3. The name, physical description and photograph of each **applicant** ~~person for which a card is requested~~. In lieu of this information, a driver's license, State identification card, passport or other government-issued identification (issued by

a government within the United States) containing this information may be provided and a photocopy taken. If a photograph is not supplied, the City will take an instant photograph of each person for which a card is requested at the application site. The actual cost of the instant photograph will be paid by the applicant.

4. The permanent and (if any) local address of the applicant.
5. The permanent and (if any) local address of each **applicant**~~person for whom a card is requested~~.
6. A brief description of the proposed activity related to this ~~identification card~~**application**. (Copies of the literature to be distributed may be substituted for this description at the option of the applicant.)
7. ~~Date and place of birth for each applicant person for whom a card is requested and the Social Security number of such person.~~
8. A list of all ~~infraction, offense,~~ misdemeanor and felony convictions of each **applicant** ~~person for whom a card is requested~~ for the seven (7) years immediately prior to the application.
9. The motor vehicle make, model, year, color and State license plate number of any vehicle that will be used by each **applicant**~~person for whom a card is requested~~.
10. If a card is requested for a peddler, the following additional requirements shall be met:
 - a. The name and permanent address of the business offering the event, activity, good or service (i.e., the peddler's principal).
 - b. A copy of the principal's sales tax license as issued by the State of Missouri showing Osage Beach as their place of business, provided that no copy of a license shall be required of any business which appears on the City's annual report of sales tax payees as provided by the Missouri Department of Revenue.
 - c. The location where books and records are kept of sales which occur within the City and which are available for City inspection to determine that all City sales taxes have been paid.
 - d. Written permission from the property owner where the proposed activity is to take place.
 - e. Peddlers are specifically prohibited from setting up in a fixed location unless all requirements of the Osage Beach Zoning Code have been met.

11. If a Food Truck Permit is requested:

- a. A copy of the applicant's current health inspection showing that the applicant meets all current health requirements.
- b. A copy of all approvals required by the county(ies) in which the applicant intends to operate.
- c. The address of the applicant's commissary location.
- d. Written permission from the owner or other person in rightful control of the property (such as a lessee) where the establishment intends to operate. If additional locations are added after issuance of the identification card, such written permissions must be provided to the City Clerk before the Food Truck may operate there.

~~If a card is requested for a solicitor, the following additional requirements shall be met:~~

- ~~a. The name and permanent address of the organization, person or group for whom donations (or proceeds) are accepted.~~
- ~~b. The web addresses for this organization, person or group (or other address) where residents having subsequent questions can go for more information.~~

Section 610.070 Issuance of Identification Card ~~or Food Truck Permit.~~

- A. ~~The identification card(s) and Food Truck Permits~~ shall be issued promptly after application but in all cases within sixteen (16) business hours of completion of an application, unless it is determined within that time that:
1. The applicant has been convicted of a felony or a misdemeanor involving moral turpitude within the past seven (7) years;
 2. With respect to a particular ~~application card~~, the ~~applicant individual for whom a card is requested~~ has been convicted of any felony or a misdemeanor involving moral turpitude within the past seven (7) years; ~~or~~
 3. Any statement upon the application is false, unless the applicant can demonstrate that the falsehood was the result of excusable neglect.

Section 610.080 Investigation.

~~During the period of time following the application for one (1) or more identification cards and its issuance, the City shall investigate as to the truth and accuracy of the information contained in the application. If the City has not completed this investigation within the sixteen (16) business hours provided in Section 610.070, the identification card will nonetheless be issued, subject, however to administrative revocation upon completion of the investigation.~~

Section 610.090 Denial — Administrative Revocation.

If the issuing officer denies (or upon completion of an investigation revokes) ~~an~~ the identification card **or Food Truck Permit** to one (1) or more persons, he/she shall immediately convey the decision to the applicant orally and shall within sixteen (16) working hours after the denial prepare a written report of the reason for the denial which shall be immediately made available to the applicant. Upon receipt of the oral notification, and even before the preparation of the written report, the applicant shall have at his/her option an appeal of the denial of his/her application before the **Board of Aldermen** ~~Municipal Court of the City~~, provided that such a hearing will be scheduled within **twenty (20)** ~~ten (10)~~ days of the request, due notice of which is to be given to the public and the applicant.

Section 610.100 Hearing On Appeal.

If the applicant requests a hearing under Section **610.090**, the hearing shall be held in accordance with the Administrative Procedure Act of the State of Missouri and review from the decision (on the record of the hearing) shall be had to the Circuit Court of Camden County. The hearing shall also be subject to the Missouri **Sunshine** ~~Open Meetings and Records~~ law.

Section 610.130 Revocation of Card **or Food Truck Permit.**

- A. In addition to the administrative revocation of an identification card, a card may be revoked for any of the following reasons:
1. Any violation of this Chapter by the applicant or by the person for whom the particular card was issued.
 2. Fraud, misrepresentation or incorrect statement made in the course of carrying on the activity.
 3. Conviction of any felony or a misdemeanor involving moral turpitude within the last seven (7) years.
 4. Conducting the activity in such a manner as to constitute a breach of the peace or a menace to the health, safety or general welfare of the public.

Section 610.170 Additional Requirements for Food Trucks.

A. Any person operating a Food Truck:

1. Shall not operate within City limits without a merchant's license as required by Section **605.020** of this Code.
2. Shall not set up and remain in a fixed location unless all requirements of the Zoning Code of the City have been met.
3. Shall not operate within 200 feet of any Bar, Restaurant, or Outdoor Dining Area as those terms are defined in Section **405.020** of this Code without the written consent of such Bar, Restaurant, or Outdoor Dining Area, unless operating on the property of an existing Bar or Restaurant with the permission of

the owner or other person in rightful control of the property (such as a lessee). Such distance shall be measured between the Food Truck and the nearest edge of the other structure (including walls, awnings, patios, decks, stairs, or any like improvements).

4. Shall not stand, walk or loiter on the roadway or in any other manner stall, delay or obstruct the normal flow of traffic.
 5. Shall not operate in such a manner as to cause grease or other waste to flow into private or public sewers, or otherwise violate the requirements of Section **710.280** of this Code regarding prohibited discharges.
 6. Shall not fail to provide means for the Food Truck and its customers to dispose of trash and other solid waste in a sanitary and safe manner, or to fail to collect and dispose of solid waste attributable to the Food Truck, or to otherwise violate Section **215.060** of this Code.
 7. Shall comply with all applicable federal, state, and local laws regarding food service and food safety, including but not limited to the Missouri Food Code as stated in 19 C.S.R. § 20-1.025 Sanitation of Food Establishments.
 8. Shall comply with all requirements and instructions of the Health Departments of Camden and/or Miller Counties (as appropriate).
- B. Upon the violation of any of the terms of this Article, any Food Truck Permit may be temporarily suspended by the City Clerk, or revoked after an opportunity for a hearing by the City Administrator upon serious or repeated violations. The City Clerk shall have the specific authority to suspend the permit of any Food Truck when such shall constitute a public health hazard or jeopardizes public health by reason of food that is unsafe for human consumption. Any Food Truck may at any time make an application for the reinstatement of its permit. Within five business days after the receipt of a satisfactory application, accompanied by a statement signed by the applicant to the effect that the violated provision has been conformed with, the City Clerk shall determine whether the violation has been corrected and so inform the applicant. Once the City Clerk determines the violation has been resolved, the Food Truck Permit shall be reissued unless it has been revoked under this section.

Section 2. Severability

The chapters, sections, paragraphs, sentences, clauses and phrases of this ordinance are severable, and if any phrase, clause, sentence, paragraph or section of this ordinance shall be declared unconstitutional or otherwise invalid by the valid judgment or degree of any Court of any competent jurisdiction, such unconstitutionality or invalidity shall not affect any of the remaining phrases, clauses, sentences, paragraphs, or sections of this ordinance since the same would have been enacted by the Board of Aldermen without the incorporation in this ordinance of any such unconstitutional or invalid phrase, clause, sentence, paragraph or section.

Section 3. Repeal of Ordinances not to affect liabilities, etc.

Whenever any part of this ordinance shall be repealed or modified, either expressly or by implication, by a subsequent ordinance, that part of the ordinance thus repealed or modified shall continue in force until the subsequent ordinance repealing or modifying the ordinance shall go into effect unless therein otherwise expressly provided; but no suit, prosecution, proceeding, right, fine or penalty instituted, created, given, secured or accrued under this ordinance previous to its repeal shall not be affected, released or discharged but may be prosecuted, enjoined and recovered as fully as if this ordinance or provisions had continued in force, unless it shall be therein otherwise expressly provided.

Section 4. That this Ordinance shall be in full force and effect from and after the date of passage and approval of the Mayor.

City Administrator Comments:
Discussion with the Board of Aldermen regarding proposed water and sewer rate schedule changes occurred at the January 18, 2024 Board of Aldermen meeting. The stated rate adjustments will adequately fund our water and wastewater (sewer) systems. This is a required Public Hearing for such changes to our user charges per State Statutes, and said notice required a 30-day notice. The Public Hearing notice was published on February 13, 2024, enclosed. The first readings for user rate changes follow the Public Hearing, for the Board's consideration.

Osage Beach Water and Sewer User Rate Schedule Changes

Osage Beach, MO – The City is committed to operating its water and sewer systems in a safe, lawful, and financially sound manner, and providing excellent water and sewer utility services. To achieve this goal, it has become necessary to increase user fee rates.

Economic factors, including inflation and supply-chain issues which has greatly increased the costs of equipment, materials and labor, coupled with an increase in needed system repairs and improvements over the past 24 months has contributed to an unprecedented increase in system expenditures and use of financial reserves. Increases are needed for the purpose of operating, maintaining, and improving the water and sewer systems, and to replenish adequate reserves and ensure revenues for overall operation and maintenance of the system are generated.

A Public Hearing will be held on March 21, 2024, at the 5:30 PM Board of Aldermen meeting at City Hall. Proposed rate schedule changes were presented to the Board of Aldermen last month and are enclosed. Rate schedule changes are anticipated to be effective July 1, 2024, upon Board of Aldermen approval. The Board of Aldermen will consider the First Readings of the applicable bills following the scheduled public hearing.

The City's water system was built in the early 2000s and currently serves nearly 6,100 users. The City's 8 wells with 4 water towers produced nearly 380 million gallons of water for our system's users. The City's sewer system was built in the 1980s and currently serves nearly 7,100 users. The system includes over 1,200 grinder pump stations and 59 sewer lift stations. Sewer flows from our system's users equated to over 352 million gallons in 2023.

Over the past four years, the number of utility users has grown 6% in both the water and sewer systems.

City Attorney Comments:

Per City Code 110.230, Bill 24-12 is in correct form.

City Administrator Comments:

The proposed rates are based on the presented data and discussion from the January 18, 2024 meeting. Financial activity in the Sewer Fund realized since the previous rate increase has outpaced historical expenditure trends and forecast activity, and the use of reserves and other unrestricted monies has been needed to fill financial gaps in the Sewer Fund. Economic factors, such as inflation and supply-chain issues, as well as unexpected system breakages/failures have contributed to the unprecedented increase

in expenditure trends since mid-late 2022 and throughout 2023.

Sewer rate increases are needed to ensure adequate revenues for overall operation and maintenance of the system are generated, including replenishing reserves and continuing a more aggressive approach to system repair and improvements to meet increased demands and maintenance requirements of our system.

The enclosed presentation outlines details for the Water and Sewer Systems, including billing estimates and area rate comparisons.

AN ORDINANCE OF THE CITY OF OSAGE BEACH, MISSOURI, AMENDING CHAPTER 710 SEWERS AND SEWERAGE SYSTEMS, ARTICLE VII USER CHARGE SYSTEM, SECTION 710.470 RATE SCHEDULE.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE CITY OF OSAGE BEACH, MISSOURI AS FOLLOWS:

Section 1. That the Code of Ordinances of the City of Osage Beach, in Chapter 710, specifically Section 710.470 Rate Schedule are hereby enacted with amendments as set forth below with new material set out in **RED** and deleted material struck as follows:

Section 710.470 Rate Schedule:

- A. It is determined to be necessary and conducive of the public health, safety, welfare and convenience of the City to collect charges from all customers who use the public sewer system. The proceeds of such charges so derived will be used for the purpose of operating, maintaining, retiring the debt, improvements and extensions for such public sewer system.
- For metered customers, the sewer user charge shall be the monthly minimum sewer rate defined in Subsection (1) below plus the volumetric sewer rate defined in Subsection (2) below.
- For non-metered customers, the monthly sewer user charge shall be the flat rate charge defined in Subsection (3) below.
1. *Monthly minimum rate.* The sewer monthly minimum rates for both in-City and out-of-City customers are scheduled as follows:

	Effective May 1, 2023	
Meter Size	In-City	Out-Of-City
5/8 inch	\$18.20	\$39.58
1 inch	\$24.45	\$54.41

4 inch	\$442.78	\$1,093.60
6 inch	\$536.86	\$1,327.18

2. *Volumetric rate.* For sewer customers on metered water service, the sewer volumetric rate is charged per one thousand (1,000) gallons of metered water consumption in excess of the first one thousand (1,000) gallons included in the monthly minimum rate. The volumetric rates are scheduled as follows:

Effective ~~May 1, 2023~~ July 1, 2024

Per 1,000 gallons	\$2.52 \$3.78
-------------------	---------------------------------

3. *Flat rate.* For sewer customers without metered City water service, the monthly sewer charge shall be a flat rate charge based on the user's defined class(es).
- b. *Flat rate charges.* The monthly flat rate charges for both in-City and out-of-City customers are scheduled as follows:

~~Effective May 1, 2023~~

City Attorney Comments:

Per City Code 110.230, Bill 24-13 is in correct form.

City Administrator Comments:

The proposed rates are based on the presented data and discussion from the January 18, 2024 meeting. Financial activity in the Water Fund realized since the previous rate increase has outpaced historical expenditure trends and forecast activity, and the use of reserves and other unrestricted monies has been needed to fill financial gaps in the Water Fund. Economic factors, such as inflation and supply-chain issues, as well as unexpected system breakages/failures have contributed to the unprecedented increase in expenditure trends since mid-late 2022 and throughout 2023.

Water rate increases are needed to ensure adequate revenues for overall operation and maintenance of the system are generated, including replenishing reserves and continuing a more aggressive approach to system repair and improvements to meet increased usage demands and maintenance requirements of our system.

The enclosed presentation outlines details for the Water and Sewer Systems, including billing estimates and area rate comparisons.

AN ORDINANCE OF THE CITY OF OSAGE BEACH, MISSOURI, AMENDING CHAPTER 705 WATERWORKS; ARTICLE IV RATES AND CHARGES, SECTION 705.300 RATES AND CHARGES.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE CITY OF OSAGE BEACH, MISSOURI AS FOLLOWS:

Section 1. That the Code of Ordinances of the City of Osage Beach, in Chapter 705, specifically Section 705.300 Rates and Charges are hereby enacted with amendments as set forth below with new material set out in **RED** and deleted material struck as follows:

Section 710.470 Rate Schedule:

- A. It is determined to be necessary and conducive of the public health, safety, welfare and convenience of the City to collect charges from all customers who use and/or are connected to the public water system. The proceeds of such charges so derived will be used for the purpose of operating, maintaining, retiring the debt, improvements, and extensions for such water system. The water user charge shall be the monthly minimum rate defined in Subsection (1) below plus the volumetric rate defined in Subsection (2) below.
1. *Monthly minimum rate.* The monthly minimum rate includes 0-1,000 gallons of water consumption and is applicable to all residential, commercial, or industrial users of the City's water system. The monthly minimum rates are scheduled as follows:

Effective May 1, 2023

City of Osage Beach Water and Sewer User Charges

Jeana Woods

City Administrator

February 15, 2024

Water & Sewer User Charge Systems

- Provide clean, safe, and affordable water to our community
- Operate our water and sewer systems in a safe, lawful, and financially sound manner
- Requirements
 - Fair and Equitable Rate for all users (*SRF, DNR*)
 - Combined Water & Sewer - < 4.5% of MHI requirements apply per EPA
 - Collect adequate revenues *annually* for O&M, Retiring Debt, Depreciation and Replacement Reserve, Improvements and Extensions (*SRF, DNR*)
 - Ensure system generates adequate revenues for operation and maintenance

Current Position

■ Water

- Majority of system was built in early 2000s
- Nearly 250 miles of water line, 8 wells, 4 towers, and 999 fire hydrants to maintain
- Nearly 6,100 users - *6% increase since 2019*
 - *Residential users = 87% - 6% increase since 2019*
 - *3% non-metered users*
 - *Commercial users = 13% - 5% increase since 2019*
 - *4% are non-metered users*
- Since 2019 – Slight decrease in non-metered customers; slight increase in Out-of-City customers (Current - In-City=99%; Out-of-City=1%)
- Billed Consumption – FY2023 = 379 million gallons, approx. 9% increase from FY2022
- In-City build-out nearly 100% (less than 25 users unserved)

Current Position

■ Sewer

- ❑ Majority of the system was built in the mid-1980s
- ❑ Approximately 153 miles of sewer line, over 1,200 grinder stations, and 59 lift stations to maintain
- ❑ Nearly 7,100 users – *5% growth since 2019*
 - *Residential users = 86% - 6% increase since 2019*
 - ❑ *17% non-metered users*
 - *Commercial users = 14% - 4% increase since 2019*
 - ❑ *27% non-metered users*
- ❑ Since 2019 – Slight decrease in non-metered customers; slight increase in Out-of-City customers (Current - In-City=91%; Out-of-City=8%)
- ❑ WWTP Flows – FY2023 = 352 million gallons; approx. 9% decrease from FY2022
- ❑ In-City build-out nearly at 100% (less than 50 users unserved)

Review Analysis

■ Water

□ Rate Increase History

- FY2007 – Revamped entire user charge system methodology (DNR Approved)
- FY2010 (12.9%); FY2012 (3.5%); FY2014 (4.0%); FY2016 (15.0%); FY2018 (5.0%); FY2023 (11.0%).
- **Rate Increase recommended – replenish reserves; increase in consumption of users; accommodate further capital investment to aging system.**

■ Depreciation and Replacement (D & R) Account

- MoDNR require adequate reserves for asset management & replacement – Adjustments to funding needed
- 20-year schedule updated - Includes Repair of System; Tower, Tank, & Well Improvements; Capital Improvements; Other Operating Capital Schedules (i.e. equipment, truck replacements, etc.) – Excludes Infrastructure Capacity Expansion
- Current balance \$1.2 million; Balance to maintain = \$1.8 – \$2.0 million.

Department Comments and Recommendation:

This request is for a not to exceed amount for FY2024 in the amount of \$700,000 for services provided under the current master contract with LOR Engineering, LLC (Cochran Engineering). These services are billed to the applicable fund's expenditure line items as budgeted based on the services rendered. Expenditures approved through other supplemental contracts with Cochran for specific projects are not included in this amount as they are approved within said supplemental contracts as approved and budgeted by the Board of Aldermen. Cochran is currently handling all private commercial property utility review and inspection for the City, in addition to the engineering and inspection on all, but a few budgeted, City construction projects.

City Attorney Comments:

Per City Code 110.230, Bill 24-15 is in correct form.

City Administrator Comments:

I concur with the department's recommendation.

Department Comments and Recommendation:

This is the agreement that we would like to put in place that will govern the responsibilities of both the City and the Elk's Lodge after the Memorial is constructed. Cole has spent a lot of time reviewing and modifying this agreement and I think we have finally resolved all the issues related to the ongoing maintenance and support needed for this to be a successful partnership in support of the proposed Veterans Memorial Project.

Both parties' obligations are listed in the attached agreement, which I will review with the board at the meeting.

I recommend approval

FY2024 Budgeted Amount: \$214,000

FY2024 Expenditures to Date (03/11/24): (\$0.00)

FY2024 Available: \$214,000

FY2024 Requested Amount: \$208,792

Department Comments and Recommendation:

This project is a carry over from 2023, and it has went through several modifications. It was previously bid out in 2023, but was rejected due to budgetary constraints.

It was bid out again in December 2023 with the hope that the project could be constructed in the spring and summer of 2024. The bids were opened on 01/19/2024. The City received two bids and the low bidder was Don Scchnieder's Excavating. The City has worked with this contractor multiple times with good results. Most recently they were awarded the Bluff Drive Shoulder Repair Project.

The budget for this project is \$152,000, so this project is over budget. We are asking to use savings (\$51,000) recently realized on the Peanick Park Playground engineering project to offset most of the overage here. That would leave \$5,792.00 still needed which will have to come out of general fund if this project is approved.

I recommend approval.

City Attorney Comments:

Per City Code 110.230, Bill 24-18 is in correct form.

City Administrator Comments:

I concur with the department's recommendation.

It is mutually understood and agreed by and between the parties of this Contract, in signing the Agreement thereof, that time is of the essence in this Contract. In the event that the Contractor shall fail in the performance of the Work specified and required to be performed within the period of time stipulated therefore in the Agreement binding said parties, after due allowance for any extension of time which may be granted under provisions of the General Conditions, the Contractor shall pay unto the Owner, as stipulated, liquidated damages and not as a penalty, the sum stipulated therefore in the Contract Agreement for each and every consecutive calendar day that the Contractor shall be in default.

In case of joint responsibility for any delay in the final completion of the Work covered by the Agreement; where two or more separate Agreements are in force at the same time and cover work on the same project and at the same site, the total amount of liquidated damages assessed against all contractors under such Agreement for any one day of delay in the final completion of the Work will not be greater than the approximate total of the damages sustained by the Owner by reason of such delay in completion of the Work, and the amount assessed against any Contractor for such one day of delay will be based upon the individual responsibility of such Contractor for the aforesaid delay as determined by and in the judgment of the Owner.

The Owner shall have the right to deduct said liquidated damages from any moneys in its hands, otherwise due or to become due to said Contractor, or sue for and recover compensation for damages for nonperformance of the Agreement at the time stipulated herein and provided for.

The undersigned hereby agrees to enter into Contract on the attached Agreement Form and furnish the necessary bond within fifteen (15) consecutive calendar days from the receipt of Notice of Award from the Owner's acceptance of this Bid, and to complete said Work within the indicated number of consecutive calendar days from the thirtieth day after the Effective Date of the Agreement, or if a Notice to Proceed is given, from the date indicated in the Notice to Proceed.

If this Bid is accepted and should Bidder for any reason fail to sign the Agreement within fifteen (15) consecutive calendar days as above stipulated, the Bid Security which has been made this day with the Owner shall, at the option of the Owner, be retained by the Owner as liquidated damage for the delay and expense caused the Owner; but otherwise, it shall be returned to the undersigned in accordance with the provisions set forth on page IB-5, paragraph 6.0 Bid Security.

Dated at Jefferson City, MO this 19th day of January, 20 24.

AGREEMENT

THIS AGREEMENT, made and entered into this _____ day of _____, 2023, by and between the **City of Osage Beach**, Party of the First Part and hereinafter called the **Owner**, and _____

WITNESSETH:

THAT WHEREAS, the City of Osage Beach has caused to be prepared, in accordance with law, specifications, plans, and other contract documents for the work herein described and has approved and adopted said documents, and has caused to be published, in the manner and for the time required by law, an advertisement for and in connection with the construction of the improvements, complete, in accordance with the contract documents and the said plans and specifications; and

WHEREAS, the Contractor, in response to such advertisement, has submitted to the Owner, in the manner and at the time specified, a sealed bid in accordance with the terms of said advertisement;

WHEREAS, the Owner, in the manner prescribed by law, has publicly opened, examined and canvassed the bids submitted in response to the published advertisement therefor, and as a result of such canvass has determined and declared the aforesaid Contractor to be the lowest responsive and responsible Bidder for the said work and has duly awarded to the said Contractor a contract therefor, for the sum or sums named in the Contractor's bid, a copy thereof being attached to and made a part of this contract.

NOW, THEREFORE, in consideration of the compensation to be paid to the Contractor and of the mutual agreements herein contained, the Parties to these presents have agreed and hereby agree, the Owner for itself and its successors, and the Contractor for its, his, or their executors and administrators, as follows:

ARTICLE I. That the Contractor shall (a) furnish all tools, equipment, supplies, superintendence, transportation, and other construction accessories, services and facilities; (b) furnish all materials, supplies and equipment specified and required to be incorporated in and form a permanent part of the completed work except the items specified to be furnished by the Owner; (c) provide and perform all necessary labor; and (d) in a good, substantial, and workmanlike manner and in accordance with the provisions of the General Conditions and Supplementary Conditions of this contract which are attached hereto and make a part hereof, and in conformance with the contract plans and specifications designated and identified therein, execute, construct, and complete all work included in and covered by the Owner's official award of this contract to the said Contractor, such award being based on the acceptance by the Owner of the Contractor's bid for the construction of the improvements.

ARTICLE II. That the Contractor shall construct, complete as designated and described in the foregoing Bid Form and attached specifications and in accordance with the Advertisement for Bids, Instructions to Bidders, Bid Form, Bonds, General Conditions, Supplementary Conditions, detailed specifications, plans, addenda, and other component parts of the contract documents hereto attached, all of which documents form the contract and are fully a part hereto as if repeated verbatim here.

ARTICLE III. That the Owner shall pay to the Contractor for the performance of the work described as follows:

Veterans Memorial

and the Contractor will accept as full compensation thereof, the sum (subject to adjustment as provided by the contract) of _____ for all work covered by and included in the contract award and designated in the foregoing Article I. Payment therefor shall be made in the manner provided in the General Conditions and Supplementary Conditions attached hereto.

ARTICLE IV. That the Contractor shall begin assembly of materials and equipment within fifteen (15) days after receipt from the Owner of executed copies of the contract and that the Contractor shall complete said work within **(90)** consecutive calendar days from the thirtieth day after the Effective Date of the agreement, or if a Notice to Proceed is given, from the date indicated in the Notice to Proceed.

Veterans Memorial

Owner and Contractor recognize time is of the essence of this agreement and that Owner will suffer financial loss if the work is not completed within the time specified above, plus any extensions thereof allowed in allowance with Article 11 of the General Conditions. Owner and Contractor agree that as liquidated damages for delay, but not as a penalty, Contractor shall pay Owner Five Hundred dollars (\$ 500.00) for each and every calendar day of each section that expires following the time specified above for completion of the work.

ARTICLE V. This Agreement will not be binding and effective until signed by the Owner.

IN WITNESS WHEREOF, the Parties hereto have executed this contract as of the day and year first above written.

Budget Line Information (if applicable):

Department Comments and Recommendation:

This grant agreement provides the City reimbursement for the design services for the Lee C. Fine Airport Runway and Lighting Rehab Project. This grant agreement is for \$243,185.00, which is not enough to cover the engineering cost. The engineering cost is actually \$321,000 and 90% of that would be \$288,900.00. The reason for the short fall is related to the City not receiving our 2024 financial allotment from the FFA yet. We normally receive approval to use each year's funds in June or July.

The \$45,715.00 short fall will be amended into the agreement later this year when the funds become available to the City. So, I will be back before you later this year seeking approval for this amendment. In the meantime, we need to get CMT working on the project. If we were to reach the total amount approved in this grant agreement prior to receiving the additional funds needed, the project would be put on hold until the funds

are allocated.

I recommend approval.

City Attorney Comments:

Per City Code 110.230, Bill 24-19 is in correct form.

City Administrator Comments:

**MISSOURI HIGHWAYS AND TRANSPORTATION COMMISSION
STATE BLOCK GRANT AGREEMENT**

THIS GRANT AGREEMENT is entered into by the Missouri Highways and Transportation Commission (hereinafter, "Commission") and the City of Osage Beach (hereinafter, "Sponsor"). Reference will also be made to the Federal Aviation Administration (hereinafter, "FAA") and the Federal Airport Improvement Program (hereinafter, "AIP").

WITNESSETH:

WHEREAS, Section 116 of the federal Airport and Airway Safety and Capacity Expansion Act of 1987 amended the previous Act of 1982 by adding new section 534 entitled "State Block Grant Pilot Program", (Title 49 United States Code (USC) Section 47128); and

WHEREAS, the Federal Aviation Reauthorization Act of 1996 declared the State Block Grant Program to be permanent; and

WHEREAS, the Commission has been selected by the FAA to administer state block grant federal funds under said program; and

WHEREAS, the Sponsor has applied to the Commission for a sub grant under said program; and

WHEREAS, the Commission has agreed to award funds to the Sponsor with the understanding that such funds will be used for a project pursuant to this Agreement for the purposes generally described as follows:

Rehabilitate Runway 4/22 and Lighting;

NOW, THEREFORE, in consideration of these mutual covenants, promises and representations, the parties agree as follows:

(1) PURPOSE: The purpose of this Agreement is to provide financial assistance to the Sponsor under the State Block Grant Program.

(2) PROJECT TIME PERIOD: The project period shall be from the date of execution by the Commission to September 30, 2025. The Commission's assistant chief engineer may, for good cause as shown by the Sponsor in writing, extend the project time period.

(3) TITLE EVIDENCE TO EXISTING AIRPORT PROPERTY: The Sponsor shall provide satisfactory evidence of title to all existing airport property and avigation easements and address any and all encumbrances. Satisfactory evidence will consist of the Sponsor's execution of a Certificate of Title form provided by the Commission.

(4) AMOUNT OF GRANT: The initial amount of this grant is not to exceed Two Hundred Forty-Three Thousand One Hundred Eighty-Five Dollars (\$243,185) for eligible preliminary project costs and/or land/easement acquisition. A grant amendment to cover the balance of eligible project costs will be provided after construction bids are received.

(A) The amount of this grant stated above represents ninety percent (90%) of eligible project costs.

(B) The designation of this grant does not create a lump sum quantity contract, but rather only represents the amount of funding available for qualifying expenses. In no event will the Commission provide the Sponsor funding for improvements or work that are not actually performed. The release of all funding under this Agreement is subject to review and approval of all project expenses to ensure that they are qualifying expenses under this program.

(5) AMOUNT OF MATCHING FUNDS: The initial amount of local matching funds to be furnished by the Sponsor is not to exceed Twenty Seven Thousand Twenty Dollars (\$27,020).

(A) The amount of matching funds stated above represents ten percent (10%) of eligible project costs.

(B) The Sponsor warrants to the Commission that it has sufficient cash on deposit to provide the local matching funds identified above, as well as to cover one hundred percent (100%) of any ineligible items included in the scope of work.

(6) ALLOWABLE COSTS: Block grant funds shall not be used for any costs that the Commission and/or the FAA has determined to be ineligible or unallowable in accordance with 49 USC Chapters 471 and 475.

(7) WITHDRAWAL OF GRANT OFFER: The Commission reserves the right to amend or withdraw this grant offer at any time prior to its acceptance by the Sponsor.

(8) EXPIRATION OF GRANT OFFER: This grant offer shall expire, and the Commission shall not be obligated to pay any part of the costs of the project unless this grant Agreement has been executed by the Sponsor on or before May 1, 2024, or such subsequent date as may be prescribed in writing by the Commission.

(9) FEDERAL SHARE OF COSTS: The United States' share of the allowable project costs will be made in accordance with 49 USC §47109 and the provisions of such

regulations, policies and procedures as the Secretary of the United States Department of Transportation (USDOT) shall practice. Final determination of the United States' share will be based upon the final audit of the total amount of allowable project costs, and settlement will be made for any upward or downward adjustments to the federal share of costs.

(10) COMPLETING THE PROJECT WITHOUT DELAY AND IN CONFORMANCE WITH REQUIREMENTS: The Sponsor must assure that the project is carried out and completed without undue delays and in accordance with this Agreement, applicable laws, statutes, regulations, and policies and procedures of the USDOT Secretary. Per 2 Code of Federal Regulations (CFR) §200.308, the Sponsor agrees to report to the Commission any disengagement from funding eligible expenses under the Agreement and any subgrants thereto that exceed three months and request prior approval from the Commission. The report must include a reason for the stoppage. The Sponsor agrees to comply with the attached assurances, which are part of this Agreement. These assurances, conditions, and any addendums apply to any subgrants issued under this Agreement.

(11) RECOVERY OF FEDERAL FUNDS: The Sponsor shall take all steps, including litigation if necessary, to recover federal funds spent fraudulently, wastefully, in violation of federal antitrust statutes, or misused in any other manner for any project upon which federal funds have been expended. For the purpose of this grant Agreement, the term "federal funds" means funds however used or disbursed by the Sponsor that were originally paid pursuant to this or any other federal grant Agreement. The Sponsor must obtain the approval of the Commission as to any determination of the amount of the federal share of such funds. The Sponsor shall return the recovered federal share, including funds recovered by settlement, order or judgment, to the Commission. The Sponsor shall furnish to the Commission, upon request, all documents and records pertaining to the determination of the amount of the federal share or to any settlement, litigation, negotiation, or other efforts taken to recover such funds. All settlements or other final positions of the Sponsor, in court or otherwise, involving the recovery of such federal share shall be approved in advance by the Commission.

(12) UNITED STATES NOT LIABLE FOR DAMAGE OR INJURY: The United States is not responsible or liable for damage to property or injury to persons that may arise from, or be incident to, compliance with this Agreement or subgrants issued under this Agreement, including, but not limited to, any action taken by a Sponsor related to or arising from, directly or indirectly, this Agreement.

(13) PAYMENT: Payments to the Sponsor are made on an advance basis. The Sponsor may request incremental payments during the course of the project or a lump sum payment upon completion of the work. However, this advance payment is subject to the limitations imposed by subparagraph (13)(B) of this Agreement.

(A) The Sponsor may request payment at any time subsequent to the execution of this Agreement by both parties. Requests for reimbursement shall be

supported with invoices. After the Sponsor pays incurred costs, copies of checks used to pay providers must be submitted to the Commission.

(B) It is understood and agreed by and between the parties that the Commission shall make no payment which could cause the aggregate of all payments under this Agreement to exceed ninety percent (90%) of the maximum federal (block grant) obligation stated in this Agreement or eighty-six percent (86%) of actual total eligible project cost, whichever is lower, until the Sponsor has met and/or performed all requirements of this grant Agreement to the satisfaction of the Commission. The final ten percent (10%) of the maximum federal (block grant) obligation stated in this Agreement shall not be paid to the Sponsor until the Commission has received and approved all final closeout documentation for the project.

(C) Within ninety (90) days of final inspection of the project funded under this Agreement, the Sponsor shall provide to the Commission a final payment request and all financial, performance and other reports as required by the conditions of this Agreement, with the exception of the final audit report. This report shall be provided when the Sponsor's normal annual audit is completed.

(D) When force account or donations are used, the costs for land, engineering, administration, in-kind labor, equipment and materials, etc., may be submitted in letter form with a breakdown of the number of hours and the hourly charges for labor and equipment. Quantities of materials used and unit costs must also be included. All force account activity, donations, etc., must be pre-approved by the Commission to ensure eligibility for funding.

(14) ADMINISTRATIVE/AUDIT REQUIREMENTS: This grant shall be governed by the administrative and audit requirements as prescribed in 2 CFR Part 200.

(A) If the Sponsor expends Seven Hundred Fifty Thousand Dollars (\$750,000) or more in a year in federal financial assistance, it is required to have an independent annual audit conducted in accordance with 2 CFR Part 200. A copy of the audit report shall be submitted to the Missouri Department of Transportation (hereinafter, "MoDOT") within the earlier of thirty (30) days after receipt of the auditor's report or nine (9) months after the end of the audit period. Subject to the requirements of 2 CFR Part 200, if the Sponsor expends less than Seven Hundred Fifty Thousand Dollars (\$750,000) in a year, the Sponsor may be exempt from auditing requirements for that year, but records must be available for review or audit by applicable state and federal authorities.

(B) When the Sponsor's normal annual audit is completed, the Sponsor shall provide to the Commission a copy of an audit report that includes the disposition of all federal funds involved in this project.

(C) In the event a final audit has not been performed prior to the closing of the grant, the Commission retains the right to recover any appropriate amount of funding after fully considering interest accrued or recommendations on disallowed costs

identified during the final audit.

(D) The Commission reserves the right to conduct its own audit of the Sponsor's records to confirm compliance with grant requirements and to ensure that all costs and fees are appropriate and acceptable.

(15) ASSURANCES/COMPLIANCE: The Sponsor shall adhere to the FAA standard airport Sponsor assurances as outlined in attached Exhibit 1, current FAA Advisory Circulars (ACs) for AIP projects and/or the Commission's specifications. These assurances, ACs and the Commission's specifications are hereby incorporated into and made part of this Agreement. The Sponsor shall review the assurances, ACs, Commission's specifications and current FAA Order 5190.6 entitled "FAA Airport Compliance Manual", and notify the Commission of any areas of non-compliance within its existing facility and/or operations. All non-compliance situations must be addressed and a plan to remedy areas of non-compliance must be established before final acceptance of this project and before final payment is made to the Sponsor.

(16) LEASES/AGREEMENTS: The Sponsor shall ensure that its lease agreements provide for fair market value income and prohibit exclusive rights.

(A) Long term commitments (longer than five (5) years) must provide for renegotiation of the leases'/agreements' terms and payments at least every five (5) years.

(B) Leases/agreements shall not contain provisions that adversely affect the Sponsor's possession and control of the airport or interfere with the Sponsor's ability to comply with the obligations and covenants set forth in this grant Agreement.

(17) NONDISCRIMINATION ASSURANCE: With regard to work under this Agreement, the Sponsor agrees as follows:

(A) Civil Rights Statutes: The Sponsor shall comply with all state and federal statutes relating to nondiscrimination, including but not limited to Title VI and Title VII of the Civil Rights Act of 1964, as amended (42 USC 2000d and 2000e, *et seq.*), as well as any applicable titles of the Americans with Disabilities Act. In addition, if the Sponsor is providing services or operating programs on behalf of the Department or the Commission, it shall comply with all applicable provisions of Title II of the Americans with Disabilities Act.

(B) Administrative Rules: The Sponsor shall comply with the administrative rules of the USDOT relative to nondiscrimination in federally-assisted programs of the USDOT (49 CFR Subtitle A, Part 21) which are herein incorporated by reference and made part of this Agreement.

(C) Nondiscrimination: The Sponsor shall not discriminate on grounds of the race, color, religion, creed, sex, disability, national origin, age, or ancestry of any individual in the selection and retention of subcontractors, including procurement of

materials and leases of equipment. The Sponsor shall not participate either directly or indirectly in the discrimination prohibited by 49 CFR Subtitle A, Part 21, Section 21.5, including employment practices.

(D) Solicitations for Subcontracts, Including Procurements of Material and Equipment: These assurances concerning nondiscrimination also apply to subcontractors and suppliers of the Sponsor. These apply to all solicitations either by competitive bidding or negotiation made by the Sponsor for work to be performed under a subcontract, including procurement of materials or equipment. Each potential subcontractor or supplier shall be notified by the Sponsor of the requirements of this Agreement relative to nondiscrimination on grounds of the race, color, religion, creed, sex, disability, national origin, age, or ancestry of any individual.

(E) Information and Reports: The Sponsor shall provide all information and reports required by this Agreement, or orders and instructions issued pursuant thereto, and will permit access to its books, records, accounts, other sources of information and its facilities as may be determined by the Commission or the USDOT to be necessary to ascertain compliance with other contracts, orders, and instructions. Where any information required of the Sponsor is in the exclusive possession of another who fails or refuses to furnish this information, the Sponsor shall so certify to the Commission or the USDOT as appropriate and shall set forth what efforts it has made to obtain the information.

(F) Sanctions for Noncompliance: In the event the Sponsor fails to comply with the nondiscrimination provisions of this Agreement, the Commission shall impose such contract sanctions as it or the USDOT may determine to be appropriate, including but not limited to:

1. Withholding of payments under this Agreement until the Sponsor complies; and/or
2. Cancellation, termination, or suspension of this Agreement, in whole or in part, or both.

(G) Incorporation of Provisions: The Sponsor shall include the provisions of paragraph (17) of this Agreement in every subcontract, including procurements of materials and leases of equipment, unless exempted by the statutes, executive order, administrative rules or instructions issued by the Commission or the USDOT. The Sponsor will take such action with respect to any subcontract or procurement as the Commission or the USDOT may direct as a means of enforcing such provisions, including sanctions for noncompliance; provided that in the event the Sponsor becomes involved or is threatened with litigation with a subcontractor or supplier as a result of such direction, the Sponsor may request the United States to enter into such litigation to protect the interests of the United States.

(18) CANCELLATION: The Commission may cancel this Agreement at any time the Sponsor breaches the contractual obligations by providing the Sponsor with written notice of cancellation. Should the Commission exercise its right to cancel the Agreement for such reasons, cancellation will become effective upon the date specified in the notice of cancellation sent to the Sponsor.

(A) Upon written notice to the Sponsor, the Commission reserves the right to suspend or terminate all or part of the grant when the Sponsor is, or has been, in violation of the terms of this Agreement. Any lack of progress that significantly endangers substantial performance of the project within the specified time shall be deemed a violation of the terms of this Agreement. The determination of lack of progress shall be solely within the discretion of the Commission. Once such determination is made, the Commission shall so notify the Sponsor in writing. Termination of any part of the grant will not invalidate obligations properly incurred by the Sponsor prior to the date of termination.

(B) The Commission shall have the right to suspend funding of the project at any time and for so long as the Sponsor fails to substantially comply with all the material terms and conditions of this Agreement. If the Commission determines that substantial noncompliance cannot be cured within thirty (30) days, then the Commission may terminate the funding for the project. If the Sponsor fails to perform its obligations in substantial accordance with the Agreement (except if the project has been terminated for the convenience of the parties) and the FAA requires the Commission to repay grant funds that have already been expended by the Sponsor, then the Sponsor shall repay the Commission such federal funds.

(19) VENUE: It is agreed by the parties that any action at law, suit in equity, or other judicial proceeding to enforce or construe this Agreement, or regarding its alleged breach, shall be instituted only in the Circuit Court of Cole County, Missouri.

(20) LAW OF MISSOURI TO GOVERN: This Agreement shall be construed according to the laws of the State of Missouri. The Sponsor shall comply with all local, state, and federal laws and regulations relating to the performance of this Agreement.

(21) WORK PRODUCT: All documents, reports, exhibits, etc. produced by the Sponsor at the direction of the Commission shall remain the property of the Sponsor. However, Sponsor shall provide to the Commission a copy of magnetic discs that contain computer aided design and drafting (CADD) drawings and other documents generated under this grant. Information supplied by the Commission shall remain the property of the Commission. The Sponsor shall also supply to the Commission hard copies of any working documents such as reports, plans, specifications, etc., as requested by the Commission.

(22) CONFIDENTIALITY: The Sponsor shall not disclose to third parties confidential factual matter provided by the Commission except as may be required by statute, ordinance, or order of court, or as authorized by the Commission. The Sponsor shall notify the Commission immediately of any request for such information.

(23) NONSOLICITATION: The Sponsor warrants that it has not employed or retained any company or person, other than a bona fide employee working for the Sponsor, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, the Commission shall have the right to annul this Agreement without liability, or in its discretion, to deduct from this Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift, or contingent fee.

(24) DISPUTES: Any disputes that arise under this Agreement shall be decided by the Commission or its representative.

(25) INDEMNIFICATION:

(A) To the extent allowed or imposed by law, the Sponsor shall defend, indemnify and hold harmless the Commission, including its members and department employees, from any claim or liability whether based on a claim for damages to real or personal property or to a person for any matter relating to or arising out of the Sponsor's wrongful or negligent performance of its obligations under this Agreement.

(B) The Sponsor will require any contractor procured by the Sponsor to work under this Agreement:

1. To obtain a no cost permit from the Commission's district engineer prior to working on the Commission's right of way, which shall be signed by an authorized contractor representative (a permit from the Commission's district engineer will not be required for work outside of the Commission's right of way); and

2. To carry commercial general liability insurance and commercial automobile liability insurance from a company authorized to issue insurance in Missouri, and to name the Commission, and MoDOT and its employees, as additional named insureds in amounts sufficient to cover the sovereign immunity limits for Missouri public entities (\$500,000 per claimant and \$4,000,000 per occurrence) as calculated by the Missouri Department of Insurance, Financial Institutions and Professional Registration, and published annually in the Missouri Register pursuant to section 537.610 RSMo.

(C) In no event shall the language of this Agreement constitute or be construed as a waiver or limitation for either party's rights or defenses with regard to each party's applicable sovereign, governmental, or official immunities and protections as provided by federal and state constitution or law.

(26) HOLD HARMLESS: The Sponsor shall hold the Commission harmless from

any and all claims for liens of labor, services or materials furnished to the Sponsor in connection with the performance of its obligations under this Agreement. Certification statements from construction contractors must be provided to ensure all workers, material suppliers, etc., have been paid.

(27) NOTIFICATION OF CHANGE: The Sponsor shall immediately notify the Commission of any changes in conditions or law which may significantly affect its ability to perform the project in accordance with the provisions of this Agreement. Any notice or other communication required or permitted to be given hereunder shall be in writing and shall be deemed given three (3) days after delivery by United States mail, regular mail postage prepaid, or upon receipt by personal, facsimile or electronic mail (email) delivery, addressed as follows:

Commission: Kyle LePage
Administrator of Aviation
Missouri Department of Transportation
P.O. Box 270

(573) 302-2000 ext. 1010
email: jwoods@osagebeach.org

or to such other place as the parties may designate in accordance with this Agreement. To be valid, facsimile or email delivery shall be followed by delivery of the original document, or a clear and legible copy thereof, within three (3) business days of the date of the facsimile or email transmission of the document.

(28) DURATION OF GRANT OBLIGATIONS: Grant obligations are effective for the useful life of any facilities/equipment installed with grant funds, but in any event not to exceed twenty (20) years. There shall be no limit on the duration of the assurance against exclusive rights or terms, conditions and assurances with respect to real property acquired with federal funds. Paragraph (28) equally applies to a private sponsor. However, in the case of a private sponsor, the useful life for improvements shall not be less than ten (10) years.

(A) The financial assistance provided hereunder constitutes a grant to the Sponsor. Neither the Commission nor the FAA will have title to the improvements covered by this Agreement, as title to same shall vest in the Sponsor.

(B) For the grant duration period, the Sponsor becomes obligated, upon any sale or disposition of the airport or discontinuation of operation of the airport to immediately repay, in full, the grant proceeds or proportionate amount thereof based upon the number of years remaining in the original obligation to the Commission. The Commission and the Sponsor hereby agree that during said period, the property and improvements which constitute the subject airport are subject to sale, if necessary, for the recovery of the federal pro rata share of improvement costs should this Agreement be terminated by a breach of contract on the part of the Sponsor or should the aforementioned obligations not be met.

(C) In this Section, the term "any sale or disposition of the airport" shall mean any sale or disposition of the airport: 1. for a use inconsistent with the purpose for which the Commission's share was originally granted pursuant to this Agreement; or 2. for a use consistent with such purposes wherein the transferee in the sale or disposition does not enter into an assignment and assumption Agreement with the Sponsor with respect to the Sponsor's obligation under the instrument so that the transferee becomes obligated thereunder as if the transferee had been the original owner thereof.

(29) AMENDMENTS: Any change in this Agreement, whether by modification or supplementation, must be accomplished by a formal contract amendment signed and approved by the duly authorized representative of the Sponsor and the Commission.

(30) PROFESSIONAL SERVICES BY COMPETITIVE PROPOSALS: Contracts for professional services are to be procured by competitive proposals per federal procurement requirements (49 CFR §18.36). Requests for proposals/qualifications are to be publicly announced for services expected to cost more than One Hundred Thousand dollars (\$100,000) in the aggregate. Small purchase procedures (telephone solicitations or direct mail) may be used for services costing One Hundred Thousand Dollars (\$100,000) or less. All professional services contracts are subject to review and acceptance by the Commission prior to execution by the Sponsor to ensure funding eligibility.

(31) ASSIGNMENT: The Sponsor shall not assign, transfer or delegate any interest in this Agreement without the prior written consent of the Commission.

(32) BANKRUPTCY: Upon filing for any bankruptcy or insolvency proceeding by or against the Sponsor, whether voluntarily, or upon the appointment of a receiver, trustee, or assignee, for the benefit of creditors, the Commission reserves the right and sole discretion to either cancel this Agreement or affirm this Agreement and hold the Sponsor responsible for damages.

(33) COMMISSION REPRESENTATIVE: The Commission's assistant chief engineer is designated as the Commission's representative for the purpose of administering the provisions of this Agreement. The Commission's representative may designate by written notice other persons having the authority to act on behalf of the

Commission in furtherance of the performance of this Agreement.

(34) FEDERAL FUNDING ACCOUNTABILITY AND TRANSPARENCY ACT (FFATA) OF 2006: The Sponsor shall comply with all reporting requirements of the FFATA of 2006, as amended. This Agreement is subject to the award terms within 2 CFR Part 170.

(35) BAN ON TEXTING WHILE DRIVING: In accordance with Executive Order 13513, Federal Leadership on Reducing Text Messaging While Driving, October 1, 2009, and DOT Order 3902.10, Text Messaging While Driving, December 30, 2009, the Sponsor is encouraged to:

(A) Adopt and enforce workplace safety policies to decrease crashes caused by distracted drivers including policies to ban text messaging while driving when performing any work for, or on behalf of, the Federal government, including work relating to a grant or subgrant.

(B) Conduct workplace safety initiatives in a manner commensurate with the size of the business, such as:

1. Establishment of new rules and programs or re-evaluation of existing programs to prohibit text messaging while driving; and

2. Education, awareness, and other outreach to employees about the safety risks associated with texting while driving.

(36) TRAFFICKING IN PERSONS:

(A) The Commission may unilaterally terminate this Agreement, without penalty, if the Sponsor or a subcontractor that is a private entity:

1. Is determined to have:

A. Engaged in severe forms of trafficking in persons during the period of time that this Agreement and any subgrants entered into pursuant to this Agreement are in effect;

B. Procured a commercial sex act during the period of time that this Agreement, including any subgrants entered into pursuant to this Agreement, are in effect; or

C. Used forced labor in the performance of this Agreement, including any subgrants entered into pursuant to this Agreement; or

2. Has an employee who is determined by the Commission official authorized to terminate the Agreement to have violated a prohibition in

subparagraph (36)(A)1.A. above through conduct that is either associated with performance under this Agreement or imputed to the Sponsor or subcontractor using the standards and due process for imputing the conduct of an individual to an organization that are provided in 2 CFR Part 180, "OMB Guidelines to Agencies on Government wide Debarment and Suspension (Nonprocurement)," as implemented by the FAA at 2 CFR Part 1200.

(B) The Sponsor must notify the Commission immediately of any information the Sponsor receives from any source alleging a violation of a prohibition in subparagraph (36)(A)1. of this Agreement, including subgrants entered into pursuant to this Agreement.

(C) The Commission's right to terminate unilaterally that is described in subparagraph (36)(A)1. of this Agreement:

1. Implements section 106(g) of the Trafficking Victims Protection Act of 2000 (TVPA), as amended (22 USC 7104(g)); and

2. Is in addition to all other remedies for noncompliance that are available to the Commission under this Agreement.

(D) The Sponsor shall include the requirements of subparagraph (36)(A)1. of this Agreement in any subgrant entered into pursuant to this Agreement.

(37) SUSPENSION OR DEBARMENT: Sponsors entering into "covered transactions", as defined by 2 CFR §180.200, must:

(A) Verify the non-federal entity is eligible to participate in this Federal program by:

1. Checking the excluded parties list system (EPLS) as maintained within the System for Award Management (SAM) to determine if non-federal entity is excluded or disqualified; or

2. Collecting a certification statement from the non-federal entity attesting they are not excluded or disqualified from participating; or

3. Adding a clause or condition to covered transactions attesting individual or firm are not excluded or disqualified from participating; and

(B) Require prime contractors to comply with 2 CFR §180.330 when entering into lower-tier transactions (e.g., subcontracts).

(38) SYSTEM FOR AWARD MANAGEMENT REGISTRATION AND UNIQUE ENTITY IDENTIFIER:

(A) Requirement for System for Award Management (SAM): Unless the Sponsor is exempted from this requirement under 2 CFR 25.110, the Sponsor must maintain the currency of its information in SAM until the Commission submits the final financial report required under this grant, or receives the final payment, whichever is later. This requires that the Commission review and update, and will require the Sponsor to review and update, the information at least annually after the initial registration and more frequently if required by changes in information or another award term. Additional information about registration procedures may be found at the SAM website (currently at <http://www.sam.gov>).

(B) Unique Entity Identifier (UEI) means a twelve (12) character alpha-numeric value used to identify a specific commercial, nonprofit or governmental entity. A UEI may be obtained from SAM.gov at <https://sam.gov/SAM/pages/public/index.jsf>.

(39) FINANCIAL REPORTING AND PAYMENT REQUIREMENTS: The Sponsor will comply with all federal financial reporting requirements and payment requirements, including submittal of timely and accurate reports.

(40) EMPLOYEE PROTECTION FROM REPRISALS:

(A) Prohibition of Reprisals: In accordance with 41 USC §4712, an employee of the Sponsor, contractor, or subcontractor may not be discharged, demoted, or otherwise discriminated against as a reprisal for disclosing to a person or body described in subparagraph (40)(B) information that the employee reasonably believes is evidence of:

1. Gross mismanagement of a federal grant;
2. Gross waste of federal funds;
3. An abuse of authority relating to implementation or use of federal funds;
4. A substantial and specific danger to public health or safety; or
5. A violation of law, rule, or regulation related to a federal grant.

(B) Persons and Bodies Covered: The persons and bodies to which a disclosure by an employee is covered are as follows:

1. A member of Congress or a representative of a committee of Congress;
2. An Inspector General;
3. The Government Accountability Office;

4. A federal office or employee responsible for oversight of a grant program;
5. A court or grand jury;
6. A management office of the grantee or subgrantee; or
7. A federal or state regulatory enforcement agency.

(C) Submission of Complaint: A person who believes that they have been subjected to a reprisal prohibited by subparagraph (40)(A) of this Agreement may submit a complaint regarding the reprisal to the Office of Inspector General for the USDOT.

(D) Time Limitation for Submittal of a Complaint: A complaint may not be brought under this subsection more than three (3) years after the date on which the alleged reprisal took place.

(E) Required Actions of the Inspector General: Actions, limitations, and exceptions of the Inspector General's office are established under 41 USC §4712(b).

(F) Assumption of Rights to Civil Remedy: Upon receipt of an explanation of a decision not to conduct or continue an investigation by the Office of Inspector General, the person submitting a complaint assumes the right to a civil remedy under 41 USC §4712(c).

(41) AIRPORT LAYOUT PLAN: All improvements must be consistent with a current and approved Airport Layout Plan (ALP). The Sponsor shall update and keep the ALP drawings and corresponding narrative report current with regard to FAA standards and physical or operational changes at the airport.

(A) ALP approval shall be governed by FAA Order 5100.38, entitled "Airport Improvement Program Handbook."

(B) If ALP updates are required as a result of this project, the Sponsor understands and agrees to update the ALP to reflect the construction to standards satisfactory to the Commission and submit it in final form to the Commission. It is further mutually agreed that the reasonable cost of developing said ALP Map is an allowable cost within the scope of this project. Airport Sponsor Grant Assurance 29 further addresses the Sponsor's statutory obligations to maintain an ALP in accordance with 49 USC §47107(a)(16).

(C) The Sponsor has made available to (or will make available to) and has provided (or will provide) upon request to the metropolitan planning organization, if any, in the area in which the Airport is located, a copy of the proposed ALP or ALP

amendment to depict the project and a copy of any airport master plan in which the project is described or depicted.

(42) AIRPORT PROPERTY MAP: The Sponsor shall develop (or update), as a part of the ALP, a drawing which indicates how various tracts/parcels of land within the airport's boundaries were acquired (i.e., federal funds, surplus property, local funds only, etc.). Easement interests in areas outside the fee property line shall also be included. A screened reproducible of the Airport Layout Drawing may be used as the base for the property map.

(43) ENVIRONMENTAL IMPACT EVALUATION: The Sponsor shall evaluate the potential environmental impact of this project per the current version of FAA Order 5050.4, entitled "National Environmental Policy Act Implementing Instructions for Airport Actions." Evaluation must include coordination with all resource agencies that have jurisdiction over areas of potential environmental impact and a recommended finding such as categorical exclusion, no significant impact, level of impact and proposed mitigation, etc.

(44) EXHIBIT "A" PROPERTY MAP: The Exhibit "A" Property Map accepted by the Commission on April 18, 2018, is incorporated herein by reference.

(45) SOLID WASTE RECYCLING PLAN: The Sponsor certifies that it has a solid waste recycling plan as part of an existing Airport Master Plan, as prescribed by 49 USC §47106(a)(6).

(46) RUNWAY PROTECTION ZONE: The Sponsor agrees to take the following actions to maintain and/or acquire a property interest, satisfactory to the Commission and the FAA, in the Runway Protection Zones:

(A) Existing Fee Title Interest in the Runway Protection Zone: The Sponsor agrees to prevent the erection or creation of any structure, place of public assembly or other use in the Runway Protection Zone, as depicted on the Exhibit "A" Property Map and the approved ALP, except for NAVAIDS that are fixed by their functional purposes or any other structure permitted by the Commission and the FAA. The Sponsor further agrees that any existing structures or uses within the Runway Protection Zone will be cleared or discontinued by the Sponsor unless approved by the Commission and the FAA.

(B) Existing Easement Interest in the Runway Protection Zone: The Sponsor agrees to take any and all steps necessary to ensure that the owner of the land within the designated Runway Protection Zone will not build any structure in the Runway Protection Zone that is an airport hazard or which might create glare or misleading lights or lead to the construction of residences, fuel handling and storage facilities, smoke generating activities, or places of public assembly, such as churches, schools, office buildings, shopping centers, and stadiums.

(C) Future Interest in the Runway Protection Zone: The Sponsor agrees that it will make every effort to acquire fee title or easement in the Runway Protection Zones for runways that presently are not under its control within five (5) years of this grant agreement. The Sponsor further agrees to prevent the erection or creation of any structure or place of public assembly in the Runway Protection Zone, except for NAVAIDS that are fixed by their functional purposes or any other structure approved by the Commission and the FAA. The Sponsor further agrees that any existing structures or uses within the Runway Protection Zone will be cleared or discontinued by the Sponsor unless approved by the Commission and the FAA.

(47) ENGINEER'S DESIGN REPORT: Prior to development of the plans and specifications, the Sponsor shall provide an engineer's report setting forth the general analysis and explanation of reasons for design choices. Said report shall include an itemized cost estimate, design computations, reasons for selections and modifications, comparison of alternatives, life cycle cost analysis, geotechnical report and any other elements that support the engineer's final plans and specifications.

(48) GEOMETRIC DESIGN CRITERIA: The Sponsor shall use the geometric design criteria promulgated by the FAA in the AC series and in FAA Orders. The Sponsor may request and receive approval for adaptation of said criteria where the FAA and the Commission concur that such adaptation is appropriate considering safety, economy and efficiency of operation.

(49) PLANS, SPECIFICATIONS AND ESTIMATES: The plans and construction specifications for this project shall be those promulgated by the FAA in the AC series and in FAA Orders.

(A) The plans shall include a safety plan sheet to identify work areas, haul routes, staging areas, restricted areas, construction phasing, shutdown schedule etc., and to specify the requirements to ensure safety during construction.

(B) The Sponsor shall submit all plans, specifications and estimates to the Commission for review and acceptance prior to advertising for bids for construction. The Commission and the Sponsor agree that the Commission approval of the Sponsor's Plans and Specifications is based primarily upon the Sponsor's certification to carry out the project in accordance with policies, standards, and specifications approved by the FAA. The Sponsor understands that:

1. The Sponsor's certification does not relieve the Sponsor of the requirement to obtain prior Commission and FAA approval for modifications to any AIP or supplemental appropriation standards or to notify the Commission of any limitations to competition within the project;

2. The Commission's acceptance of a Sponsor's certification does not limit the Commission from reviewing appropriate project documentation for the purpose of validating the certification statements; and

3. If the Commission determines that the Sponsor has not complied with its certification statements, the Commission will review the associated project costs to determine whether such costs are allowable under AIP or supplemental appropriation.

(50) SPECIAL CONDITIONS: The following special conditions are hereby made part of this Agreement:

(A) Lobbying and Influencing Federal Employees: All contracts awarded by the Sponsor shall include the Certification Regarding Lobbying required by the FAA. This requirement affects grants or portions of a grant exceeding one hundred thousand dollars (\$100,000).

(B) Buy American Requirements: Unless otherwise approved in advance by the Commission and the FAA, the Sponsor will not acquire or permit any contractor or subcontractor to acquire any steel or manufactured goods produced outside the United States to be used for any project for which funds are provided under this Agreement. The Sponsor will include a provision implementing Buy American in every subgrant funded by this Agreement. The Sponsor agrees to abide by applicable Executive Orders in effect at the time this Agreement is executed, including Executive Order 14005, Ensuring the Future Is Made in All of America by All of America's Workers.

(C) Safety Inspection: The Sponsor shall eliminate all deficiencies identified in its most recent annual safety inspection report (FAA Airport Master Record Form 5010-1). If immediate elimination is not feasible, as determined by the Commission, the Sponsor shall provide a satisfactory plan to eliminate the deficiencies and shall include this plan with phased development as outlined in a current and approved ALP.

(D) Navigational Aids: Except for instrument landing systems acquired with the AIP (block grant) funds and later donated to and accepted by the FAA, the Sponsor must provide for the continuous operation and maintenance of any navigational aid funded under the AIP (block grant) program during the useful life of the equipment unless the equipment is transferred by agreement to the FAA in accordance with 49 USC §44502(E). The Sponsor must check the facility, including instrument landing systems, prior to commissioning to ensure it meets the FAA's standards. The Sponsor must also remove, relocate, lower, mark, or light each obstruction to obtain a clear approach as indicated in the 14 CFR Part 77 aeronautical survey.

(E) Environmental Due Diligence Audit: The Sponsor shall conduct an Environmental Due Diligence Audit (EDDA) of all NAVAID (electronic navigational equipment) sites that will be established or relocated with federal (block grant) funds. This audit shall include existing equipment currently owned and operated by the FAA Airways Facilities Branch and new equipment for which the Sponsor will be requesting FAA maintenance.

(F) Grant Made on Preliminary Plans and Specifications and/or Estimates: The Sponsor understands and agrees that this grant is made and accepted upon the basis of preliminary plans, specifications and/or estimates. The parties agree that within 120 calendar days from the date of acceptance of this grant, the Sponsor shall furnish final plans and specifications to the Commission. Construction work shall not commence, and a contract shall not be awarded for the accomplishment of such work, until the final plans and specifications have been accepted by the Commission. Any reference made in this grant to plans and specifications shall be considered a reference to the final plans and specifications as accepted.

Since this grant is made on preliminary plans and specifications and/or estimates, the grant amount is subject to revision (increase or decrease) after actual project costs are determined through negotiations, appraisals and/or bids. The Sponsor agrees that said revision will be at the sole discretion of the Commission.

(G) Sponsor's Disadvantaged Business Enterprise Program: When the grant amount exceeds Two Hundred Fifty Thousand Dollars (\$250,000), the Sponsor hereby adopts the Commission's DBE program that is incorporated into this grant agreement by reference. Only DBE firms certified by the Commission will qualify when considering DBE goal accomplishments.

(H) Disadvantaged Business Enterprise Required Statements:

1. Policy: It is the policy of the USDOT that DBEs, as defined in 49 CFR Part 26, shall have the maximum opportunity to participate in the performance of contracts financed in whole or in part with Federal funds under this Agreement. Consequently, the DBE requirements of 49 CFR Part 26 apply to this Agreement.

2. Contract Assurance: The Commission and the Sponsor will ensure that the following clause is placed in every USDOT-assisted contract and subcontract:

"The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out the applicable requirements of Title 49 Code of Federal Regulations, Part 26 in the award and administration of any United States Department of Transportation-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate."

(This assurance shall be included in each subcontract the prime contractor signs with a subcontractor.)

3. Federal Financial Assistance Agreement Assurance: The Commission and the Sponsor agree to and incorporate the following assurance into their

day-to-day operations and into the administration of all USDOT-assisted contracts; where “recipient” means MoDOT and/or any MoDOT grantee receiving USDOT assistance:

“MoDOT and the Sponsor shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any United States Department of Transportation-assisted contract or in the administration of the United States Department of Transportation’s DBE Program or the requirements of Title 49 Code of Federal Regulations, Part 26. The recipient shall take all necessary and reasonable steps under Title 49 Code of Federal Regulations, Part 26 to ensure nondiscrimination in the award and administration of United States Department of Transportation-assisted contracts. The recipient’s DBE Program, as required by Title 49 Code of Federal Regulations, Part 26 and as approved by the United States Department of Transportation, is incorporated by reference into this agreement. Implementation of this program is a legal obligation and for failure to carry out its approved program, the United States Department of Transportation may impose sanctions as provided for under Part 26 and may, in appropriate cases, refer the matter for enforcement under Title 18 United States Code, Section 1001 and/or the Program Fraud Civil Remedies Act of 1986 (Title 31 United States Code, Section 3801 *et seq.*).”

The Commission and the Sponsor shall ensure that all recipients of USDOT-assisted contracts, funds, or grants incorporate, agree to, and comply with the assurance statement.

4. Prompt Payment: The Commission and the Sponsor shall require all contractors to pay all subcontractors and suppliers for satisfactory performance of services in compliance with section 34.057 RSMo, Missouri’s prompt payment statute. Pursuant to section 34.057 RSMo, the Commission and the Sponsor also require the prompt return of all retainage held on all subcontractors after the subcontractors’ work is satisfactorily completed, as determined by the Sponsor and the Commission.

All contractors and subcontractors must retain records of all payments made or received for three (3) years from the date of final payment, and these records must be available for inspection upon request by any authorized representative of the Commission, the Sponsor, or the USDOT. The Commission and the Sponsor will maintain records of actual payments to DBE firms for work committed to at the time of the contract award.

The Commission and the Sponsor will perform audits of contract payments to DBE firms. The audits will review payments to subcontractors to ensure that the actual amount paid to DBE subcontractors equals or exceeds the dollar amounts stated in the schedule of DBE participation and that payment was made in compliance with section 34.057 RSMo.

5. MoDOT DBE Program Regulations: The Sponsor, contractor

and each subcontractor are bound by MoDOT's DBE Program regulations, located at Title 7 Code of State Regulations, Division 10, Chapter 8.

(I) Disadvantaged Business Enterprises—Professional Services: DBEs that provide professional services, such as architectural, engineering, surveying, real estate appraisals, accounting, legal, etc., will be afforded full and affirmative opportunity to submit qualification statements/proposals and will not be discriminated against on the grounds of race, color, sex, or national origin in consideration for selection for this project. The DBE goals for professional services will be determined by the Commission at the time each proposed service contract is submitted for the Commission's approval.

(J) Consultant Contract and Cost Analysis: The Sponsor understands and agrees that no reimbursement will be made on the consultant contract portion of this Agreement until the Commission has received the consultant contract, the Sponsor's analysis of costs, and the independent fee estimate.

(K) Design Grant: This grant agreement is being issued in order to complete the design of the project. The Sponsor understands and agrees that within two years after design is completed that the Sponsor will accept, subject to the availability of the amount of federal funding identified in the Airport Capital Improvement Plan, a grant to complete the construction of the project in order to provide a useful and useable unit of work. The Sponsor also understands that if the Commission has provided federal funding to complete design for the project, and the Sponsor has not completed the design within four years from the execution of this grant agreement, the Commission may suspend or terminate grants related to the design.

(L) Pavement Maintenance Management Program: The Sponsor agrees to implement an effective airport pavement maintenance management program as required by Grant Assurance 11, Pavement Preventive Management, which is codified at 49 USC §47105(e). The Sponsor agrees that it will use the program for the useful life of any pavement constructed, reconstructed, rehabilitated, or repaired with federal financial assistance at the airport. The Sponsor further agrees that the program will:

1. Follow FAA Advisory Circular 150/5380-6, "Guidelines and Procedures for Maintenance of Airport Pavements", for specific guidelines and procedures for maintaining airport pavements, establishing an effective maintenance program, specific types of distress and its probable cause, inspection guidelines, and recommended methods of repair;

2. Detail the procedures to be followed to assure that proper pavement maintenance, both preventive and repair, is performed;

3. Include a Pavement Inventory, Inspection Schedule, Record Keeping, Information Retrieval, and Reference, meeting the following requirements:

A. Pavement Inventory. The following must be depicted in an appropriate form and level of detail:

- (i) Location of all runways, taxiways, and aprons;
- (ii) Dimensions;
- (iii) Types of pavement; and
- (iv) Year of construction or most recent major rehabilitation.

B. Inspection Schedule.

(i) Detailed Inspection. A detailed inspection must be performed at least once a year. If a history of recorded pavement deterioration is available, i.e., Pavement Condition Index (PCI) survey as set forth in the Advisory Circular 150/5380-6, the frequency of the inspections may be extended to three (3) years.

(ii) Drive-By Inspection. A drive-by inspection must be performed a minimum of once per month to detect unexpected changes in the pavement condition. For drive-by inspections, the date of inspection and any maintenance performed must be recorded.

4. Record Keeping. Complete information on the findings of all detailed inspections and on the maintenance performed must be recorded and kept on file for a minimum of five (5) years. The type of distress, location, and remedial action, scheduled or performed, must be documented. The minimum information is:

- A. Inspection date;
- B. Location;
- C. Distress types; and
- D. Maintenance scheduled or performed.

5. Information Retrieval System. The Sponsor must be able to retrieve the information and records produced by the pavement survey to provide a report to the Commission as may be required.

(M) Maintenance Project Life: The Sponsor agrees that pavement maintenance is limited to those aircraft pavements that are in sufficiently sound condition that they do not warrant more extensive work, such as reconstruction or overlays in the immediate or near future. The Sponsor further agrees that AIP or supplemental

appropriation funding for the pavements maintained under this project will not be requested for more substantial type rehabilitation (more substantial than periodic maintenance) for a five (5) year period following the completion of this project unless the Commission and the FAA determine that the rehabilitation or reconstruction is required for safety reasons.

(N) Projects Which Contain Paving Work in Excess of \$500,000: The Sponsor agrees to:

1. Furnish a construction management program to the Commission prior to the start of construction which details the measures and procedures to be used to comply with the quality control provisions of the construction contract, including, but not limited to, all quality control provisions and tests required by the Federal specifications. The program must include as a minimum:

A. The name of the person representing the Sponsor who has overall responsibility for contract administration for the project and the authority to take necessary actions to comply with the contract;

B. Names of testing laboratories and consulting engineer firms with quality control responsibilities on the project, together with a description of the services to be provided;

C. Procedures for determining that the testing laboratories meet the requirements of the American Society of Testing and Materials Standards on laboratory evaluation referenced in the contract specifications (D 3666, C 1077);

D. Qualifications of engineering supervision and construction inspection personnel;

E. A listing of all tests required by the contract specifications, including the type and frequency of tests to be taken, the method of sampling, the applicable test standard, and the acceptance criteria or tolerances permitted for each type of test; and

F. Procedures for ensuring that the tests are taken in accordance with the program, that they are documented daily, and that the proper corrective actions, where necessary, are undertaken.

2. Submit at completion of the project, a final test and quality control report documenting the summary results of all tests performed, highlighting those tests that indicated failure or that did not meet the applicable test standard. The report must include the pay reductions applied and the reasons for accepting any out-of-tolerance material. An interim test and quality control report must be submitted, if requested by the Commission.

3. Failure to provide a complete report as described in subparagraph 1.(B) above, or failure to perform such tests, will, absent any compelling justification, result in a reduction in Federal participation for costs incurred in connection with construction of the applicable pavement. Such reduction will be at the discretion of the Commission and will be based on the type or types of required tests not performed or not documented and will be commensurate with the proportion of applicable pavement with respect to the total pavement constructed under the grant agreement.

4. The Commission, at its discretion, reserves the right to conduct independent tests and to reduce grant payments accordingly if such independent tests determine that sponsor test results are inaccurate.

(O) Lighting: The Sponsor must operate and maintain the lighting system during the useful life of the system in accordance with applicable Commission and FAA standards.

(P) Utility Relocation in Project: The Sponsor understands and agrees that:

1. The United States will not participate in the cost of any utility relocation unless and until the Sponsor has submitted evidence satisfactory to the Commission that the Sponsor is legally responsible for payment of such costs;

2. Federal participation is limited to those utilities located on-airport or off-airport only where the Sponsor has an easement for the utility; and

3. The Utilities exclusively serve the Airport on which the project supports.

CERTIFICATE OF SPONSOR'S ATTORNEY

I, _____, acting as attorney for the Sponsor, do hereby certify that in my opinion, the Sponsor is empowered to enter into the foregoing grant Agreement under the laws of the State of Missouri. Further, I have examined the foregoing grant Agreement, and the actions taken by said Sponsor and Sponsor's official representative have been duly authorized and the execution thereof is in all respects due and proper and in accordance with the laws of the said state and the Airport and Airway Improvement Act of 1982, as amended. In addition, for grants involving projects to be carried out on property not owned by the Sponsor, there are no legal impediments that will prevent full performance by the Sponsor. Further, it is my opinion that the said grant constitutes a legal and binding obligation of the Sponsor in accordance with the terms thereof.

EXHIBIT 1
ASSURANCES
AIRPORT SPONSORS

A. General.

- a. These assurances shall be complied with in the performance of grant agreements for airport development, airport planning, and noise compatibility program grants for airport sponsors.
- b. These assurances are required to be submitted as part of the project application by sponsors requesting funds under the provisions of Title 49, U.S.C., subtitle VII, as amended. As used herein, the term "public agency sponsor" means a public agency with control of a public-use airport; the term "private sponsor" means a private owner of a public-use airport; and the term "sponsor" includes both public agency sponsors and private sponsors.
- c. Upon acceptance of this grant offer by the sponsor, these assurances are incorporated in and become part of this grant agreement.

B. Duration and Applicability.

- a. **Airport development or Noise Compatibility Program Projects Undertaken by a Public Agency Sponsor.**

The terms, conditions and assurances of this grant agreement shall remain in full force and effect throughout the useful life of the facilities developed or equipment acquired for an airport development or noise compatibility program project, or throughout the useful life of the project items installed within a facility under a noise compatibility program project, but in any event not to exceed twenty (20) years from the date of acceptance of a grant offer of Federal funds for the project. However, there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport. There shall be no limit on the duration of the terms, conditions, and assurances with respect to real property acquired with federal funds. Furthermore, the duration of the Civil Rights assurance shall be specified in the assurances.

- b. **Airport Development or Noise Compatibility Projects Undertaken by a Private Sponsor.**

The preceding paragraph 1 also applies to a private sponsor except that the useful life of project items installed within a facility or the useful life of the facilities developed or equipment acquired under an airport development or noise compatibility program project shall be no less than ten (10) years from the date of acceptance of Federal aid for the project.

- c. **Airport Planning Undertaken by a Sponsor.**

Unless otherwise specified in this grant agreement, only Assurances 1, 2, 3, 5, 6, 13, 18, 25, 30, 32, 33, and 34 in Section C apply to planning projects. The terms, conditions, and assurances of this grant agreement shall remain in full force and effect during the life of the project; there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport.

C. Sponsor Certification.

The sponsor hereby assures and certifies, with respect to this grant that:

1. General Federal Requirements

It will comply with all applicable Federal laws, regulations, executive orders, policies, guidelines, and requirements as they relate to the application, acceptance and use of Federal funds for this project including but not limited to the following:

SPECIFIC ASSURANCES

Specific assurances required to be included in grant agreements by any of the above laws, regulations or circulars are incorporated by reference in this grant agreement.

FOOTNOTES TO ASSURANCE C.1.

- ¹ These laws do not apply to airport planning sponsors.
- ² These laws do not apply to private sponsors.
- ³ 49 CFR Part 18 and 2 CFR Part 200 contain requirements for State and Local Governments receiving Federal assistance. Any requirement levied upon State and Local Governments by this regulation and circular shall also be applicable to private sponsors receiving Federal assistance under Title 49, United States Code.
- ⁴ On December 26, 2013 at 78 FR 78590, the Office of Management and Budget (OMB) issued the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR Part 200. 2 CFR Part 200 replaces and combines the former Uniform Administrative Requirements for Grants (OMB Circular A-102 and Circular A-110 or 2 CFR Part 215 or Circular) as well as the Cost Principles (Circulars A-21 or 2 CFR part 220; Circular A-87 or 2 CFR part 225; and A-122, 2 CFR part 230). Additionally it replaces Circular A-133 guidance on the Single Annual Audit. In accordance with 2 CFR section 200.110, the standards set forth in Part 200 which affect administration of Federal awards issued by Federal agencies become effective once implemented by Federal agencies or when any future amendment to this Part becomes final. Federal agencies, including the Department of Transportation, must implement the policies and procedures applicable to Federal awards by promulgating a regulation to be effective by December 26, 2014 unless different provisions are required by statute or approved by OMB.
- ⁵ Cost principles established in 2 CFR part 200 subpart E must be used as guidelines for determining the eligibility of specific types of expenses.
- ⁶ Audit requirements established in 2 CFR part 200 subpart F are the guidelines for audits.

2. Responsibility and Authority of the Sponsor.

- a. Public Agency Sponsor:

It has legal authority to apply for this grant, and to finance and carry out the proposed project; that a resolution, motion or similar action has been duly adopted or passed as an official act of

the applicant's governing body authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.

b. **Private Sponsor:**

It has legal authority to apply for this grant and to finance and carry out the proposed project and comply with all terms, conditions, and assurances of this grant agreement. It shall designate an official representative and shall in writing direct and authorize that person to file this application, including all understandings and assurances contained therein; to act in connection with this application; and to provide such additional information as may be required.

3. Sponsor Fund Availability.

It has sufficient funds available for that portion of the project costs which are not to be paid by the United States. It has sufficient funds available to assure operation and maintenance of items funded under this grant agreement which it will own or control.

4. Good Title.

- a. It, a public agency or the Federal government, holds good title, satisfactory to the Secretary, to the landing area of the airport or site thereof, or will give assurance satisfactory to the Secretary that good title will be acquired.
- b. For noise compatibility program projects to be carried out on the property of the sponsor, it holds good title satisfactory to the Secretary to that portion of the property upon which Federal funds will be expended or will give assurance to the Secretary that good title will be obtained.

5. Preserving Rights and Powers.

- a. It will not take or permit any action which would operate to deprive it of any of the rights and powers necessary to perform any or all of the terms, conditions, and assurances in this grant agreement without the written approval of the Secretary, and will act promptly to acquire, extinguish or modify any outstanding rights or claims of right of others which would interfere with such performance by the sponsor. This shall be done in a manner acceptable to the Secretary.
- b. Subject to the FAA Act of 2018, Public Law 115-254, Section 163, it will not sell, lease, encumber, or otherwise transfer or dispose of any part of its title or other interests in the property shown on Exhibit A to this application or, for a noise compatibility program project, that portion of the property upon which Federal funds have been expended, for the duration of the terms, conditions, and assurances in this grant agreement without approval by the Secretary. If the transferee is found by the Secretary to be eligible under Title 49, United States Code, to assume the obligations of this grant agreement and to have the power, authority, and financial resources to carry out all such obligations, the sponsor shall insert in the contract or document transferring or disposing of the sponsor's interest, and make binding upon the transferee all of the terms, conditions, and assurances contained in this grant agreement.
- c. For all noise compatibility program projects which are to be carried out by another unit of local government or are on property owned by a unit of local government other than the sponsor, it will enter into an agreement with that government. Except as otherwise specified by the Secretary, that agreement shall obligate that government to the same terms, conditions, and

assurances that would be applicable to it if it applied directly to the FAA for a grant to undertake the noise compatibility program project. That agreement and changes thereto must be satisfactory to the Secretary. It will take steps to enforce this agreement against the local government if there is substantial non-compliance with the terms of the agreement.

- d. For noise compatibility program projects to be carried out on privately owned property, it will enter into an agreement with the owner of that property which includes provisions specified by the Secretary. It will take steps to enforce this agreement against the property owner whenever there is substantial non-compliance with the terms of the agreement.
- e. If the sponsor is a private sponsor, it will take steps satisfactory to the Secretary to ensure that the airport will continue to function as a public-use airport in accordance with these assurances for the duration of these assurances.
- f. If an arrangement is made for management and operation of the airport by any agency or person other than the sponsor or an employee of the sponsor, the sponsor will reserve sufficient rights and authority to insure that the airport will be operated and maintained in accordance Title 49, United States Code, the regulations and the terms, conditions and assurances in this grant agreement and shall insure that such arrangement also requires compliance therewith.
- g. Sponsors of commercial service airports will not permit or enter into any arrangement that results in permission for the owner or tenant of a property used as a residence, or zoned for residential use, to taxi an aircraft between that property and any location on airport. Sponsors of general aviation airports entering into any arrangement that results in permission for the owner of residential real property adjacent to or near the airport must comply with the requirements of Sec. 136 of Public Law 112-95 and the sponsor assurances.

6. Consistency with Local Plans.

The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.

7. Consideration of Local Interest.

It has given fair consideration to the interest of communities in or near where the project may be located.

8. Consultation with Users.

In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport at which project is proposed.

9. Public Hearings.

In projects involving the location of an airport, an airport runway, or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the

communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

10. Metropolitan Planning Organization.

In projects involving the location of an airport, an airport runway, or a major runway extension at a medium or large hub airport, the sponsor has made available to and has provided upon request to the metropolitan planning organization in the area in which the airport is located, if any, a copy of the proposed amendment to the airport layout plan to depict the project and a copy of any airport master plan in which the project is described or depicted.

11. Pavement Preventive Maintenance.

With respect to a project approved after January 1, 1995, for the replacement or reconstruction of pavement at the airport, it assures or certifies that it has implemented an effective airport pavement maintenance-management program and it assures that it will use such program for the useful life of any pavement constructed, reconstructed or repaired with Federal financial assistance at the airport. It will provide such reports on pavement condition and pavement management programs as the Secretary determines may be useful.

12. Terminal Development Prerequisites.

For projects which include terminal development at a public use airport, as defined in Title 49, it has, on the date of submittal of the project grant application, all the safety equipment required for certification of such airport under section 44706 of Title 49, United States Code, and all the security equipment required by rule or regulation, and has provided for access to the passenger enplaning and deplaning area of such airport to passengers enplaning and deplaning from aircraft other than air carrier aircraft.

13. Accounting System, Audit, and Record Keeping Requirements.

- a. It shall keep all project accounts and records which fully disclose the amount and disposition by the recipient of the proceeds of this grant, the total cost of the project in connection with which this grant is given or used, and the amount or nature of that portion of the cost of the project supplied by other sources, and such other financial records pertinent to the project. The accounts and records shall be kept in accordance with an accounting system that will facilitate an effective audit in accordance with the Single Audit Act of 1984.
- b. It shall make available to the Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, for the purpose of audit and examination, any books, documents, papers, and records of the recipient that are pertinent to this grant. The Secretary may require that an appropriate audit be conducted by a recipient. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a grant or relating to the project in connection with which this grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than six (6) months following the close of the fiscal year for which the audit was made.

14. Minimum Wage Rates.

It shall include, in all contracts in excess of \$2,000 for work on any projects funded under this grant agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor, in accordance with the Davis-Bacon Act, as amended (40

U.S.C. 276a-276a-5), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.

15. Veteran's Preference.

It shall include in all contracts for work on any project funded under this grant agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to Vietnam era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns owned and controlled by disabled veterans as defined in Section 47112 of Title 49, United States Code. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.

16. Conformity to Plans and Specifications.

It will execute the project subject to plans, specifications, and schedules approved by the Secretary. Such plans, specifications, and schedules shall be submitted to the Secretary prior to commencement of site preparation, construction, or other performance under this grant agreement, and, upon approval of the Secretary, shall be incorporated into this grant agreement. Any modification to the approved plans, specifications, and schedules shall also be subject to approval of the Secretary, and incorporated into this grant agreement.

17. Construction Inspection and Approval.

It will provide and maintain competent technical supervision at the construction site throughout the project to assure that the work conforms to the plans, specifications, and schedules approved by the Secretary for the project. It shall subject the construction work on any project contained in an approved project application to inspection and approval by the Secretary and such work shall be in accordance with regulations and procedures prescribed by the Secretary. Such regulations and procedures shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary.

18. Planning Projects.

In carrying out planning projects:

- a. It will execute the project in accordance with the approved program narrative contained in the project application or with the modifications similarly approved.
- b. It will furnish the Secretary with such periodic reports as required pertaining to the planning project and planning work activities.
- c. It will include in all published material prepared in connection with the planning project a notice that the material was prepared under a grant provided by the United States.
- d. It will make such material available for examination by the public, and agrees that no material prepared with funds under this project shall be subject to copyright in the United States or any other country.
- e. It will give the Secretary unrestricted authority to publish, disclose, distribute, and otherwise use any of the material prepared in connection with this grant.
- f. It will grant the Secretary the right to disapprove the sponsor's employment of specific consultants and their subcontractors to do all or any part of this project as well as the right to disapprove the proposed scope and cost of professional services.

- g. It will grant the Secretary the right to disapprove the use of the sponsor's employees to do all or any part of the project.
- h. It understands and agrees that the Secretary's approval of this project grant or the Secretary's approval of any planning material developed as part of this grant does not constitute or imply any assurance or commitment on the part of the Secretary to approve any pending or future application for a Federal airport grant.

19. Operation and Maintenance.

- a. The airport and all facilities which are necessary to serve the aeronautical users of the airport, other than facilities owned or controlled by the United States, shall be operated at all times in a safe and serviceable condition and in accordance with the minimum standards as may be required or prescribed by applicable Federal, state and local agencies for maintenance and operation. It will not cause or permit any activity or action thereon which would interfere with its use for airport purposes. It will suitably operate and maintain the airport and all facilities thereon or connected therewith, with due regard to climatic and flood conditions. Any proposal to temporarily close the airport for non-aeronautical purposes must first be approved by the Secretary. In furtherance of this assurance, the sponsor will have in effect arrangements for-
 - 1. Operating the airport's aeronautical facilities whenever required;
 - 2. Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions; and
 - 3. Promptly notifying airmen of any condition affecting aeronautical use of the airport. Nothing contained herein shall be construed to require that the airport be operated for aeronautical use during temporary periods when snow, flood or other climatic conditions interfere with such operation and maintenance. Further, nothing herein shall be construed as requiring the maintenance, repair, restoration, or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the sponsor.
- b. It will suitably operate and maintain noise compatibility program items that it owns or controls upon which Federal funds have been expended.

20. Hazard Removal and Mitigation.

It will take appropriate action to assure that such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

21. Compatible Land Use.

It will take appropriate action, to the extent reasonable, including the adoption of zoning laws, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft. In addition, if the project is for noise compatibility program implementation, it will not cause or permit any change in land use, within its jurisdiction, that will reduce its compatibility, with respect to the airport, of the noise compatibility program measures upon which Federal funds have been expended.

22. Economic Nondiscrimination.

- a. It will make the airport available as an airport for public use on reasonable terms and without unjust discrimination to all types, kinds and classes of aeronautical activities, including commercial aeronautical activities offering services to the public at the airport.
- b. In any agreement, contract, lease, or other arrangement under which a right or privilege at the airport is granted to any person, firm, or corporation to conduct or to engage in any aeronautical activity for furnishing services to the public at the airport, the sponsor will insert and enforce provisions requiring the contractor to-
 - 1) furnish said services on a reasonable, and not unjustly discriminatory, basis to all users thereof, and
 - 2) charge reasonable, and not unjustly discriminatory, prices for each unit or service, provided that the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.
- c. Each fixed-based operator at the airport shall be subject to the same rates, fees, rentals, and other charges as are uniformly applicable to all other fixed-based operators making the same or similar uses of such airport and utilizing the same or similar facilities.
- d. Each air carrier using such airport shall have the right to service itself or to use any fixed-based operator that is authorized or permitted by the airport to serve any air carrier at such airport.
- e. Each air carrier using such airport (whether as a tenant, non-tenant, or subtenant of another air carrier tenant) shall be subject to such nondiscriminatory and substantially comparable rules, regulations, conditions, rates, fees, rentals, and other charges with respect to facilities directly and substantially related to providing air transportation as are applicable to all such air carriers which make similar use of such airport and utilize similar facilities, subject to reasonable classifications such as tenants or non-tenants and signatory carriers and non-signatory carriers. Classification or status as tenant or signatory shall not be unreasonably withheld by any airport provided an air carrier assumes obligations substantially similar to those already imposed on air carriers in such classification or status.
- f. It will not exercise or grant any right or privilege which operates to prevent any person, firm, or corporation operating aircraft on the airport from performing any services on its own aircraft with its own employees [including, but not limited to maintenance, repair, and fueling] that it may choose to perform.
- g. In the event the sponsor itself exercises any of the rights and privileges referred to in this assurance, the services involved will be provided on the same conditions as would apply to the furnishing of such services by commercial aeronautical service providers authorized by the sponsor under these provisions.
- h. The sponsor may establish such reasonable, and not unjustly discriminatory, conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport.
- i. The sponsor may prohibit or limit any given type, kind or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

23. Exclusive Rights.

It will permit no exclusive right for the use of the airport by any person providing, or intending to provide, aeronautical services to the public. For purposes of this paragraph, the providing of the services at an airport by a single fixed-based operator shall not be construed as an exclusive right if both of the following apply:

- a. It would be unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide such services, and
- b. If allowing more than one fixed-based operator to provide such services would require the reduction of space leased pursuant to an existing agreement between such single fixed-based operator and such airport. It further agrees that it will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity, and that it will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under Title 49, United States Code.

24. Fee and Rental Structure.

It will maintain a fee and rental structure for the facilities and services at the airport which will make the airport as self-sustaining as possible under the circumstances existing at the particular airport, taking into account such factors as the volume of traffic and economy of collection. No part of the Federal share of an airport development, airport planning or noise compatibility project for which a grant is made under Title 49, United States Code, the Airport and Airway Improvement Act of 1982, the Federal Airport Act or the Airport and Airway Development Act of 1970 shall be included in the rate basis in establishing fees, rates, and charges for users of that airport.

25. Airport Revenues.

- a. All revenues generated by the airport and any local taxes on aviation fuel established after December 30, 1987, will be expended by it for the capital or operating costs of the airport; the local airport system; or other local facilities which are owned or operated by the owner or operator of the airport and which are directly and substantially related to the actual air transportation of passengers or property; or for noise mitigation purposes on or off the airport. The following exceptions apply to this paragraph:
 1. If covenants or assurances in debt obligations issued before September 3, 1982, by the owner or operator of the airport, or provisions enacted before September 3, 1982, in governing statutes controlling the owner or operator's financing, provide for the use of the revenues from any of the airport owner or operator's facilities, including the airport, to support not only the airport but also the airport owner or operator's general debt obligations or other facilities, then this limitation on the use of all revenues generated by the airport (and, in the case of a public airport, local taxes on aviation fuel) shall not apply.
 2. If the Secretary approves the sale of a privately owned airport to a public sponsor and provides funding for any portion of the public sponsor's acquisition of land, this limitation on the use of all revenues generated by the sale shall not apply to certain proceeds from

the sale. This is conditioned on repayment to the Secretary by the private owner of an amount equal to the remaining unamortized portion (amortized over a 20-year period) of any airport improvement grant made to the private owner for any purpose other than land acquisition on or after October 1, 1996, plus an amount equal to the federal share of the current fair market value of any land acquired with an airport improvement grant made to that airport on or after October 1, 1996.

3. Certain revenue derived from or generated by mineral extraction, production, lease, or other means at a general aviation airport (as defined at Section 47102 of title 49 United States Code), if the FAA determines the airport sponsor meets the requirements set forth in Sec. 813 of Public Law 112-95.
- b. As part of the annual audit required under the Single Audit Act of 1984, the sponsor will direct that the audit will review, and the resulting audit report will provide an opinion concerning, the use of airport revenue and taxes in paragraph (a), and indicating whether funds paid or transferred to the owner or operator are paid or transferred in a manner consistent with Title 49, United States Code and any other applicable provision of law, including any regulation promulgated by the Secretary or Administrator.
- c. Any civil penalties or other sanctions will be imposed for violation of this assurance in accordance with the provisions of Section 47107 of Title 49, United States Code.

26. Reports and Inspections.

It will:

- a. submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request and make such reports available to the public; make available to the public at reasonable times and places a report of the airport budget in a format prescribed by the Secretary;
- b. for airport development projects, make the airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request;
- c. for noise compatibility program projects, make records and documents relating to the project and continued compliance with the terms, conditions, and assurances of this grant agreement including deeds, leases, agreements, regulations, and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request; and
- d. in a format and time prescribed by the Secretary, provide to the Secretary and make available to the public following each of its fiscal years, an annual report listing in detail:
 1. all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and
 2. all services and property provided by the airport to other units of government and the amount of compensation received for provision of each such service and property.

27. Use by Government Aircraft.

It will make available all of the facilities of the airport developed with Federal financial assistance and all those usable for landing and takeoff of aircraft to the United States for use by Government aircraft in common with other aircraft at all times without charge, except, if the use by Government

aircraft is substantial, charge may be made for a reasonable share, proportional to such use, for the cost of operating and maintaining the facilities used. Unless otherwise determined by the Secretary, or otherwise agreed to by the sponsor and the using agency, substantial use of an airport by Government aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the Secretary, would unduly interfere with use of the landing areas by other authorized aircraft, or during any calendar month that –

- a. Five (5) or more Government aircraft are regularly based at the airport or on land adjacent thereto; or
- b. The total number of movements (counting each landing as a movement) of Government aircraft is 300 or more, or the gross accumulative weight of Government aircraft using the airport (the total movement of Government aircraft multiplied by gross weights of such aircraft) is in excess of five million pounds.

28. Land for Federal Facilities.

It will furnish without cost to the Federal Government for use in connection with any air traffic control or air navigation activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein, or rights in buildings of the sponsor as the Secretary considers necessary or desirable for construction, operation, and maintenance at Federal expense of space or facilities for such purposes. Such areas or any portion thereof will be made available as provided herein within four months after receipt of a written request from the Secretary.

29. Airport Layout Plan.

- a. Subject to the FAA Reauthorization Act of 2018, Public Law 115-254, Section 163, it will keep up to date at all times an airport layout plan of the airport showing:
 1. boundaries of the airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the sponsor for airport purposes and proposed additions thereto;
 2. the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars and roads), including all proposed extensions and reductions of existing airport facilities;
 3. the location of all existing and proposed non-aviation areas and of all existing improvements thereon; and
 4. all proposed and existing access points used to taxi aircraft across the airport's property boundary. Such airport layout plans and each amendment, revision, or modification thereof, shall be subject to the approval of the Secretary which approval shall be evidenced by the signature of a duly authorized representative of the Secretary on the face of the airport layout plan. The sponsor will not make or permit any changes or alterations in the airport or any of its facilities which are not in conformity with the airport layout plan as approved by the Secretary and which might, in the opinion of the Secretary, adversely affect the safety, utility or efficiency of the airport.
- b. Subject to the FAA Reauthorization Act of 2018, Public Law 115-254, Section 163, if a change or alteration in the airport or the facilities is made which the Secretary determines adversely affects the safety, utility, or efficiency of any federally owned, leased, or funded property on or off the airport and which is not in conformity with the airport layout plan as approved by the

Secretary, the owner or operator will, if requested, by the Secretary (1) eliminate such adverse effect in a manner approved by the Secretary; or (2) bear all costs of relocating such property (or replacement thereof) to a site acceptable to the Secretary and all costs of restoring such property (or replacement thereof) to the level of safety, utility, efficiency, and cost of operation existing before the unapproved change in the airport or its facilities except in the case of a relocation or replacement of an existing airport facility due to a change in the Secretary's design standards beyond the control of the airport sponsor.

30. Civil Rights.

It will promptly take any measures necessary to ensure that no person in the United States shall, on the grounds of race, creed, color, national origin, sex, age, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in any activity conducted with, or benefiting from, funds received from this grant.

- a. Using the definitions of activity, facility and program as found and defined in §§ 21.23 (b) and 21.23 (e) of 49 CFR § 21, the sponsor will facilitate all programs, operate all facilities, or conduct all programs in compliance with all non-discrimination requirements imposed by, or pursuant to these assurances.

- b. Applicability

1. Programs and Activities. If the sponsor has received a grant (or other federal assistance) for any of the sponsor's program or activities, these requirements extend to all of the sponsor's programs and activities.
2. Facilities. Where it receives a grant or other federal financial assistance to construct, expand, renovate, remodel, alter or acquire a facility, or part of a facility, the assurance extends to the entire facility and facilities operated in connection therewith.
3. Real Property. Where the sponsor receives a grant or other Federal financial assistance in the form of, or for the acquisition of real property or an interest in real property, the assurance will extend to rights to space on, over, or under such property.

- c. Duration.

The sponsor agrees that it is obligated to this assurance for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the assurance obligates the sponsor, or any transferee for the longer of the following periods:

1. So long as the airport is used as an airport, or for another purpose involving the provision of similar services or benefits; or
2. So long as the sponsor retains ownership or possession of the property.

- d. Required Solicitation Language. It will include the following notification in all solicitations for bids, Requests For Proposals for work, or material under this grant agreement and in all proposals for agreements, including airport concessions, regardless of funding source:

"The (**Name of Sponsor**), in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. §§ 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that any contract entered into pursuant to this advertisement, disadvantaged business enterprises and airport concession disadvantaged

business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award.”

e. Required Contract Provisions.

1. It will insert the non-discrimination contract clauses requiring compliance with the acts and regulations relative to non-discrimination in Federally-assisted programs of the DOT, and incorporating the acts and regulations into the contracts by reference in every contract or agreement subject to the non-discrimination in Federally-assisted programs of the DOT acts and regulations.
2. It will include a list of the pertinent non-discrimination authorities in every contract that is subject to the non-discrimination acts and regulations.
3. It will insert non-discrimination contract clauses as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a sponsor.
4. It will insert non-discrimination contract clauses prohibiting discrimination on the basis of race, color, national origin, creed, sex, age, or handicap as a covenant running with the land, in any future deeds, leases, license, permits, or similar instruments entered into by the sponsor with other parties:
 - a. For the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
 - b. For the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.
- f. It will provide for such methods of administration for the program as are found by the Secretary to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the acts, the regulations, and this assurance.
- g. It agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the acts, the regulations, and this assurance.

31. Disposal of Land.

- a. For land purchased under a grant for airport noise compatibility purposes, including land serving as a noise buffer, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will be, at the discretion of the Secretary, (1) reinvested in another project at the airport, or (2) transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order, (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund. If land acquired under a grant for

noise compatibility purposes is leased at fair market value and consistent with noise buffering purposes, the lease will not be considered a disposal of the land. Revenues derived from such a lease may be used for an approved airport development project that would otherwise be eligible for grant funding or any permitted use of airport revenue.

- b. For land purchased under a grant for airport development purposes (other than noise compatibility), it will, when the land is no longer needed for airport purposes, dispose of such land at fair market value or make available to the Secretary an amount equal to the United States' proportionate share of the fair market value of the land. That portion of the proceeds of such disposition which is proportionate to the United States' share of the cost of acquisition of such land will, (1) upon application to the Secretary, be reinvested or transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order: (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund.
- c. Land shall be considered to be needed for airport purposes under this assurance if (1) it may be needed for aeronautical purposes (including runway protection zones) or serve as noise buffer land, and (2) the revenue from interim uses of such land contributes to the financial self-sufficiency of the airport. Further, land purchased with a grant received by an airport operator or owner before December 31, 1987, will be considered to be needed for airport purposes if the Secretary or Federal agency making such grant before December 31, 1987, was notified by the operator or owner of the uses of such land, did not object to such use, and the land continues to be used for that purpose, such use having commenced no later than December 15, 1989.
- d. Disposition of such land under (a) (b) or (c) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.

32. Engineering and Design Services.

Engineering and Design Services. If any phase of such project has received Federal funds under Chapter 471 subchapter 1 of Title 49 U.S.C., it will award each contract, or sub-contract for program management, construction management, planning studies, feasibility studies, architectural services, preliminary engineering, design, engineering, surveying, mapping or related services in the same manner as a contract for architectural and engineering services is negotiated under Chapter 11 of Title 40 U. S. C., or an equivalent qualifications-based requirement prescribed for or by the sponsor of the airport.

33. Foreign Market Restrictions.

It will not allow funds provided under this grant to be used to fund any project which uses any product or service of a foreign country during the period in which such foreign country is listed by the United States Trade Representative as denying fair and equitable market opportunities for products and suppliers of the United States in procurement and construction.

34. Policies, Standards, and Specifications.

It will carry out any project funded under an Airport Improvement Program Grant in accordance with policies, standards, and specifications approved by the Secretary including, but not limited to, current FAA Advisory Circulars for AIP projects as of [Application Date].

35. Relocation and Real Property Acquisition.

- a. It will be guided in acquiring real property, to the greatest extent practicable under State law, by the land acquisition policies in Subpart B of 49 CFR Part 24 and will pay or reimburse property owners for necessary expenses as specified in Subpart B.
- b. It will provide a relocation assistance program offering the services described in Subpart C and fair and reasonable relocation payments and assistance to displaced persons as required in Subpart D and E of 49 CFR Part 24.
- c. It will make available within a reasonable period of time prior to displacement, comparable replacement dwellings to displaced persons in accordance with Subpart E of 49 CFR Part 24.

36. Access By Intercity Buses.

The airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport; however, it has no obligation to fund special facilities for intercity buses or for other modes of transportation.

37. Disadvantaged Business Enterprises.

The sponsor shall not discriminate on the basis of race, color, national origin or sex in the award and performance of any DOT-assisted contract covered by 49 CFR Part 26, or in the award and performance of any concession activity contract covered by 49 CFR Part 23. In addition, the sponsor shall not discriminate on the basis of race, color, national origin or sex in the administration of its Disadvantaged Business Enterprise (DBE) and Airport Concessions Disadvantaged Business Enterprise (ACDBE) programs or the requirements of 49 CFR Parts 23 and 26. The sponsor shall take all necessary and reasonable steps under 49 CFR Parts 23 and 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts, and/or concession contracts. The sponsor's DBE and ACDBE programs, as required by 49 CFR Parts 26 and 23, and as approved by DOT, are incorporated by reference in this agreement. Implementation of these programs is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the sponsor of its failure to carry out its approved program, the Department may impose sanctions as provided for under Parts 26 and 23 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1936 (31 U.S.C. 3801).

38. Hangar Construction.

If the airport owner or operator and a person who owns an aircraft agree that a hangar is to be constructed at the airport for the aircraft at the aircraft owner's expense, the airport owner or operator will grant to the aircraft owner for the hangar a long term lease that is subject to such terms and conditions on the hangar as the airport owner or operator may impose.

39. Competitive Access.

- a. If the airport owner or operator of a medium or large hub airport (as defined in section 47102 of title 49, U.S.C.) has been unable to accommodate one or more requests by an air carrier for access to gates or other facilities at that airport in order to allow the air carrier to provide

service to the airport or to expand service at the airport, the airport owner or operator shall transmit a report to the Secretary that-

1. Describes the requests;
 2. Provides an explanation as to why the requests could not be accommodated; and
 3. Provides a time frame within which, if any, the airport will be able to accommodate the requests.
- b. Such report shall be due on either February 1 or August 1 of each year if the airport has been unable to accommodate the request(s) in the six month period prior to the applicable due date.

AVIATION PROJECT CONSULTANT AGREEMENT
(FEDERAL ASSISTANCE)
(Revision 04/11/2018)

THIS AGREEMENT is entered into by Crawford, Murphy & Tilly, Inc. (hereinafter the "Consultant"), and the City of Osage Beach, Missouri, (hereinafter the "Sponsor").

WITNESSETH:

WHEREAS, the Sponsor has selected the Consultant to perform professional services to accomplish a project at the Lee C. Fine Memorial Airport; and

WHEREAS, while neither the Missouri Department of Transportation (MoDOT) nor the Federal Aviation Administration (FAA) is a party to this Agreement, MoDOT and/or FAA land acquisition, environmental, planning, design and construction criteria and other requirements will be utilized unless specifically approved otherwise by MoDOT; and

WHEREAS, the Sponsor intends to accomplish a project at the Lee C. Fine Memorial Airport as listed in Exhibit I of this Agreement, entitled "Project Description", which is attached hereto and made a part of this Agreement.

NOW, THEREFORE, in consideration of the payments to be made and the covenants set forth in this Agreement to be performed by the Sponsor, the Consultant hereby agrees that it shall faithfully perform the professional services called for by this Agreement in the manner and under the conditions described in this Agreement.

(1) DEFINITIONS: The following definitions apply to these terms, as used in this Agreement:

(A) "SPONSOR" means the owner of the airport referenced above.

(B) "SPONSOR'S REPRESENTATIVE" means the person or persons designated in Section (23)(A) of this agreement by the Sponsor to represent the Sponsor in negotiations, communications, and various other contract administration dealings with the Consultant.

(C) "MoDOT" means the Missouri Department of Transportation, an executive branch agency of state government, which acts on behalf of the Missouri Highways and Transportation Commission.

(D) "CONSULTANT" means the firm providing professional services to the Sponsor as a party to this Agreement.

(E) "CONSULTANT'S REPRESENTATIVE" means the person or persons designated in Section (23)(B) of this agreement by the Consultant to represent that firm in negotiations, communications, and various other contract administration dealings with the Sponsor.

(F) "DELIVERABLES" means all drawings and documents prepared in performance of this Agreement, to be delivered to and become the property of the Sponsor pursuant to the terms and conditions set out in Section (12) of this Agreement.

(G) "DISADVANTAGED BUSINESS ENTERPRISE (DBE)" means an entity owned and controlled by a socially and economically disadvantaged individual as defined in 49 Code of Federal Regulations (CFR) Part 26, which is certified as a DBE firm in Missouri by MoDOT. Appropriate businesses owned and controlled by women are included in this definition.

(H) "FAA" means the Federal Aviation Administration within the United States Department of Transportation (USDOT), headquartered at Washington, D.C., which acts through its authorized representatives.

(I) "INTELLECTUAL PROPERTY" consists of copyrights, patents, and any other form of intellectual property rights covering any data bases, software, inventions, training manuals, systems design or other proprietary information in any form or medium.

(J) "SUBCONSULTANT" means any individual, partnership, corporation, or joint venture to which the Consultant, with the written consent of the Sponsor, subcontracts any part of the professional services under this Agreement but shall not include those entities which supply only materials or supplies to the Consultant.

(K) "SUSPEND" the services means that the services as contemplated herein shall be stopped on a temporary basis. This stoppage will continue until the Sponsor either decides to terminate the project or reactivate the services under the conditions then existing.

(L) "TERMINATE", in the context of this Agreement, means the cessation or quitting of this Agreement based upon the action or inaction of the Consultant, or the unilateral cancellation of this Agreement by the Sponsor.

(M) "USDOT" means the United States Department of Transportation, headquartered at Washington, D.C., which acts through its authorized representatives.

(N) "SERVICES" includes all professional engineering and related services and the furnishing of all equipment, supplies, and materials in conjunction with such services as are required to achieve the broad purposes and general objectives of this Agreement.

(2) SCOPE OF SERVICES:

(A) The services covered by this Agreement shall include furnishing the professional, technical, and other personnel and the equipment, material and all other things necessary to accomplish the proposed project detailed in Exhibit I of this Agreement.

(B) The specific services to be provided by the Consultant are set forth in Exhibit II of this Agreement, entitled "Scope of Services," which is attached hereto and made a part of this Agreement.

(3) ADDITIONAL SERVICES: The Sponsor reserves the right to direct additional services not described in Exhibit II as changed or unforeseen conditions may require. Such direction by the Sponsor shall not be a breach of this Agreement. In this event, a Supplemental Agreement will be negotiated and executed prior to the Consultant performing the additional or changed services, or incurring any additional cost for those additional services. Any changes in the maximum compensation and fee, or time and schedule of completion, will be covered in the Supplemental Agreement. Supplemental Agreements must be approved by MoDOT to ensure additional funding is available.

(4) INFORMATION AND SERVICES PROVIDED BY THE SPONSOR:

(A) At no cost to the Consultant and in a timely manner, the Sponsor will provide available information of record which is pertinent to this project to the Consultant upon request. In addition, the Sponsor will provide the Consultant with the specific items or services set forth in Exhibit III of this Agreement, entitled "Services Provided by the Sponsor", which is attached hereto and made a part of this Agreement. The Consultant shall be entitled to rely upon the accuracy and completeness of such information, and the Consultant may use such information in performing services under this Agreement.

(B) The Consultant shall review the information provided by the Sponsor and will as expeditiously as possible advise the Sponsor of any of that information which the Consultant believes is inaccurate or inadequate or would otherwise have an effect on its design or any of its other activities under this Agreement. In such case, the Consultant shall provide new or verified data or information as necessary to meet the standards required under this Agreement. Any additional work required of the Consultant as the result of inaccurate or inadequate information provided by the Sponsor will be addressed per the provisions of Section (3) of this Agreement.

The Consultant shall not be liable for any errors, omissions, or deficiencies resulting from inaccurate or inadequate information furnished by the Sponsor which inaccuracies or inadequacies are not detected by the Consultant, unless the errors should have been detected by the Consultant through reasonable diligence.

(5) RESPONSIBILITY OF THE CONSULTANT:

(A) The Consultant shall comply with applicable local, state and federal laws and regulations governing these services, as published and in effect on the date of this Agreement. The Consultant shall provide the services in accordance with the criteria and requirements established and adopted by the Sponsor; and if none are expressly established in this Agreement, published manuals and policies of MoDOT and FAA which shall be furnished by the Sponsor upon request; and, absent the foregoing, manuals and policies of the FAA, as published and in effect on the date of this Agreement.

(B) Without limiting the foregoing, land acquisition, environmental, planning, design and construction criteria will be in accordance with the information set out in Exhibit II of this Agreement.

(C) The Consultant shall be responsible for the professional quality, technical accuracy, and the coordination of designs, drawings, specifications, and other services furnished under this Agreement. At any time during construction of the Sponsor project associated with this Agreement or during any phase of work performed by others on said project that is based upon data, plans, designs, or specifications provided by the Consultant, the Consultant shall prepare any data, plans, designs, or specifications needed to correct any negligent acts, errors, or omissions of the Consultant or anyone for whom it is legally responsible in failing to comply with the foregoing standard. The services necessary to correct such negligent acts, errors, or omissions shall be performed without additional compensation, even though final payment may have been received by the Consultant. The Consultant shall provide such services as expeditiously as is consistent with professional performance. Acceptance of the services will not relieve the Consultant of the responsibility to correct such negligent acts, errors, or omissions.

(D) Completed design reports, plans and specifications, plans and specifications submitted for review by permit authorities, and plans and specifications issued for construction shall be signed, sealed, and dated by a Professional Engineer registered in the State of Missouri. Incomplete or preliminary plans or other documents, when submitted for review by others, shall not be sealed, but the name of the responsible engineer, along with the engineer's Missouri registration number, shall be indicated on the design report, plans and specifications or included in the transmittal document. In addition, the phrase "Preliminary - Not for Construction," or similar language, shall be placed on the incomplete or preliminary plan(s) in an obvious location where it can readily be found, easily read, and not obscured by other markings, as a disclosure to others that the design report, plans and specifications are incomplete or preliminary. When the design report, plans and specifications are completed, the

phrase "Preliminary - Not for Construction" or similar language shall be removed and the design report, plans and specifications shall thereupon be sealed.

(E) The Consultant shall cooperate fully with the Sponsor's activities on adjacent projects as may be directed by the Sponsor. This shall include attendance at meetings, discussions, and hearings as requested by the Sponsor. The minimum number and location of meetings shall be defined in Exhibit II.

(F) In the event any lawsuit or court proceeding of any kind is brought against the Sponsor, arising out of or relating to the Consultant's activities or services performed under this Agreement or any project of construction undertaken employing the deliverables provided by the Consultant in performing this Agreement, the Consultant shall have the affirmative duty to assist the Sponsor in preparing the Sponsor's defense, including, but not limited to, production of documents, trials, depositions, or court testimony. Any assistance given to the Sponsor by the Consultant will be compensated at an amount or rate negotiated between the Sponsor and the Consultant as will be identified in a separate agreement between the Sponsor and the Consultant. To the extent the assistance given to the Sponsor by the Consultant was necessary for the Sponsor to defend claims and liability due to the Consultant's negligent acts, errors, or omissions, the compensation paid by the Sponsor to the Consultant will be reimbursed to the Sponsor.

(6) NO SOLICITATION WARRANTY: The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gifts, or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, the Sponsor will have the right to terminate this Agreement without liability, or at its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gifts, or contingent fee, plus costs of collection including reasonable attorney's fees.

(7) DISADVANTAGED BUSINESS ENTERPRISE (DBE) REQUIREMENTS:

(A) DBE Goal: The following DBE goal has been established for this Agreement. The dollar value of services and related equipment, supplies, and materials used in furtherance thereof which is credited toward this goal will be based on the amount actually paid to DBE firms. The goal for the percentage of services to be awarded to DBE firms is 4% of the total Agreement dollar value.

(B) Eligibility of DBE's: Only those firms currently certified as DBE's by MoDOT, City of St. Louis/Lambert Airport Authority, Metro, City of Kansas City, and Kansas City Area Transportation Authority are eligible to participate as DBEs on this contract. A list of these firms is available on MoDOT's Office of External Civil Rights webpage at the following address under the MRCC DBE Directory:

http://www.modot.org/business/contractor_resources/External_Civil_Rights/DBE_program.htm

(C) Consultant's Certification Regarding DBE Participation: The Consultant's signature on this Agreement constitutes the execution of all DBE certifications which are a part of this Agreement. The Consultant shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Agreement. The Consultant shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT assisted contracts. Failure by the Consultant to carry out these requirements is a material breach of this Agreement, which may result in the termination of this Agreement or such other remedy as the Sponsor deems appropriate, which may include, but is not limited to: withholding monthly progress payments; assessing sanctions; liquidated damages; and/or disqualifying the Consultant from future bidding as non-responsible.

1. Policy: It is the policy of the USDOT and the Sponsor that businesses owned by socially and economically disadvantaged individuals (DBEs) as defined in 49 CFR Part 26 have the maximum opportunity to participate in the performance of contracts financed in whole or in part with federal funds. Thus, the requirements of 49 CFR Part 26 apply to this Agreement.

2. Obligation of the Consultant to DBEs: The Consultant agrees to assure that DBEs have the maximum opportunity to participate in the performance of this Agreement and any subconsultant agreement financed in whole or in part with federal funds. In this regard the Consultant shall take all necessary and reasonable steps to assure that DBEs have the maximum opportunity to compete for and perform services. The Consultant shall not discriminate on the basis of race, color, religion, creed, disability, sex, age, or national origin in the performance of this Agreement or in the award of any subsequent subconsultant agreement. The Consultant shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of USDOT assisted agreements and contracts. Failure by the Consultant to carry out these requirements is a material breach of this Agreement, which may result in the termination of this Agreement or such other remedy, as the recipient deems appropriate.

3. Geographic Area for Solicitation of DBEs: The Consultant shall seek DBEs in the same geographic area in which the solicitation for other Subconsultants is made. If the Consultant cannot meet the DBE goal using DBEs from that geographic area, the Consultant shall, as a part of the effort to meet the goal, expand the search to a reasonably wider geographic area.

4. Determination of Participation Toward Meeting the DBE Goal: DBE participation shall be counted toward meeting the goal as follows:

A. Once a firm is determined to be a certified DBE, the total dollar value of the subconsultant agreement awarded to that DBE is counted toward the DBE goal set forth above.

B. The Consultant may count toward the DBE goal a portion of the total dollar value of a subconsultant agreement with a joint venture eligible under the DBE standards equal to the percentage of the ownership and control of the DBE partner in the joint venture.

C. The Consultant may count toward the DBE goal expenditures to DBEs who perform a commercially useful function in the completion of services required in this Agreement. A DBE is considered to perform a commercially useful function when the DBE is responsible for the execution of a distinct element of the services specified in the Agreement and the carrying out of those responsibilities by actually performing, managing and supervising the services involved and providing the desired product.

D. A Consultant may count toward the DBE goal its expenditures to DBE firms consisting of fees or commissions charged for providing a bona fide service, such as professional, technical, consultant, or managerial services and assistance in the procurement of essential personnel, facilities, equipment, materials or supplies required for the performance of this Agreement, provided that the fee or commission is determined by the Sponsor to be reasonable and not excessive as compared with fees customarily allowed for similar services.

E. The Consultant is encouraged to use the services of banks owned and controlled by socially and economically disadvantaged individuals.

5. Replacement of DBE Subconsultants: The Consultant shall make good faith efforts to replace a DBE Subconsultant who is unable to perform satisfactorily with another DBE Subconsultant. Replacement firms must be approved by the Sponsor and MoDOT.

6. Verification of DBE Participation: Prior to the release of the retained percentage by the Sponsor, the Consultant shall file a list with the Sponsor showing the DBEs used and the services performed. The list shall show the actual dollar amount paid to each DBE that is applicable to the percentage participation established in this Agreement. Failure on the part of the Consultant to achieve the DBE participation specified in this Agreement may result in sanctions being imposed on the Sponsor for noncompliance with 49 CFR Part 26. If the total DBE participation is less than the goal amount stated by the Sponsor, the Sponsor may sustain damages, the exact extent of which would be difficult or impossible to ascertain. Therefore, in order to liquidate such damages, the monetary difference between the amount of the DBE goal dollar amount and the amount actually paid to the DBEs for performing a commercially useful function will be deducted from the Consultant's payments as liquidated damages. If this Agreement is awarded with less than the goal amount stated above by the Sponsor, that lesser amount shall become the goal amount and shall be used to determine liquidated damages. No such deduction will be made when, for reasons beyond the control of the Consultant, the DBE goal amount is not met.

7. Documentation of Good Faith Efforts to Meet the DBE Goal:

The Agreement goal established by the Sponsor is stated above in Subsection (7)(A). The Consultant must document the good faith efforts it made to achieve that DBE goal, if the agreed percentage specified in Subsection (7)(C)(8) below is less than the percentage stated in Subsection (7)(A). Good faith efforts to meet this DBE goal amount may include such items as, but are not limited to, the following:

A. Attended a meeting scheduled by the Sponsor to inform DBEs of contracting or consulting opportunities.

B. Advertised in general circulation trade association and socially and economically disadvantaged business directed media concerning DBE subcontracting opportunities.

C. Provided written notices to a reasonable number of specific DBEs that their interest in a subconsultant agreement is solicited in sufficient time to allow the DBEs to participate effectively.

D. Followed up on initial solicitations of interest by contacting DBEs to determine with certainty whether the DBEs were interested in subconsulting work for this Agreement.

E. Selected portions of the services to be performed by DBEs in order to increase the likelihood of meeting the DBE goal (including, where appropriate, breaking down subconsultant agreements into economically feasible units to facilitate DBE participation).

F. Provided interested DBEs with adequate information about plans, specifications and requirements of this Agreement.

G. Negotiated in good faith with interested DBEs, and did not reject DBEs as unqualified without sound reasons based on a thorough investigation of their capabilities.

H. Made efforts to assist interested DBEs in obtaining any bonding, lines of credit or insurance required by the Sponsor or by the Consultant.

I. Made effective use of the services of available disadvantaged business organizations, minority contractors' groups, disadvantaged business assistance offices, and other organizations that provide assistance in the recruitment and placement of DBE firms.

8. DBE Participation Obtained by Consultant: The Consultant has obtained DBE participation and agrees to use DBE firms to complete at least 13% of the total services to be performed under this Agreement, by dollar value. All DBE

firms which the Consultant intends to use, including DBE firm participation above and beyond the goal established in Subsection (7)(A), and the type and dollar value of the services each DBE will perform, is as follows:

(A) DBE NAME AND ADDRESS	(B) TYPE OF DBE SERVICE	(C) DOLLAR VALUE OF DBE SUB- CONTRACT	(D) PERCENT APPLICABLE TO DBE GOAL (100%, 60%)	(E) DOLLAR AMOUNT APPLICABLE TO DBE GOAL (C x D)	(F) PERCENT OF TOTAL CONTRACT (C / TOTAL CONTRACT AMOUNT)
TSi Geotechnical, Inc. 1340 N. Price Road St. Louis, MO 63132	Geotechnical Investigation	\$43,277.00	100%	\$43,277.00	13%
TOTAL DBE PARTICIPATION				\$43,277.00	13%

9. Good Faith Efforts to Obtain DBE Participation: If the Consultant's agreed DBE goal amount as specified in Subsection (7)(C)(8) is less than the Sponsor's DBE goal given in Subsection (7)(A), then the Consultant certifies good faith efforts were taken by Consultant in an attempt to obtain the level of DBE participation set by the Sponsor in Subsection (7)(A). Documentation of the Consultant's good faith efforts is to be submitted with this Agreement to the Sponsor and a copy submitted to MoDOT.

(8) SUBCONSULTANTS:

(A) The Consultant agrees that except for those firms and for those services listed below, there shall be no transfer of engineering services performed under this Agreement without the written consent of the Sponsor. Subletting, assignment, or transfer of the services or any part thereof to any other corporation, partnership, or individual is expressly prohibited. Any violation of this clause will be deemed cause for termination of this Agreement.

EXCEPTIONS (Subconsultant information):

List all Subconsultant(s) to be used for any piece of work outlined in this agreement, excluding DBE Firms listed in the DBE Participation Subsection (7)(C)(8), DBE Participation Obtained by Consultant, in this agreement. If none, write "N/A" in the first row of the first column.

FIRM NAME	COMPLETE ADDRESS	NATURE OF SERVICES	SUBCONTRACT AMOUNT
TSi Geotechnical, Inc.	1340 N. Price Road St. Louis, MO 63132	Geotechnical Investigation	\$43,277.00

(B) The Consultant agrees and shall require the selected Subconsultants to maintain books, documents, papers, accounting records, and other evidence pertaining to direct costs and expenses incurred under the Agreement and to make such materials available at their offices at reasonable times during the Agreement period and for three (3) years from the date of final payment under the Agreement for inspection by the Sponsor or any of its authorized representatives (or any authorized representative of MoDOT or the federal government), and copies thereof shall be furnished.

(C) Unless waived or modified by the Sponsor, the Consultant agrees to require, and shall provide evidence to the Sponsor, that those Subconsultants shall maintain commercial general liability, automobile liability, professional liability and worker's compensation and employer's liability insurance, or alternatively, a comparable umbrella insurance policy submitted to and approved by MoDOT, for not less than the period of services under such subconsultant agreements, and in an amount equal to the Sponsor's sovereign immunity caps as stated in section 537.600 RSMo and subsequently adjusted by the Missouri Department of Insurance. If the statutory limit of liability for a type of liability specified in this section is repealed or does not exist, the minimum coverage shall not be less than the following amounts:

1. Commercial General Liability: \$500,000.00 per person up to \$3,000,000.00 per occurrence;
2. Automobile Liability: \$500,000.00 per person up to \$3,000,000.00 per occurrence;
3. Worker's Compensation in accordance with the statutory limits; and Employer's Liability: \$1,000,000.00; and
4. Professional Liability: \$1,000,000.00, each claim and in the annual aggregate.

(D) The subletting of the services will in no way relieve the Consultant of its primary responsibility for the quality and performance of the services to be performed hereunder, and the Consultant shall assume full liability for the services performed by its Subconsultants.

(E) The payment for the services of any Subconsultants will be reimbursed at cost by the Sponsor in accordance with the submitted invoices for such

services, as set forth in Section (9), entitled "Fees and Payments".

(F) The Consultant agrees to furnish a list of any MoDOT-approved DBE Subconsultants under this Agreement upon the request of the Sponsor or MoDOT. Further, the Consultant agrees to report to the Sponsor on a monthly basis the actual payments made by the Consultant to such DBE Subconsultants.

(G) The Consultant agrees that any agreement between the Consultant and any Subconsultant shall be an actual cost plus fixed fee agreement if the amount of the agreement between the Consultant and Subconsultant exceeds Twenty-Five Thousand Dollars (\$25,000). Subconsultant agreements for amounts of \$25,000 or less may be lump sum or actual cost plus fixed fee as directed by the Sponsor.

(9) FEES AND PAYMENTS:

(A) The Consultant shall not proceed with the services described herein until the Consultant receives written authorization in the form of a Notice to Proceed from the Sponsor.

(B) The amount to be paid to the Consultant by the Sponsor as full remuneration for the performance of all services called for in this Agreement will be on the following basis, except that the lump sum fee for labor, overhead and profit plus other costs will not exceed a maximum amount payable of **\$321,000.00**, which is shown in Exhibit IV, "Derivation of Consultant Project Costs", and Exhibit V, "Engineering Basic and Special Services-Cost Breakdown" attached hereto and made a part of this Agreement. Payment under the provisions of this Agreement is limited to those costs incurred in accordance with generally accepted accounting principles to the extent they are considered necessary to the execution of the item of service.

(C) The Consultant's fee shall include the hourly salary of each associate and employee, salary-related expenses, general overhead, and direct non-salary costs as allowed by 48 CFR Part 31, the Federal Acquisition Regulations (FAR), and 23 CFR 172, Procurement, Management, and Administration of Engineering and Design Related Services. The hourly salary of each associate and employee is defined as the actual productive salaries expended to perform the services. The other billable costs for the project are defined as follows:

1. Salary-related expenses are additions to payroll cost for holidays, sick leave, vacation, group insurance, worker's compensation insurance, social security taxes (FICA), unemployment insurance, disability taxes, retirement benefits, and other related items.

2. General overhead cost additions are for administrative salaries (including non-productive salaries of associates and employees), equipment rental and maintenance, office rent and utilities, office maintenance, office supplies, insurance, taxes, professional development expenses, legal and audit fees, professional dues and licenses, use of electronic computer for accounting, and other related items.

3. Direct non-salary costs incurred in fulfilling the terms of this Agreement, such as but not limited to travel and subsistence, subcontract services, reproductions, computer charges, materials and supplies, and other related items, will be charged at actual cost without any override or additives.

4. The additions to productive salaries for Items in Subsections (9)(C) 1 and 2 will be established based on the latest audit.

5. The Consultant shall provide a detailed man hour/cost breakdown for each phase of the project indicating each job classification with base wage rates and the number of hours associated with each phase. The breakdown shall include work activities and be in sufficient detail to reflect the level of effort involved. This information shall be attached hereto and made a part of this Agreement as Exhibit V "Engineering Basic and Special Services -Cost Breakdown".

6. The Consultant shall provide a detailed breakdown of all Subconsultant fees, including overhead and profit, when requested by the Sponsor and/or MoDOT. Once the cumulative amount to be paid to a Subconsultant by the Consultant, as full remuneration for the performance of services, as called for in this Agreement and any supplemental agreements hereafter, equals or exceeds Twenty-Five Thousand Dollars (\$25,000), submittal of a separate Exhibit IV, "Derivation of Consultant Project Costs" and Exhibit V, "Engineering Basic and Special Services-Cost Breakdown", prepared to solely reflect the Subconsultant's fees shall be attached hereto and made a part of this Agreement, subject to the process described in Section (3) of this Agreement. These Exhibits prepared to reflect the Subconsultant's fees shall be labeled Exhibit IV-A and Exhibit V-A, respectively.

7. The Consultant shall provide a detailed breakdown of all travel expense, living expense, reproduction expense, and any other expense that may be incurred throughout the project. These expenses must be project specific and not covered in or by an overhead rate.

8. The property and equipment used on this project such as automotive vehicles, survey equipment, office equipment, etc., shall be owned, rented, or leased by the Consultant, and charges will be made to the project for the use of such property at the rate established by company policies and practices. Approval of the Sponsor and MoDOT will be required prior to acquisition of reimbursable special equipment.

9. The Consultant agrees to pay each Subconsultant under this Agreement for satisfactory performance of its contract no later than 15 days from the Consultant's receipt of each payment the Consultant receives from the Sponsor. The Consultant agrees further to return retainage payments to each Subconsultant within 15 days after the Subconsultant's work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of the Sponsor. This clause applies to both DBE

and non-DBE Subconsultants.

(D) The Consultant shall submit an invoice for services rendered to the Sponsor not more than once every month. A progress summary indicating the current status of the services shall be submitted along with each invoice. Upon receipt of the invoice and progress summary, the Sponsor will, as soon as practical, but not later than 30 days from receipt, pay the Consultant for the services rendered, including the proportion of the fixed fee earned as reflected by the estimate of the portion of the services completed as shown by the progress summary, less partial payments previously made. A late payment charge of one and one half percent (1.5%) per month shall be assessed for those invoiced amounts not paid, through no fault of the Consultant, within 30 days after the Sponsor's receipt of the Consultant's invoice. The Sponsor will not be liable for the late payment charge on any invoice which requests payment for costs which exceed the proportion of the maximum amount payable earned as reflected by the estimate of the portion of the services completed, as shown by the progress summary. The payment, other than the fixed fee, will be subject to final audit of actual expenses incurred during the period of the Agreement.

(E) The Sponsor may hold a percentage of the amount earned by the Consultant, not to exceed two percent (2%), until 100% of services as required by Section (2), "Scope of Services," of this Agreement are completed and have been received and approved by the Sponsor and MoDOT. The payment will be subject to final audit of actual expenses during the period of the Agreement. Upon completion and acceptance of all services required by Section (2), "Scope of Services," the two percent (2%) retainage will be paid to the Consultant. As an alternative to withholding two percent (2%) retainage as set forth above, the Sponsor may accept a letter of credit or the establishment of an escrow account in the amount of said retainage and upon such other terms and conditions as may be acceptable to the Sponsor and the Consultant. If a letter of credit or escrow account is not acceptable to the Sponsor, then the percent retainage will control.

(10) PERIOD OF SERVICE:

(A) The services, and if more than one, then each phase thereof, shall be completed in accordance with the schedule contained in Exhibit VI, "Performance Schedule," attached hereto and made a part of this Agreement. The Consultant and the Sponsor will be required to meet this schedule.

(B) The Consultant and Sponsor will be required to meet the schedules in this Agreement. The Sponsor will grant time extensions for delays due to unforeseeable causes beyond the control of and without fault or negligence of the Consultant and no claim for damage shall be made by either party. Requests for extensions of time shall be made in writing by the Consultant before that phase of work is scheduled to be completed, stating fully the events giving rise to the request and justification for the time extension requested. The anticipated date of completion of the work, including review time, is stated in Exhibit VI of this Agreement. An extension of time shall be the sole allowable compensation for any such delays, except as otherwise

provided in Section (3) for additional/changed work and differing/unforeseen conditions. Any extensions or additional costs shall be subject to MoDOT approval.

(C) As used in this provision, the term "delays due to unforeseeable causes" include but are not limited to the following:

1. War or acts of war, declared or undeclared;
2. Flooding, earthquake, or other major natural disaster preventing the Consultant from performing necessary services at the project site, or in the Consultant's offices, at the time such services must be performed;
3. The discovery on the project of differing site conditions, hazardous substances, or other conditions which, in the sole judgment of the Sponsor, justifies a suspension of the services or necessitates modifications of the project design or plans by the Consultant;
4. Court proceedings;
5. Changes in services or extra services.

(11) TERMINATION OF AGREEMENT – 2 CFR § 200 Appendix II(B):

(A) Termination for Convenience:

1. The Sponsor may, by written notice to the Consultant, terminate this Agreement for its convenience and without cause or default on the part of the Consultant. Upon receipt of the notice of termination, except as explicitly directed by the Sponsor, the Consultant must immediately discontinue all services affected.
2. Upon termination of the Agreement, the Consultant must deliver to the Sponsor all data, surveys, models, drawings, specifications, reports, maps, photographs, estimates, summaries, and other documents and materials prepared by the Consultant under this Agreement, whether complete or partially complete.
3. The Sponsor agrees to make just and equitable compensation to the Consultant for satisfactory work completed up through the date the Consultant receives the termination notice. Compensation will not include anticipated profit on non-performed services.
4. The Sponsor further agrees to hold the Consultant harmless for errors or omissions in documents that are incomplete as a result of the termination action under this clause.

(B) Termination for Default:

1. Either party may terminate this Agreement for cause if the other party fails to fulfill its obligations that are essential to the completion of the work per the terms and conditions of the Agreement. The party initiating the termination action must allow the breaching party an opportunity to dispute or cure the breach.

2. The terminating party must provide the breaching party seven days advance written notice of its intent to terminate the Agreement. The notice must specify the nature and extent of the breach, the conditions necessary to cure the breach, and the effective date of the termination action. The rights and remedies in this clause are in addition to any other rights and remedies provided by law or under this agreement.

3. Termination by the Sponsor:

a. The Sponsor may terminate this Agreement, in whole or in part, for the failure of the Consultant to:

i. Perform the services within the time specified in this Agreement or by Sponsor-approved extension;

ii. Make adequate progress so as to endanger satisfactory performance of the Project; or

iii. Fulfill the obligations of the Agreement that are essential to the completion of the Project.

b. Upon receipt of the notice of termination, the Consultant must immediately discontinue all services affected unless the notice directs otherwise. Upon termination of the Agreement, the Consultant must deliver to the Sponsor all data, surveys, models, drawings, specifications, reports, maps, photographs, estimates, summaries, and other documents and materials prepared by the Consultant under this Agreement, whether complete or partially complete.

c. The Sponsor agrees to make just and equitable compensation to the Consultant for satisfactory work completed up through the date the Consultant receives the termination notice. Compensation will not include anticipated profit on non-performed services.

d. The Sponsor further agrees to hold Consultant harmless for errors or omissions in documents that are incomplete as a result of the termination action under this clause.

e. If, after finalization of the termination action, the Sponsor determines the Consultant was not in default of the Agreement, the rights and obligations of the parties shall be the same as if the Sponsor issued the termination for

the convenience of the Sponsor.

4. Termination by Consultant:

a. The Consultant may terminate this Agreement in whole or in part, if the Sponsor:

i. Defaults on its obligations under this Agreement;

ii. Fails to make payment to the Consultant in accordance with the terms of this Agreement; or

iii. Suspends the Project for more than one hundred eighty (180) days due to reasons beyond the control of the Consultant.

b. Upon receipt of a notice of termination from the Consultant, the Sponsor agrees to cooperate with the Consultant for the purpose of terminating the Agreement or a portion thereof, by mutual consent. If the Sponsor and Consultant cannot reach mutual agreement on the termination settlement, the Consultant may, without prejudice to any rights and remedies it may have, proceed with terminating all or parts of this Agreement based upon the Sponsor's breach of the Agreement.

c. In the event of termination due to Sponsor breach, the Consultant is entitled to invoice the Sponsor and to receive full payment for all services performed or furnished in accordance with this Agreement and all justified reimbursable expenses incurred by the Consultant through the effective date of termination action. The Sponsor agrees to hold the Consultant harmless for errors or omissions in documents that are incomplete as a result of the termination action under this clause.

(12) OWNERSHIP OF DRAWINGS AND DOCUMENTS:

(A) All drawings and documents prepared in performance of this Agreement shall be delivered to and become the property of the Sponsor upon suspension, abandonment, cancellation, termination, or completion of the Consultant's services hereunder; provided, however,

1. The Consultant shall have the right to their future use with written permission of the Sponsor;

2. The Consultant shall retain its rights in its standard drawing details, designs, specifications, CADD files, databases, computer software, and any other proprietary property; and

3. The Consultant shall retain its rights to intellectual property developed, utilized, or modified in the performance of the services subject to the following:

A. Copyrights. Sponsor, as the contracting agency, reserves a royalty-free, nonexclusive and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for Governmental purposes:

I. The copyright in any works developed under this Agreement, or under a subgrant or contract under this Agreement; and

II. Any rights of copyright to which Sponsor, its Consultant or Subconsultant purchases ownership with payments provided by this Agreement.

B. Patents. Rights to inventions made under this Agreement shall be determined in accordance with 37 CFR Part 401. The standard patent rights clause at 37 CFR § 401.14, as modified below, is hereby incorporated by reference.

I. The terms "to be performed by a small business firm or domestic nonprofit organization" shall be deleted from paragraph (g)(1) of the clause;

II. Paragraphs(g)(2) and (g)(3) of the clause shall be deleted; and

III. Subsection (I) of the clause, entitled "communication" shall read as follows: "(I) Communication. All notifications required by this clause shall be submitted to the Sponsor".

IV. The following terms in 37 CFR 401.14 shall for the purpose of this Agreement have the following meaning:

Contractor - Consultant

Government and Federal Agency - Sponsor

Subcontractor - Subconsultant

4. Basic survey notes, design computations, and other data prepared under this Agreement shall be made available for use by the Sponsor without further compensation and without restriction or limitation on their use.

(B) Electronically Produced Documents:

1. Electronically produced documents will be submitted to the Sponsor, MoDOT, and/or FAA in data files compatible with AutoCAD Civil 3D (specify CADD version) and Adobe PDF. The Consultant makes no warranty as to the compatibility of the data files beyond the above specified release or version of the stated software.

2. Because data stored on electronic media can deteriorate undetected or be modified without the Consultant's knowledge, the electronic data files submitted to the Sponsor will have an acceptance period of 60 calendar days after receipt by the Sponsor. If during that period the Sponsor finds any errors or omissions in the files, the Consultant will correct the errors or omissions as a part of this Agreement. However, any changes requested by the Sponsor during the 60 calendar day acceptance period that constitute Additional Services under Section (3) shall be compensated in accordance with the terms of the Agreement. The Consultant will not be responsible for maintaining copies of the submitted electronic data files after the acceptance period.

3. Any changes requested after the acceptance period will be considered additional services for which the Consultant shall be reimbursed at the hourly rates established herein plus the cost of materials.

4. The data on the electronic media shall not be considered the Consultant's instrument of service. Only the submitted hard copy documents with the Consultant Engineer's seal on them will be considered the instrument of service. The Consultant's nameplate shall be removed from all electronic media provided to the Sponsor.

(C) The Sponsor may incorporate any portion of the deliverables into a project other than that for which they were performed, without further compensation to the Consultant; provided however, that (1) such deliverables shall thereupon be deemed to be the work product of the Sponsor, and the Sponsor shall use same at its sole risk and expense; and (2) the Sponsor shall remove the Consultant's name, seal, endorsement, and all other indices of authorship from the deliverables.

(13) DECISIONS UNDER THIS AGREEMENT AND DISPUTES:

(A) The Sponsor will determine the acceptability of the drawings, specifications, and estimates and all other deliverables to be furnished, and will decide the questions that may arise relative to the proper performance of this Agreement. The determination of acceptable deliverables may occur following final payment, and as late as during the construction of the project which decisions shall be conclusive, binding and incontestable, if not arbitrary, capricious or the result of fraud.

(B) The Sponsor will decide all questions which may arise as to the quality, quantity, and acceptability of services performed by Consultant and as to the rate of progress of the services; all questions which may arise as to the interpretation of the plans and specifications; all questions as to the acceptable fulfillment of the Agreement on the part of the Consultant; the proper compensation for performance or breach of the Agreement; and all claims of any character whatsoever in connection with or growing out of the services of the Consultant, whether claims under this Agreement or otherwise. The Sponsor's decisions shall be conclusive, binding and incontestable if not arbitrary, capricious or the result of fraud.

(C) If the Consultant has a claim for payment against the Sponsor which in any way arises out of the provisions of this Agreement or the performance or non-performance hereunder, written notice of such claim must be made within sixty (60) days of the Consultant's receipt of payment for the retained percentage. Notwithstanding Section (23) of this Agreement, the notice of claim shall be personally delivered or sent by certified mail to the Sponsor. The notice of claim shall contain an itemized statement showing completely and fully the items and amounts forming the basis of the claim and the factual and legal basis of the claim.

(D) Any claim for payment or an item of any such claim not included in the notice of claim and itemized statement, or any such claim not filed within the time provided by this provision shall be forever waived, and shall neither constitute the basis of nor be included in any legal action, counterclaim, set-off, or arbitration against the Sponsor.

(E) The claims procedure in Subsections (13)(C) and (D) does not apply to any claims of the Sponsor against the Consultant. Further, any claims of the Sponsor against the Consultant under this Agreement are not waived or estopped by the claims procedure in Subsections (13)(C) and (D).

(F) Notwithstanding Subsections (13)(A) through (E) above, in the event of any material dispute hereunder, both parties agree to pursue, diligently and in good faith, a mutually acceptable resolution.

(14) SUCCESSORS AND ASSIGNS: The Sponsor and the Consultant agree that this Agreement and all agreements entered into under the provisions of this Agreement shall be binding upon the parties hereto and their successors and assigns.

(15) INDEMNIFICATION RESPONSIBILITY:

(A) The Consultant agrees to save harmless the Sponsor, MoDOT, and the FAA from all liability, losses, damages, and judgments for bodily injury, including death and property damage to the extent due to the Consultant's negligent acts, errors, or omissions in the services performed or to be performed under this Agreement, including those negligent acts, errors, or omissions of the Consultant's employees, agents, and Subconsultants.

(B) The Consultant shall be responsible for the direct damages incurred by the Sponsor as result of the negligent acts, errors, or omissions of the Consultant or anyone for whom the Consultant is legally responsible, and for any losses or costs to repair or remedy construction as a result of such negligent acts, errors or omissions; provided, however, the Consultant shall not be liable to the Sponsor for such losses, costs, repairs and/or remedies which constitute betterment of or an addition of value to the construction or the project.

(C) Neither the Sponsor's review, approval or acceptance of or payment for any services required under this Agreement, nor the termination of this Agreement prior to its completion, will be construed to operate as a waiver of any right under this Agreement or any cause of action arising out of the performance of this Agreement. This indemnification responsibility survives the completion of this Agreement, as well as the construction of the project at some later date, and remains as long as the construction contractor may file or has pending a claim or lawsuit against the Sponsor on this project arising out of the Consultant's services hereunder.

(16) INSURANCE:

(A) The Consultant shall maintain commercial general liability, automobile liability, and worker's compensation and employer's liability insurance in full force and effect to protect the Consultant from claims under Worker's Compensation Acts, claims for damages for personal injury or death, and for damages to property from the negligent acts, errors, or omissions of the Consultant and its employees, agents, and Subconsultants in the performance of the services covered by this Agreement, including, without limitation, risks insured against in commercial general liability policies.

(B) The Consultant shall also maintain professional liability insurance to protect the Consultant against the negligent acts, errors, or omissions of the Consultant and those for whom it is legally responsible, arising out of the performance of professional services under this Agreement.

(C) The Consultant's insurance coverages shall be for not less than the following limits of liability:

1. Commercial General Liability: \$500,000.00 per person up to \$3,000,000.00 per occurrence;

2. Automobile Liability: \$500,000.00 per person up to \$3,000,000.00 per occurrence;

3. Worker's Compensation in accordance with the statutory limits; and Employer's Liability: \$1,000,000.00; and

4. Professional ("Errors and Omissions") Liability: \$1,000,000.00, each claim and in the annual aggregate.

(D) In lieu of the minimum coverage stated in Subsections (16)(C)(1) and (C)(2) above, the Consultant may obtain insurance at all times in an amount equal to the Sponsor's sovereign immunity caps as stated in section 537.600 RSMo and subsequently adjusted by the Missouri Department of Insurance. If the statutory limit of liability for a type of liability specified in this section is repealed or does not exist, the Consultant shall obtain insurance with the minimum coverage stated in Subsections (16)(C)(1) and (C)(2) above.

(E) The Consultant shall, upon request at any time, provide the Sponsor with certificates of insurance evidencing the Consultant's commercial general or professional liability ("Errors and Omissions") policies and evidencing that they and all other required insurance is in effect, as to the services under this Agreement.

(F) Any insurance policy required as specified in Section (16) shall be written by a company which is incorporated in the United States of America or is based in the United States of America. Each insurance policy must be issued by a company authorized to issue such insurance in the State of Missouri.

(17) CONSTRUCTION PHASE OF THE PROJECT:

(A) This Agreement does not include construction phase services. Review of shop drawings and other construction phase services can be added by Supplemental Agreement after design has been completed and the construction contract period has been determined.

(B) Because the Consultant has no control over the cost of labor, materials, equipment, or services furnished by others, or over the construction contractor(s)' methods of determining prices, or over competitive bidding or market conditions, any of the Consultant's opinions of probable project costs and/or construction cost, if provided for herein, are to be made on the basis of the Consultant's experience and qualifications and represent the Consultant's best judgment as an experienced and qualified design professional, familiar with the construction industry, but the Consultant cannot and does not guarantee that proposals, bids, or actual total project costs and/or construction costs will not vary from opinions of probable costs prepared by the Consultant.

(C) The Consultant shall not have control over or charge of and shall not be responsible for construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the construction work, since these are solely the construction contractor(s)' responsibility under the construction contract(s). The Consultant shall not be responsible for the construction contractor(s)' schedules or failure to carry out the construction work in accordance with the construction contract(s). The Consultant shall not have control over or charge of acts of omissions of the construction contractor(s), or any of its or their subcontractors, agents, or employees, or of any other persons performing portions of the construction work.

(18) NONDISCRIMINATION ASSURANCE: During the performance of this Agreement, the Consultant, for itself, its assignees, and successors in interest (hereinafter referred to as the "Consultant") agrees as follows:

(A) Compliance With Regulations: The Consultant will comply with the "Title VI List of Pertinent Nondiscrimination Acts and Authorities", as they may be amended from time to time, which are herein incorporated by reference and made a part of this Agreement. In addition, the Consultant shall comply with all state statutes related to nondiscrimination.

(B) Nondiscrimination: The Consultant, with regard to the work performed by it during the Agreement, will not discriminate on the grounds of race, color, or national origin in the selection and retention of Subconsultants, including procurements of materials and leases of equipment. The Consultant will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the Agreement covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

(C) Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations, either by competitive bidding or negotiation made by the Consultant for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential Subconsultant or supplier will be notified by the Consultant of the Consultant's obligations under this Agreement and the Nondiscrimination Acts and Authorities on the grounds of race, color, or national origin.

(D) Information and Reports: The Consultant will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Sponsor, MoDOT or the FAA to be pertinent to ascertain compliance with such Nondiscrimination Acts and Authorities and instructions. Where any information required of the Consultant is in the exclusive possession of another who fails or refuses to furnish the information, the Consultant will so certify to the Sponsor, MoDOT or the FAA, as appropriate, and will set forth what efforts it has made to obtain the information.

(E) Sanctions for Noncompliance: In the event of a Consultant's noncompliance with the nondiscrimination provisions of this Agreement, the Sponsor will impose such contract sanctions as it, MoDOT, or the FAA may determine to be appropriate, including, but not limited to:

1. Withholding payments to the Consultant under this Agreement until the Consultant complies; and/or
2. Cancelling, terminating, or suspending this Agreement, in whole or in part.

(F) Incorporation of Provisions: The Consultant will include these nondiscrimination provisions in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. The Consultant will take action with respect to any subcontract or procurement as the Sponsor, MoDOT or the FAA may direct as a means of enforcing such provisions, including sanctions for noncompliance; provided, that if the Consultant becomes involved in, or is threatened with litigation by a Subconsultant or supplier because of such direction, the Consultant may request the Sponsor or the United States to enter into such litigation to protect the interests of the Sponsor or United States.

(H) Title VI List of Pertinent Nondiscrimination Acts and Authorities: During the performance of this Agreement, the Consultant, for itself, its assignees, and successors in interest (hereinafter referred to as the "Consultant") agrees to comply with the following nondiscrimination statutes and authorities, including, but not limited to:

1. Title VI of the Civil Rights Act of 1964 (42 USC § 2000d *et seq.*, 78 stat. 252) (prohibits discrimination on the basis of race, color, national origin);
2. 49 CFR Part 21 (Non-Discrimination in Federally-Assisted Programs of the Department of Transportation—Effectuation of Title VI of the Civil Rights Act of 1964);
3. The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 USC § 4601) (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
4. Section 504 of the Rehabilitation Act of 1973 (29 USC § 794 *et seq.*), as amended (prohibits discrimination on the basis of disability); and 49 CFR Part 27;
5. The Age Discrimination Act of 1975, as amended (42 USC § 6101 *et seq.*) (prohibits discrimination on the basis of age);
6. Airport and Airway Improvement Act of 1982 (49 USC § 471, Section 47123), as amended (prohibits discrimination based on race, creed, color, national origin, or sex);
7. The Civil Rights Restoration Act of 1987 (PL 100-209) (Broadened the scope, coverage, and applicability of Title VI of the Civil Rights Act of 1964, the Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);

8. Titles II and III of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 USC §§ 12131-12189) as implemented by U.S. Department of Transportation regulations at 49 CFR Parts 37 and 38;

9. The FAA's nondiscrimination statute (49 USC § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);

10. Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures nondiscrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;

11. Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100); and

12. Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 USC § 1681 *et seq.*).

(19) APPROVAL: This Agreement is made and entered into subject to the approval of MoDOT.

(20) AVIATION FEDERAL AND STATE CLAUSES:

(A) Civil Rights – 49 USC § 47123: The Consultant agrees to comply with pertinent statutes, Executive Orders and such rules as are promulgated to assure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance. This provision binds the Consultant and any subconsultants from the solicitation period through the completion of the Agreement. This provision is in addition to that required of Title VI of the Civil Rights Act of 1964.

(B) Trade Restriction Certification – 49 U.S.C. § 50104, 49 CFR Part 30:

1. By execution of this Agreement, the Consultant certifies that with respect to this Agreement, the Consultant:

A. is not owned or controlled by one or more citizens of a foreign country included in the list of countries that discriminate against U.S. firms as published by the Office of the United States Trade Representative (USTR);

B. has not knowingly entered into any contract or subcontract for this project with a person that is a citizen or national of a foreign country included on the list of countries that discriminate against U.S. firms as published by the USTR; and

C. has not entered into any subcontract for any product to be used on the project that is produced in a foreign country included on the list of countries that discriminate against U.S. firms published by the USTR.

2. This certification concerns a matter within the jurisdiction of an agency of the United States of America and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18, United States Code, Section 1001.

3. The Consultant must provide immediate written notice to the Sponsor if the Consultant learns that its certification or that of a subconsultant was erroneous when submitted or has become erroneous by reason of changed circumstances. The Consultant must require subconsultants provide immediate written notice to the Consultant if at any time it learns that its certification was erroneous by reason of changed circumstances.

4. Unless the restrictions of this clause are waived by the Secretary of Transportation in accordance with 49 CFR 30.17, no contract shall be awarded to a Consultant or subconsultant:

A. who is owned or controlled by one or more citizens or nationals of a foreign country included on the list of countries that discriminate against U.S. firms published by the USTR; or

B. whose subconsultants are owned or controlled by one or more citizens or nationals of a foreign country on such USTR list; or

C. who incorporates in the public works project any product of a foreign country on such USTR list.

5. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by this provision. The knowledge and information of a Consultant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

6. The Consultant agrees that it will incorporate this provision for certification without modification in all lower tier subcontracts. The Consultant may

rely on the certification of a prospective subconsultant that it is not a firm from a foreign country included on the list of countries that discriminate against U.S. firms as published by USTR, unless the Consultant has knowledge that the certification is erroneous.

7. This certification is a material representation of fact upon which reliance was placed when entering into this Agreement. If it is later determined that the Consultant or subconsultant knowingly rendered an erroneous certification, MoDOT or the FAA may direct through the Sponsor cancellation of the Agreement for default at no cost to the Sponsor, MoDOT or the FAA.

(C) Eligible Employees - Executive Order 07-13:

1. The Consultant shall comply with all the provisions of Executive Order 07-13, issued by the Honorable Matt Blunt, Governor of Missouri, on the sixth (6th) day of March, 2007. This Executive Order, which promulgates the State of Missouri's position to not tolerate persons who contract with the state engaging in or supporting illegal activities of employing individuals who are not eligible to work in the United States, is incorporated herein by reference and made a part of this Agreement. By signing this Agreement, the Consultant hereby certifies that any employee of the Consultant assigned to perform services under this Agreement is eligible and authorized to work in the United States in compliance with federal law. In the event the Consultant fails to comply with the provisions of Executive Order 07-13, or in the event the Sponsor has reasonable cause to believe that the Consultant has knowingly employed individuals who are not eligible to work in the United States in violation of federal law, the Sponsor reserves the right to impose such contract sanctions as it may determine to be appropriate, including but not limited to contract cancellation, termination or suspension in whole or in part or both.

2. The Consultant shall include the above-provision concerning said Executive Order within every subcontract. The Consultant shall take such action with respect to any subcontract as the Sponsor may direct as a means of enforcing such provisions, including sanctions for noncompliance.

(D) Texting While Driving – Executive Order 13513, DOT Order 3902.10:

1. In accordance with Executive Order 13513, "Federal Leadership on Reducing Text Messaging While Driving" (10/1/2009) and DOT Order 3902.10 "Text Messaging While Driving" (12/30/2009), FAA encourages recipients of Federal grant funds to adopt and enforce safety policies that decrease crashes by distracted drivers, including policies to ban text messaging while driving when performing work related to a grant or sub-grant.

2. In support of this initiative, the Sponsor encourages the Consultant to promote policies and initiatives for its employees and other work personnel that decrease crashes by distracted drivers, including policies that ban text messaging while driving motor vehicles while performing work activities associated with the project. The Consultant must include the substance of this clause in all sub-tier contracts exceeding Three Thousand Five Hundred Dollars (\$3,500) and involve driving

a motor vehicle in performance of work activities associated with the project.

(E) Veteran's Preference – 49 USC § 47112(c): In the employment of labor (except in executive, administrative, and supervisory positions), the Consultant and all subconsultants must give preference to covered veterans as defined within Title 49 U.S.C. § 47112. Covered veterans include Vietnam era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns (as defined by 15 U.S.C. § 632) owned and controlled by disabled veterans. This preference only applies when there are covered veterans readily available and qualified to perform the work to which the employment relates.

(F) Federal Fair Labor Standards Act (Federal Minimum Wage) – 29 USC § 201, et seq.: All contracts and subcontracts that result from this Agreement incorporate by reference the provisions of 29 CFR Part 201, the Federal Fair Labor Standards Act (FLSA), with the same force and effect as if given in full text. The FLSA sets minimum wage, overtime pay, recordkeeping, and child labor standards for full and part-time workers. The Consultant has full responsibility to monitor compliance to the above-referenced statute and regulation. The Consultant must address any claims or disputes that arise from this requirement directly with the U.S. Department of Labor – Wage and Hour Division.

(G) Occupational Safety and Health Act of 1970 – 20 CFR Part 1910: All contracts and subcontracts that result from this Agreement incorporate by reference the requirements of 29 CFR Part 1910 with the same force and effect as if given in full text. The Consultant must provide a work environment that is free from recognized hazards that may cause death or serious physical harm to the employee. The Consultant retains full responsibility to monitor its compliance and its subconsultants' compliance with the applicable requirements of the Occupational Safety and Health Act of 1970 (20 CFR Part 1910). The Consultant must address any claims or disputes that pertain to a referenced requirement directly with the U.S. Department of Labor – Occupational Safety and Health Administration.

(H) Energy Conservation Requirements – 2 CFR § 200, Appendix II(H): The Consultant and any subconsultants agree to comply with mandatory standards and policies relating to energy efficiency as contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201 *et seq.*).

(I) Debarment and Suspension (Non-Procurement) – 2 CFR Part 180 (Subpart C), 2 CFR Part 1200, DOT Order 4200.5 DOT Suspension & Debarment Procedures & Ineligibility:

1. By executing this Agreement, the Consultant certifies that neither it nor its principals are presently debarred or suspended by any Federal department or agency from participation in this Agreement.

2. The Consultant, by administering each lower tier subconsultant agreement that exceeds \$25,000 as a "covered transaction", must verify

each lower tier Subconsultant participant of a "covered transaction" under the project is not presently debarred or otherwise disqualified from participation in this federally assisted project. The Consultant will accomplish this by:

A. Checking the System for Award Management at website: <https://www.sam.gov>.

B. Collecting a certification statement similar to the statement in Subsection (20)(I)1.

C. Inserting a clause or condition in the covered transaction with the lower tier Subcontractor.

3. If the Sponsor, MoDOT or the FAA later determines that a lower tier participant failed to disclose to a higher tier that it was excluded or disqualified at the time it entered the covered transaction, the Sponsor, MoDOT or the FAA may pursue any available remedy, including suspension or debarment of the non-compliant participant.

(J) Lobbying and Influencing Federal Employees – 31 U.S.C. § 1352, 2 CFR § 200, Appendix II(J), 49 CFR Part 20, Appendix A:

1. The Consultant certifies by execution of this Agreement, to the best of its knowledge and belief, that:

A. No Federal appropriated funds have been paid or will be paid, by or on behalf of the Consultant, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

B. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the Consultant shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

C. The Consultant shall require that the language of this Subsection (20)(F) be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly.

2. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, United States Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than Ten Thousand Dollars (\$10,000) and not more than One Hundred Thousand Dollars (\$100,000) for each such failure.

(K) Contract Workhours and Safety Standards Act Requirements – 2 CFR § 200 Appendix II (E):

1. Overtime Requirements: No contractor or subcontractor contracting for any part of the Agreement work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic, including watchmen and guards, in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2. Violation; Liability for Unpaid Wages; Liquidated Damages: In the event of any violation of the clause set forth in Subsection (20)(K)1. above, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the Sponsor and/or the United States for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in Subsection (20)(K)1. above, in the sum of Ten Dollars (\$10) for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in Subsection (20)(K)1. above.

3. Withholding for Unpaid Wages and Liquidated Damages: The FAA, MoDOT or the Sponsor shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from any monies payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other Federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in Subsection (20)(K)2. above.

4. Subcontractors: The contractor or subcontractor shall insert in any subcontracts the clauses set forth in this Subsection (20) and also a clause requiring the subcontractor to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in this Subsection (20).

(L) Breach of Contract Terms Sanctions - 2 CFR §200 Appendix II(A): Any violation or breach of the terms of this Agreement on the part of the Consultant or any Subconsultant may result in the suspension or termination of this Agreement or such other action that may be necessary to enforce the rights of the parties of this Agreement. The Sponsor will provide the Consultant written notice that describes the nature of the breach and corrective actions the Consultant must undertake in order to avoid termination of this Agreement. The Sponsor reserves the right to withhold payments to the Consultant until such time the Consultant corrects the breach or the Sponsor elects to terminate this Agreement. The Sponsor's notice will identify a specific date by which the Consultant must correct the breach. The Sponsor may proceed with termination of this Agreement if the Consultant fails to correct the breach by deadline indicated in the Sponsor's notice. The duties and obligations imposed by the Agreement and the rights and remedies available thereunder are in addition to, and not a limitation of, any duties, obligations, rights and remedies otherwise imposed or available by law.

(M) Clean Air and Water Pollution Control – 2 CFR 200 § 200, Appendix II(G): The Consultant agrees:

1. To comply with all applicable standards, orders, and regulations issued pursuant to the Clean Air Act (42 U.S.C. § 740-7671q) and the Federal Water Pollution Control Act, as amended (33 U.S.C. § 1251-1387); and
2. To report any violation to the Sponsor immediately upon discovery. The Sponsor assumes responsibility for notifying the Environmental Protection Agency and the FAA.

(N) Certification of Consultant Regarding Tax Delinquency and Felony Convictions: The Consultant certifies that it is not a corporation that:

1. Has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; or
2. Was convicted of a criminal violation under any Federal law within the preceding twenty-four (24) months.

(21) ACTIONS: No action may be brought by either party hereto concerning any matter, thing, or dispute arising out of or relating to the terms, performance, non-performance, or otherwise of this Agreement except in the Circuit Court of **Camden** County, Missouri. The parties agree that this Agreement is entered into at **Osage Beach**, Missouri and substantial elements of its performance will take place or be delivered at **Kaiser**, Missouri, by reason of which the Consultant consents to venue of any action against it in **Miller** County, Missouri. The Consultant shall cause this provision to be incorporated into all of its agreements with, and to be binding upon, all Subconsultants of the Consultant in the performance of this Agreement.

(22) AUDIT OF RECORDS: For purpose of an audit, the Consultant shall maintain all those records relating to direct costs and expenses incurred under this Agreement, including but not limited to invoices, payrolls, bills, receipts, etc. These records must be available at all reasonable times to the Sponsor, MoDOT, the FAA, and the Comptroller General of the United States or their designees and representatives, at the Consultant's offices, at no charge, during the Agreement period and any extension thereof, and for the three (3) year period following the date of final payment made under this Agreement. If the Sponsor has notice of a potential claim against the Consultant and/or the Sponsor based on the Consultant's services under this Agreement, the Consultant, upon written request of the Sponsor, shall retain and preserve its records until the Sponsor has advised the Consultant in writing that the disputed claim is resolved.

(23) NOTICE TO THE PARTIES: All notices or communications required by this Agreement shall be made in writing and shall be effective upon receipt by the Sponsor or the Consultant at their respective addresses of record. Letters or other documents which are prepared in 8.5 x 11 inch format may be delivered by telefax, provided that an original is received at the same address as that to which that telefax message was sent, within three (3) business days of the telefax transmission. Either party may change its address of record by written notice to the other party.

(A) Notice to the Sponsor: Notices to the Sponsor shall be addressed and delivered to the following Sponsor's representative, who is hereby designated by the Sponsor as its primary authorized representative for administration, interpretation, review, and enforcement of this Agreement and the services of the Consultant hereunder:

NAME AND TITLE OF SPONSOR'S REPRESENTATIVE	Mike Welty, Assistant City Administrator		
SPONSOR'S NAME	City of Osage Beach, Missouri		
SPONSOR'S ADDRESS	1000 City Parkway Osage Beach, MO 65065		
PHONE	573-302-2000 ext. 1011	FAX	573-302-2039
E-MAIL ADDRESS	mwelty@osagebeach.org		

The Sponsor reserves the right to substitute another person for the individual named at any time, and to designate one or more other representatives to have authority to act upon its behalf generally or in limited capacities, as the Sponsor may now or hereafter deem appropriate. Such substitution or designations shall be made by the Sponsor in a written notice to the Consultant.

(B) Notice to the Consultant: Notices to Consultant shall be addressed and delivered to Consultant's representative, as follows:

NAME AND TITLE OF CONSULTANT'S REPRESENTATIVE	Brian Hutsell, P.E.		
CONSULTANT'S NAME	Crawford, Murphy & Tilly, Inc.		
CONSULTANT'S ADDRESS	One Memorial Drive, Suite 500 St. Louis, MO 63102		
PHONE	314-436-5500	FAX	314-436-0723
E-MAIL ADDRESS	bhutsell@cmtengr.com		

The Consultant reserves the right to substitute another person for the individual named at any time, and to designate one or more other representatives to have authority to act upon its behalf generally or in limited capacities, as the Consultant may now or hereafter deem appropriate. Such substitutions or designations shall be made by the Consultant's president or chief executive officer in a written notice to the Sponsor.

(24) LAW OF MISSOURI TO GOVERN: This Agreement shall be construed according to the laws of the State of Missouri. The Consultant shall comply with all local, state, and federal laws and regulations which govern the performance of this Agreement.

(25) CONFIDENTIALITY: The Consultant agrees that the Consultant's services under this Agreement are a confidential matter between the Consultant and the Sponsor. The Consultant shall not disclose any aspect of the Consultant's services under this Agreement to any other person, corporation, governmental entity, or news media, excepting only to Consultant's lawyers, accountants, insurers, and such employees, Subconsultants, and agents as may be necessary to allow them to perform services for the Consultant in the furtherance of this Agreement, without the prior approval of the Sponsor; provided, however, that any confidentiality and non-disclosure requirements set out herein shall not apply to any of the Consultant's services or to any information which (1) is already in the public domain or is already in the Consultant's possession at the time the Consultant performs the services or comes into possession of the information; (2) is received from a third party without any confidentiality obligations; or (3) is required to be disclosed by governmental or judicial order. Any disclosure pursuant to a request to the Sponsor under Chapter 610, RSMo, shall not constitute a breach of this Agreement. The content and extent of any authorized disclosure shall be coordinated fully with and under the direction of the Sponsor, in advance.

(26) SOLE BENEFICIARY: This Agreement is made for the sole benefit of the parties hereto and nothing in this Agreement shall be construed to give any rights or benefits to anyone other than the Sponsor and the Consultant.

(27) SEVERABILITY AND SURVIVAL:

(A) Any provision or part of this Agreement held to be void or unenforceable under any law or regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon the Sponsor and the Consultant.

(B) All express representations, indemnifications, or limitations of liability made or given in this Agreement will survive the completion of all services by the Consultant under this Agreement or the termination of this Agreement for any reason.

(28) PAYMENT BOND: In the event that any subconsultants are used to supply at least fifty thousand dollars (\$50,000) worth of materials and/or labor not within the scope of environmental assessment services or licensed professional services as defined by chapter 327, RSMo, the Consultant shall require any such subconsultants to provide laborers and materialmen with adequate bond security. Payment bonds shall be executed by any such subconsultants with the subconsultant as principal and a surety company authorized to do business in the State of Missouri as surety, and any agent executing the same on behalf of a subconsultant or surety company must attach a current Power of Attorney setting forth sufficient execution authority. Said payment bonds must be acceptable to the Sponsor to cover all materials used, all labor performed, and all insurance premiums necessary to comply with Section 107.170, RSMo, and must be provided to the Sponsor prior to the performance of such subconsultant services under this Agreement.

(29) AMENDMENTS: Any change in this Agreement, whether by modification or supplementation, must be accomplished by a formal contract amendment signed and approved by the duly authorized representative of the Sponsor and the Consultant.

(30) ATTACHMENTS: The following Exhibits and other documents are attached to and made a part of this Agreement:

- (A) Exhibit I: Project Description.
- (B) Exhibit II: Scope of Services.
- (C) Exhibit IIA: Current FAA Advisory Circulars, Standards, Guidance and MoDOT Standards

EXHIBIT I

PROJECT DESCRIPTION

1. Perform topographical design survey.
2. Perform geotechnical investigation.
3. Mill existing Runway 4-22 bituminous surface and construct bituminous overlay.
4. Remark Runway 4-22.
5. Replace Runway 4-22 edge lighting.
6. Construct new electrical vault building meeting the requirements of NEC Article 110.31.
7. Replace L-807 Wind Cone.
8. Install Secondary Wind Cone at each runway end.
9. Overlay hangar access road from the gate location to the hangar pavement.
10. Overlay existing bituminous T-hangar taxilanes.

Exhibit I -2

EXHIBIT II

SCOPE OF SERVICES

The Consultant, in consideration of the payment on the part of the Sponsor, agrees to perform the engineering services enumerated as follows:

This Scope of Services will produce a set of construction documents necessary to complete the project. The Consultant will perform a topographical survey and geotechnical investigation required for project design and produce engineer's design report, construction plans, construction documents/technical specifications, tabulation of construction quantities and engineer's opinion of probable construction costs. The Consultant will assist the Sponsor with the preparation of any addenda during the bidding process and will conduct the prebid meeting. All services will be performed in accordance with all applicable federal, state and local laws, ordinances, regulations and codes, together with good engineering practice and applicable FAA advisory circulars (AC's), standards, guidance and/or agency orders and MoDOT requirements and changes/revisions current at the time of execution of this Agreement including but not limited to those listed on attached EXHIBIT IIA. The improvements that are being designed on the project shall be consistent with a current and approved Airport Layout Plan.

The Consultant shall not proceed with services herein until a notice-to-proceed is received from the Sponsor unless otherwise requested by the Sponsor.

The following is a detailed description of the specific services that are required by this Agreement.

BASIC SERVICES

1. Preliminary

- a. Travel to site/City to perform site inspections and attend scoping meeting with Sponsor.
- b. Formulate project scope of work.
- c. Develop preliminary engineer's opinion of probable construction cost and project budget

2. Design Phase

- a. Field Survey-Design Survey
 - 1) Perform site visit for survey crew to meet with engineer to go over survey control and the scope of work.

- 2) Perform all survey work using previously established survey control points.
 - 3) Survey all features encountered in the field within the project limits including but not limited to the following:
 - a) Edge, centerline and halfway between edge and centerline of taxiway pavements/access roads and edge, centerline, and at least two points between edge and centerline for runway/t-hangar taxilane pavements.
 - b) Ground shots on hard surfaces using a total station.
 - c) Ground shots in turf using a total station or GPS.
 - d) Manholes and inlets including type of manhole (storm, sanitary, electrical, etc.)
 - e) Flow line elevations for each pipe going in or out of a manhole or inlet
 - f) All marked utility locations that will be marked for the pavement coring
 - g) Locations of pavement corings after completion of the coring work
 - 4) Create an electronic 3D drawing of the survey. The drawing should include the following:
 - a) All topographical features that were surveyed including storm sewer pipe locations and associated linework
 - b) Contour lines at 1-foot intervals with elevations assigned to the lines
 - c) Triangles of the surface model used to create the contour lines with elevations assigned to each triangle corner
- b. Geotechnical Investigation
- 1) Existing runway pavement is believed to consist of an asphalt surface over the original concrete pavement. At the approximate locations shown in Attachment 1, cut twenty (20) pavement cores of which ten (10) are to be of just the asphalt and ten (10) are to include the asphalt, underlying concrete, and determination of the aggregate base thickness. The surveyor will survey the coordinates and elevations of each location and provide ground elevations upon completion of the coring.
 - 2) Conduct five (5) pavement cores through the hangar access road pavement and determine the asphalt and aggregate base thickness.
 - (3) Conduct four (4) pavement cores through the T-hangar taxilane

- pavement and determine the asphalt and aggregate base thickness.
- 4) For the runway pavement, conduct five (5) soil borings through full depth core openings at the approximate locations shown in Attachment 1 to a depth of 10 feet or until auger refusal, whichever is shallower and perform sub-surface exploration to determine the top of rock and water table elevation.
 - 5) For the hangar access road pavement, conduct two (2) soil borings through the full depth core openings at the approximate locations shown in Attachment 1 to a depth of 10 feet or until auger refusal, whichever is shallower and perform sub-surface exploration to determine the top of rock and water table elevation.
 - 6) For the T-hangar taxiway pavement, conduct two (2) soil borings through the full depth core openings at the approximate locations shown in Attachment 1 to a depth of 10 feet or until auger refusal, whichever is shallower and perform sub-surface exploration to determine the top of rock and water table elevation.
 - 7) Perform a soil classification for all boring locations (ASTM D 2487).
 - 8) Create a boring log for all boring locations. The boring log should include the following:
 - a) Location
 - b) Date performed
 - c) Type of exploration
 - d) Surface elevation
 - e) Depth of materials
 - f) Sample identification numbers
 - g) Classification
 - h) Water table
 - i) Standard penetration test (SPT)
 - 9) Collect bulk samples from two (2) shallow test pits located next to the runway pavement and one (1) shallow test pit located next to the T-hangar taxiway pavement to be used for laboratory testing including determination of the test pit locations based on the soil types encountered at the boring locations.
 - 10) For each test pit perform the following soil tests:
 - a) Particle-Size Analysis using ASTM D 421 or ASTM D 422 as appropriate.
 - b) Standard Test Methods for Liquid Limit, Plastic Limit, and

- Plasticity Index of Soils (ASTM D 4318)
 - c) Standard Test Methods for Laboratory Compaction Characteristics of Soil Using Standard Effort (ASTM D 698)
 - d) Standard Test Method for CBR (California Bearing Ratio of Laboratory-Compacted Soils) (ASTM D 1883)
- 11) Backfill boring holes and test pits with soil to match the existing grade.
- 12) Provide a written report describing the soils encountered within the project limits and the applicable test results necessary for the design of the project.
- 13) The report shall include (as a minimum):
 - a) Location diagram of coring/boring locations.
 - b) Summary of pavement cores.
 - c) Summary of soil borings.
 - d) A table summarizing the test results.
 - e) Sealed by a professional engineer.
- c. Complete a Runway Safety Area (RSA) Inventory for Non-Certificated Airports and complete an RSA Determination Form. The RSA inventory will include a site visit.
- d. Prepare preliminary design report. As a minimum, the design report will include:
 - Description of work including Discretionary/NPE funding participation limits and BIL funding participation limits.
 - Listing of applicable design standards and Advisory Standards.
 - Design Considerations for airport Operational Safety.
 - Summary of the design computations.
 - Justification for selection of design materials.
 - Identification of modifications to FAA standards along with the reason(s) and justifications for the modifications.
 - Summary of preliminary project budget including an engineer's opinion of probable construction cost.
 - Site Conditions including photographs.
 - Pavement design calculations and proposed typical sections.
 - Geotechnical investigation and laboratory test results.
 - Pavement marking analysis.
 - Airfield lighting analysis including description of improvements to the electrical vault.
 - Summary of recommendations.

- e. Prepare an environmental clearance letter for the Sponsor to sign and submit to satisfy the requirements of NEPA. This will include an FAA review and revisions to the letter as required by FAA.
- f. Submit FAA Form 7460-1 through the FAA OE/AAA website for the electrical vault building, beacon and wind cone, including preparation of required exhibits/sketches. Also submit for any stockpiles and each phasing work area and haul routes as part of the CSPP submittal.
- g. Prepare construction plans in accordance with current MoDOT and FAA standards, and other criteria. The construction plans will generally include the following:
 - 1) Title sheet with project name/description, location map, index of sheets and runway data table.
 - 2) General notes and summary of quantities.
 - 3) General airport layout plan with Construction Safety Phasing Plan.
 - 4) Demolition sheets showing areas to be milled.
 - 5) Typical pavement sections.
 - 6) Runway pavement staking plans to show existing grades, mill to grades, and pave to grades. Engineer will calculate slopes between each mill to and pave to grades to verify runway smoothness requirements and runway slope requirements are being met.
 - 7) Hangar access road staking plans to show existing and proposed grades.
 - 8) T-hangar taxilane staking plans to show existing grades, mill to grades, and pave to grades.
 - 9) Runway and taxiway marking plans and details.
 - 10) T-hangar taxilane marking plans and details.
 - 11) Hangar access road vehicle gate detector loop adjustment details for work associated with pavement overlay.
 - 12) Electrical vault building plans and details.
 - 13) Runway edge lighting plan and details.
 - 14) Wind cone and beacon plan and details.
 - 15) Miscellaneous ancillary details.
- h. Prepare Contract Documents/Technical Specifications in accordance with current MoDOT and FAA standards, and other criteria.
- i. Revise plan quantities and preliminary engineers' opinion of probable construction cost and project budget. Quantities for each work area are to be calculated separately along with costs for each funding type.
- j. Plot to PDF and submit Construction Plans, Contract Documents/Technical Specifications, engineer's opinion of probable construction costs and project budget to the Sponsor and MoDOT for

review and comments. The Sponsor and MoDOT will each be provided with a PDF copy and, if requested, one (1) printed copy of each document.

- k. Perform field review of plans to verify existing conditions.
- l. Complete internal QA/QC review of Construction Plans and Contract Documents/Technical Specifications.
- m. Finalize Construction Plans and Contract Documents/Technical Specifications with consideration of preliminary review comments from the Sponsor, MoDOT and internal reviews.
- n. Submit a final, sealed/signed copy, to the Sponsor, MoDOT and the FAA (one copy each) of the following documents:
 - 1) Final Design Report
 - 2) Construction Plans
 - 3) Contract Documents/Technical Specifications
 - 4) Engineer's Opinion of Probable Construction Cost and Project Budget
- o. Project Management
 - 1) Coordination of project team member assignments and internal design meetings
 - 2) Schedule and budget monitoring
 - 3) Review of invoices and preparation of monthly status reports
 - 4) General project coordination with MoDOT and Sponsor
 - 5) Preparation of final DBE payments for use in annual reporting

3. Bidding Phase

- a. Assist the Sponsor with advertisement for bids and send "Notice to Bidders" to prospective contractors. (Sponsor shall place advertisements in appropriate media.)
- b. Print and distribute Construction Plans and Contract Documents/Technical Specifications to plan holding houses and prospective Bidders.
- c. Attend and conduct the pre-bid meeting and record minutes.
- d. Answer questions, clarify points, and issue addenda as necessary pertaining to the Construction Plans and Contract Documents/Technical Specifications during the bidding phase.
- e. Assist with the bid opening (Do not attend).

- f. Tabulate and analyze bid results, review contractor's qualifications, and make recommendation of contract award to Sponsor.

CONSTRUCTION SERVICES

These services can be added by Supplemental Agreement per Section (17) of this Agreement.

SERVICES PROVIDED BY THE SPONSOR

The Sponsor, as a part of this Agreement, shall provide the following:

1. Assist the Consultant in arranging to enter upon public and private property as required for the Consultant to perform his services.
2. Obtain approvals and permits from all governmental entities having jurisdiction over the project and such approvals and consents from others as may be necessary for completion of the project.
3. Prompt written notice to the Consultant whenever the Sponsor observes or knows of any development that affects the scope or timing of the Consultant's services.
4. One (1) copy of existing plans, standard drawings, bid item numbers, reports or other data the Sponsor may have on file with regard to this project.
5. Pay all publishing costs for advertisements of notices, public hearings, request for proposals and other similar items. The Sponsor shall pay for all permits and licenses that may be required by local, state or federal authorities, and shall secure the necessary land easements and/or rights-of-way required for the project.
6. Issue Notice to Airmen (NOTAM's) through the applicable FAA Flight Service Station.
7. Disadvantaged business enterprise (DBE) goals for the project based upon proposed bid items, quantities and opinions of construction costs.
8. Guidance for assembling bid package to meet Sponsor's bid letting requirements.
9. Designate contact person (see Section (23)(A)).

**Re: Proposal for Subsurface Exploration and
Geotechnical Engineering Evaluation
Lee C. Fine Memorial Airport – Overlay Projects
Brumley, Missouri
TSi Proposal No: SLM24001.00**

Dear Mr. Garkie:

TSi Geotechnical, Inc. (TSi), an **M/W/DBE** firm, is pleased to submit this proposal to Crawford, Murphy, & Tilly (CMT) to perform a subsurface exploration and geotechnical data report and engineering evaluation for use in the Lee C. Fine Memorial Airport – Overlay Projects located in Cape Girardeau, MO.

1.0 PROJECT UNDERSTANDING

We understand the proposed project consists of the evaluation of the existing subgrade and pavement sections to determine design for the mill and overlays of Runway 4-22, overlay of hanger access road, overlay of T-hanger taxilanes, and the replacement of runway 4-22 edge lighting. It is assumed that this project will follow geotechnical guidelines in FAA's 150/5320-6F Chapter 2 for aircrafts weighing less than 60,000 pounds.

2.0 SCOPE OF SERVICES

Based on the proposed project, the geotechnical scope of services for this investigation will include drilling a total of Eight (8) borings w/pavement cores. The borings will be taken down to 10-feet or auger refusal. Ten (10) standalone full depth pavement cores and ten (10) standalone asphalt overlay pavement cores. And three (3) companion borings, to obtain samples for Proctors/CBR's.

The Standard Penetration Tests (SPTs) or Shelby Tube samples will be obtained at 2.5-foot intervals for the upper 10-feet. Where possible, delayed water level readings will be taken in the borings prior to backfilling the hole.

The field explorations will be conducted under the continuous field supervision of one of TSi's geotechnical specialist. It is preferable that the boring locations be located in the field by the project surveyor, prior to the mobilization of the drill rig. If a boring must be offset due to a utility conflict or issues of access, TSi will note the offset distance and approximate elevation change on the boring logs. If TSi locates the borings, a labeled stake and/or paint marking will be left at each boring location for the project surveyor to locate and determine ground surface elevations after drilling is completed.

LABORATORY TESTING

A laboratory test program will be performed on samples recovered from the borings to estimate pertinent engineering properties of the soil overburden and soil properties for design. Laboratory tests may include the following:

- Visual descriptions by color and texture of each sample;
- Natural moisture content of soil samples;
- Atterberg limits on selected cohesive samples;
- Modified Proctor Tests;
- California Bearing Ratio (BR's);
- Hydrometers;
- Pavement core photos; and
- Unconfined Compressive Strength tests on selected cohesive samples.

3.0 GEOTECHNICAL REPORT

TSi will prepare a geotechnical study report that will contain the Logs of Boring and laboratory test results for the project, a description of the field exploration and laboratory test procedures, and a discussion of the site geology and the subsurface conditions encountered.

Based on our understanding of the project and the scope of services proposed, the geotechnical study report will address the following considerations:

- Subsurface conditions at the boring locations;
- Laboratory test results;
- Influence of groundwater on the project;
- Soil strength parameters;
- Soil remediation recommendations;
- Locations and descriptions of any existing fill or potentially deleterious materials encountered at the site that may interfere with construction progress or structure performance;
- Pavement Design considerations;
- Construction considerations; and
- Recommendations for fill and backfill materials, placement, and compaction.

4.0 ASSUMPTIONS/CLARIFICATIONS

In preparing this proposal, TSi has made the following assumptions:

1. TSi assumes that the CLIENT will have permission to access sites.
2. TSi assumes that the client will handle all coordination with the Airport (including any runway/taxiway closures, and barricade needs).
3. TSi assumes that the CLIENT will provide escort for all TSi activities onsite (if required).
4. TSi assumes that the client will mark borings in the field, or will be alongside TSi while marking borings.
5. TSi understands that the work will be performed during normal daylight working hours. If the work does require night drilling, schedules may be delayed and fees will increase.
6. TSi will contact One-Call locating services regarding member utilities. A 72-hour time period is required by One-Call to clear utilities. We must be informed of the location of any private underground utility lines (such as irrigation or exterior lighting) at the site by the owner prior to starting our field work.
7. The borings will be backfilled with auger cuttings and pavements patched in kind. TSi is not responsible for settlement of soil cuttings over time in the borings.
8. Estimate was built using the assumption that the existing pavement is between 10-12" (concrete) and up to 4" (asphalt).
9. TSi's drill crews are not union-affiliated, and the cost for a union operator and laborer are not included in this proposal fee.
10. TSi has assumed that the site is free of environmental concerns. If suspect odors or other evidence of contamination or hazardous materials are encountered, then drilling will be terminated per OSHA regulations, and suspended until appropriate health and safety protocol are developed by a qualified environmental specialist retained by CLIENT. The costs for any delays, for environmental consultation, or for implementation of the consultant's recommendations are not within the proposed scope or fees.
11. Unless requested in writing by the CLIENT, the soil and rock samples obtained during the subject geotechnical exploration will be disposed of by our laboratory approximately ninety (90) days after the issuance of the Geotechnical Report. Additional fees will apply if we are requested to store the samples beyond the ninety (90) day period.

5.0 ESTIMATED COST

TSi's services for the project will be provided on a Lump Sum basis. Based on the scope of services provided above and assuming no unanticipated subsurface conditions are encountered, the fee per site will be: \$43,277.00.

If site conditions are encountered during the explorations that warrant additional work, we will notify you and discuss the necessary scope modification. However, the fees will not be exceeded without your authorization.

6.0 SCHEDULE OF WORK PERFORMANCE

Field is tentatively scheduled to be performed by the 2nd week of February pending written notice to proceed, weather permitting. The field exploration will take approximately 3-4 business days to complete. In summary, our report should be complete no later than mid-march 2024. Design information can be provided upon request prior to the completion of the report, if this schedule is not acceptable.

7.0 PROJECT LIMITATIONS

TSi will perform only those services outlined in this proposal. CMT and TSi may subsequently agree in writing to provide additional services under this agreement for additional compensation. Services provided by TSi will be consistent with the engineering standards prevailing at the time and in the area that the work is performed. No other warranty, expressed or implied, is intended.

This fee estimate has been prepared using TSi's standard fee schedule and the information provided by the Client. TSi reserves the right to revise this proposal and fee estimate, at any time, if any flow down and/or contract provisions are required by Client or Owner to conform with any local, state or federal wage act requirements, including but not limited to the Davis-Bacon Act, as Amended, the McNamara-O'Hara Service Contract Act, or others, the required use of union labor, or for any required quality control and quality assurance plans, safety, security, vehicle, drug and alcohol testing, or any third party payment fees, or other requirements not specified in the Client's request for proposal or not defined in TSi's scope of services.

If this proposal is acceptable to you, please issue us a subcontract to us for the work, in accordance with the scope and fee presented in this proposal. We appreciate the opportunity to present this proposal to you for your consideration. Please feel free to call us if you have any questions or if you wish to discuss it in greater detail.

Sincerely,

Community Event Support 10-21-754255 has a FY2024 budget of \$13,000. Per City Code 110.300, the community event support funds shall be spent for the purpose of

supporting event activities that bring visitors, trade, and business into the City. Applications are submitted to the City Administrator and shall be approved by the Board of Aldermen based on the applicant's needs.

Enclosed is the *Lake of the Ozarks Bikefest Event Support Application* with supplemental information submitted by the applicant, the Lake of the Ozarks Convention & Visitor Bureau. The request is for \$3,000. The event is scheduled to be held on September 11 - 15, 2024.

The application is presented for Board's consideration. This is the first and only application received to date for FY2024. This event has been supported with the City's event support funding for seven years, making this the eighth application request.

AN ORDINANCE OF THE CITY OF OSAGE BEACH, MISSOURI, AUTHORIZING THE EXPENDITURE OF FUNDS FOR PROMOTIONAL EFFORTS TO SUPPORT THE LAKE OF THE OZARKS BIKEFEST 2024 EVENT SUPPORT REQUEST IN AN AMOUNT NOT TO EXCEED \$3,000.00

WHEREAS, the Board of Aldermen find that the Lake of the Ozarks Bikefest is a yearly promotion of the Lake area and the event creates clear and direct benefits to the businesses and citizens of Osage Beach in terms on increased tourism, sales and publicity for the City and the Lake area and the board wishes to support this public event which promotes out community:

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE CITY OF OSAGE BEACH, AS FOLLOWS:

Section 1. That the expenditure of funds for advertising in the amount of Three Thousand dollars (\$3,000.00) is hereby authorized to be paid to the Lake of the Ozarks Bikefest to be held September 11-15, 2024.

Section 2. The City Administrator is hereby authorized to take such further actions as are necessary to carry out the intent of this Ordinance.

Section 3. Severability The chapters, sections, paragraphs, sentences, clauses and phrases of this ordinance are severable, and if any phrase, clause, sentence, paragraph or section of this ordinance shall be declared unconstitutional or otherwise invalid by the valid judgment or degree of any Court of any competent jurisdiction, such unconstitutionality or invalidity shall not affect any of the remaining phrases, clauses, sentences, paragraphs, or sections of this ordinance since the same would have been enacted by the Board of Aldermen without the incorporation in this ordinance of any such unconstitutional or invalid phrase, clause, sentence, paragraph or section.

Section 4. Repeal of Ordinances not to affect liabilities, etc.

Whenever any part of this ordinance shall be repealed or modified, either expressly or by implication, by a subsequent ordinance, that part of the ordinance thus repealed or modified shall continue in force until the subsequent ordinance repealing or modifying the ordinance shall go into effect unless therein otherwise expressly provided; but no suit, prosecution, proceeding, right, fine or penalty instituted, created, given, secured or accrued under this ordinance previous to its repeal shall not be affected, released or discharged but may be prosecuted, enjoined and recovered as fully as if this ordinance or provisions had continued in force, unless it shall be therein otherwise expressly provided.

Section 5. This Ordinance shall take effect and be in full force from and after its passage by the Board of Aldermen and approval by the Mayor.

Agenda Item Summary

Date of Meeting: March 21, 2024
Originator: Zak Wilber, Public Works Operations Manager
Presenter: Zak Wilber, Public Works Operations Manager

Agenda Item:

Motion to approve the purchase of three control panels from Municipal Equipment for an amount not to exceed \$196,146.40 + shipping.

Requested Action:

Motion to Approve

Ordinance Referenced for Action:

Board of Aldermen approval required for purchases over \$25,001 per Municipal Code Chapter 135; Article II: Purchasing, Procurement, Transfers, and Sales.

Deadline for Action:

None

Budgeted Item:

Yes

Budget Line Information (if applicable):

Budget Line Item/Title: 35-00-773114 Lift Station Improvements

FY2024 Budgeted Amount: \$2,112,620

FY2024 Expenditures to Date (03/11/24): (\$ 122,697)

FY2024 Available: \$1,989,923

FY2024 Requested Amount: \$196,146.40 +
Shipping

Department Comments and Recommendation:

The City is purchasing these three panels from a sole source distributor. We purchase the vast majority of our panels from Municipal Equipment and feel comfortable with this vendor. The three panels are part of the rehab process for lift station 24-1, 62-3, and Rockway. Stations 24-1 and 62-3 panels are budgeted under 3-Phase Panel Improvements (10) within Lift Station Improvements. The Rockway panel is budgeted under Lift Station Control Panel Replacement - Rockway within Lift Station Improvements. The three panels will cost the City 196,146.40 + shipping. I recommend approval.

City Attorney Comments:

Not Applicable

City Administrator Comments:

I concur with the department's recommendation.

Incoming Power: 480 VAC, 3-Phase, 3 wire, (Panel rated for max 5 KA SCCR)

Panel to Control:

- A) (2) Wastewater pumps, 480 VAC, 3-Phase motors via solid state starters/with backup FVNR across-the-line contactor
- B) (1) Mixer air pump/compressor, fractional HP, < 10 FLA, 120 VAC, 1-Phase motor, via FVNR across-the-line contactor

Enclosure: NEMA 4X wall-mount enclosure

- Constructed of 304 stainless steel (brushed #4 finish)
- With painted steel subpanel
- With painted steel inner door
- Approximate dimensions: 60" H x 36 W x 16" D

Includes:

- A) Control panel to be manufactured consistent with lift station CL-01, attached drawing ECC #400107
- B) Main incoming power distribution block
- C) SPD (Surge Protection Device)
- D) Phase monitor with primary 1 amp fuse protection
- E) Power monitor (Shark 50) with display mounted through inner door (Voltage display provided only. Current display can be added at additional cost).
- F) Circuit breaker short circuit protection for each pump
- G) 5 KVA transformer and 120 vac circuit breakers to accommodate control panel loads
- H) Interior service light, GFI duplex receptacle, and condensation heater

**Challenged to Excel
Recognized for Achievement**

- I) 120 vac power filter
- J) Process display/controller for wetwell level primary process control
- K) Intrinsically safe barrier(s) for level sensor connection (to accommodate 4 float connections and 1 submersible transmitter connections)
- L) Process Control Mode selector switch (Float/Process Controller/Reset) and pilot lights, with auto failover to float mode
- M) HOA switches, elapsed time meters, pump run/starter fault/seal fault/thermal fault/high level pilot lights mounted through inner door
- N) Control circuit for air power mixer consisting of 120 vac/15 amp circuit breaker, 24 hr. timeclock, contactor and external GFI receptacle with in-use cover.
- O) External alarm light
- P) Dry contacts provided (for remote monitoring by others): phase fault, SPD fault, high level (process controller), high level (float), pump run indication, starter fault/overload trip, thermal fault, seal fault
- Q) ECC installation of ABS/Sulzer pump protection unit/display (thermal/leakage/bearing/vibration) in panel (equipment provided by Municipal Equipment Company)
- R) ECC to provide and install battery bracket and provide installation of telemetry unit (High Tide) in control panel, wired to monitored monitored/status points (High Tide unit, battery, and power/communications peripherals provided by Municipal Equipment Company)

Includes:

A) Transmitter w/ 60' cable

Designation:

A) Wetwell Level (1 per each station)

Notes:

- A) Price does not include equipment installation or conduit, wire, pipe tap, corp stop, process connection. All equipment is provided for installation by others, unless otherwise indicated in this section.
- B) Price does not include junction box, mounting strut, water tight cord connector(s), equipment to hang/secure transducer (such as ceramic/metal rod, stainless steel bracket/hook assembly, stainless steel cable/clamps/strain relief devices/mounting hardware), seal fittings, conduit, wire.
- C) Where required, additional cable on level transducer may be ordered at an additional charge of \$2.00 per foot. Transducer cable to be terminated at control panel or junction box.
- D) Price does not include additional twisted/shielded cable between junction box and control panel.
- E) Price does not include stilling well (~ 4" - 6" diameter PVC pipe w/ 1" holes drilled every 12", set ~6" off bottom of wetwell, if req'd).

2 Schedule:

- 1. Submittals could be provided within 4 - 6 weeks after receipt of purchase order by ECC.
- 2. Estimated equipment delivery 8 – 10 weeks after receipt of approved submittal by ECC. These terms subject to change based on market volatility and delivery of parts by ECC suppliers.
- 3. Please contact estimator BEFORE or AT TIME OF QUOTE if other arrangements are required.

3 Terms/Notes/Exclusions:

- 1. System Warranty
 - A. System warranty against defects in material and workmanship is the earlier of 18 months after the date of shipment or 1 year after the date of installation.
 - B. Warranty excludes surge/transient damage.
 - C. Warranty includes parts only for ECC-provided equipment included in this scope of work.
 - D. ECC is not liable for loss, damage, or expense directly or indirectly from the use of its products or services, or from any other cause.
- 2. Price does not include any applicable taxes or fees. Tax exempt certificate must accompany purchase order, or sales tax will be charged.
- 3. Price valid for 60 days.
- 4. Payment Terms
 - A. Net 30 days with 1 ½% per month add.
 - B. 100% of each invoice is due within 30 days of invoice date.
 - C. Retainage of any invoiced amount is unacceptable unless specifically agreed to in writing by ECC at the time of order, and shall in no case exceed a period of 90 days.
 - D. If payments are not timely received by ECC, and this account is turned over to an attorney for collections, Customer agrees to pay all reasonable costs and attorney fees incurred in collection of the past due amounts.
 - E. Payment as the project progresses is expected.
 - F. Back charges are not accepted by ECC unless prior written authorization is obtained from ECC.

5. Prices quoted are for ECC to be a supplier, not a subcontractor or general contractor. Additional fees may be charged if ECC is required to be a subcontractor or general contractor; or if ECC is required to provide insurance beyond ECC standard for this project.
6. Price does not include bonding.
7. Freight
 - A. **Price does not include freight.** If shipped by ECC, freight is FOB Factory, pre-paid and added to invoice. Equipment may also be picked up or shipped by customer.
 - B. Price does not include equipment unloading/setting/proper storage.
8. Price does not include specialized pump motor stator over temperature relay/seal leakage-monitoring device for protection of each submersible pump motor. If specialized relays/sensors are required by the pump manufacturer, the units shall be as specified and provided by the pump manufacturer, to assure that the pump and motor warranty is not compromised. Wiring diagrams for the units shall be provided by the pump supplier to the systems integrator (ECC) for submittal purposes. The units shall be provided by the contractor/pump supplier to the systems integrator prior to panel construction, who shall install the units in the control panel. The contractor/pump supplier shall provide start-up/documentation/training services as required for this equipment.
9. Price only includes items described in above scope of work. Items not specifically described in above scope, but which may be required, are assumed to be provided by others, and may result in additional cost to this contract if ECC is to provide. **Price does not include the following, unless specifically mentioned in the scope:**
 - A. Spare parts
 - B. Equipment/mounting brackets/hardware/services/installation.
 - C. Performance/Payment bond.
 - D. Process instrumentation (air, water, etc.) tubing, connections, or pipe taps external to control panel, heat tape or above-grade freeze protection.
 - E. Level/Pressure/Flow/Temperature/Chemical sensors/gauges/switches.
 - F. Cord connectors/support brackets/hooks/strain relief devices/mounting hardware, seal fittings for any equipment, not limited to pump cord/floats/level sensors.
 - G. Telephone line/internet service connection or coordination.
 - H. Any utility charges, inspection fees, or permits.
 - I. Conduit/wire runs.
 - J. Termination of wiring.
 - K. Incoming utility service transformer, electric service meter/disconnect/CT-PT cabinet/generator/transfer switch/junction boxes, and associated conduit/strut/wiring/installation, etc.
 - L. Pumps/motors/junction boxes/mechanical piping/valves/actuators/solenoids or installation thereof.
 - M. Hoisting for pumps/mechanical piping/equipment unloading/setting.
 - N. Demolition/removal of existing equipment.
 - O. Equipment racks or concrete pole bases.
 - P. Excavation/boring/trenching/backfill, asphalt/concrete/rebar/housekeeping pad work, core drilling/cutting/grouting/firestopping of holes in vaults/wetwells/concrete/masonry structures for conduit/piping or other equipment, welding.
 - Q. Electrical service/temporary electric service.
 - R. Locks of any type.
 - S. Back-up/bypass pumping/operation of station(s) (such as during installation/start-up).
 - T. Painting or coatings of any kind.
 - U. Chemicals of any type.
 - V. Drawings of any kind (conduit/wire layout, loop drawings, etc.), other than control panel drawings for equipment provided above.
 - W. Nameplates/labelling for equipment provided by others.
 - X. Studies/reports of any kind (coordination/short circuit/protection device/arc flash/harmonic analysis, other than those specifically detailed above.

- Y. Video documentation, testing, training, reports.
 Z. Any required anchorage/seismic design/calculations/structural engineer seal. (ECC will provide electrical gear manufacturer's standard anchoring/installation instructional data sheets.)
10. **Price does not include start-up/on-site services.** This service, if required, is at additional cost to the above scope of work per ECC's Service Contract schedule of prices – please contact ECC to discuss.
11. Cancellation of purchase order after submittals have been prepared will result in cancellation fee of 25% of order.

Re: Pump Control Panels

ECC Quote #: 230731FVC01

Dear Mr. Brandt,

Per your request, Electric Controls Company, Inc. is pleased to provide the following scope of work for your consideration:

1 Equipment/Services Provided by Electric Controls Company

(3) Control Panel

Incoming Power: 480 VAC, 3-Phase, 3 wire, (Panel rated for max 5 KA SCCR)

Panel to Control:

- A) (2) Wastewater pumps, 480 VAC, 3-Phase motors via solid state starters/with backup FVNR across-the-line contactor
- B) (1) Mixer air pump/compressor, fractional HP, < 10 FLA, 120 VAC, 1-Phase motor, via FVNR across-the-line contactor

Enclosure: NEMA 4X wall-mount enclosure

- Constructed of 304 stainless steel (brushed #4 finish)
- With painted steel subpanel
- With painted steel inner door
- Approximate dimensions: 60" H x 36 W x 16" D

Includes:

- A) Control panel to be manufactured consistent with lift station CL-01, attached drawing ECC #400107
- B) Main incoming power distribution block
- C) SPD (Surge Protection Device)
- D) Phase monitor with primary 1 amp fuse protection
- E) Power monitor (Shark 50) with display mounted through inner door (Voltage display provided only. Current display can be added at additional cost).
- F) Circuit breaker short circuit protection for each pump
- G) 5 KVA transformer and 120 vac circuit breakers to accommodate control panel loads
- H) Interior service light, GFI duplex receptacle, and condensation heater

**Challenged to Excel
Recognized for Achievement**

- I) 120 vac power filter
- J) Process display/controller for wetwell level primary process control
- K) Intrinsically safe barrier(s) for level sensor connection (to accommodate 4 float connections and 1 submersible transmitter connections)
- L) Process Control Mode selector switch (Float/Process Controller/Reset) and pilot lights, with auto failover to float mode
- M) HOA switches, elapsed time meters, pump run/starter fault/seal fault/thermal fault/high level pilot lights mounted through inner door
- N) Control circuit for air power mixer consisting of 120 vac/15 amp circuit breaker, 24 hr. timeclock, contactor and external GFI receptacle with in-use cover.
- O) External alarm light
- P) Dry contacts provided (for remote monitoring by others): phase fault, SPD fault, high level (process controller), high level (float), pump run indication, starter fault/overload trip, thermal fault, seal fault
- Q) ECC installation of ABS/Sulzer pump protection unit/display (thermal/leakage/bearing/vibration) in panel (equipment provided by Municipal Equipment Company)
- R) ECC to provide and install battery bracket and provide installation of telemetry unit (High Tide) in control panel, wired to monitored monitored/status points (High Tide unit, battery, and power/communications peripherals provided by Municipal Equipment Company)
- S) Engineering Services: Panel design, functional testing at ECC

Designation:

- A) Lazy Daze Lift Station #62-2 (28 HP, 35 FLA/40.25 SFA @ 1.15 Service Factor)
- B) Lazy Daze Lift Station #62-3 (25 HP, 28 FLA/32.2 SFA @ 1.15 Service Factor)
- C) Osage Road Lift Station #24-1 (20 HP, 25 FLA (28.75 SFA @ 1.15 Service Factor)

Notes:

- A) Price does not include installation. Control panel section provided for installation/wiring on project site by others.
- B) Price does not include ABS/Sulzer specialized pump protection unit/display (thermal/leakage/bearing/vibration) or ancillary equipment (such as current/voltage sensors/CT's/PT's/communication cables, intrinsically safe barriers for seal/thermal/bearing sensors), or equipment configuration/programming/set-up/start-up. Pump protection units/equipment to be provided by Municipal Equipment for ECC to install in control panel. Other ancillary equipment described above to be provided by Municipal Equipment for others to install in or external to ECC control panel.
- C) Price does not include mix/flush equipment (valve, mixer, compressor, etc.). This equipment to be provided by others, and be located external to control panel.
- D) Price does not include High Tide telemetry unit or battery. All components and communications/power peripherals for this unit to be provided to ECC by Municipal Equipment Company for ECC installation in the control panel. All telemetry equipment configuration/programming/set-up/start-up to be provided by Municipal Equipment Company.

- (3) Submersible Level Transmitter
Manufacturer: Keller

Includes:

A) Transmitter w/ 60' cable

Designation:

A) Wetwell Level (1 per each station)

Notes:

- A) Price does not include equipment installation or conduit, wire, pipe tap, corp stop, process connection. All equipment is provided for installation by others, unless otherwise indicated in this section.
- B) Price does not include junction box, mounting strut, water tight cord connector(s), equipment to hang/secure transducer (such as ceramic/metal rod, stainless steel bracket/hook assembly, stainless steel cable/clamps/strain relief devices/mounting hardware), seal fittings, conduit, wire.
- C) Where required, additional cable on level transducer may be ordered at an additional charge of \$2.00 per foot. Transducer cable to be terminated at control panel or junction box.
- D) Price does not include additional twisted/shielded cable between junction box and control panel.
- E) Price does not include stilling well (~ 4" - 6" diameter PVC pipe w/ 1" holes drilled every 12", set ~6" off bottom of wetwell, if req'd).

2 Schedule:

- 1. Submittals could be provided within 4 - 6 weeks after receipt of purchase order by ECC.
- 2. Estimated equipment delivery 8 – 10 weeks after receipt of approved submittal by ECC. These terms subject to change based on market volatility and delivery of parts by ECC suppliers.
- 3. Please contact estimator BEFORE or AT TIME OF QUOTE if other arrangements are required.

3 Terms/Notes/Exclusions:

- 1. System Warranty
 - A. System warranty against defects in material and workmanship is the earlier of 18 months after the date of shipment or 1 year after the date of installation.
 - B. Warranty excludes surge/transient damage.
 - C. Warranty includes parts only for ECC-provided equipment included in this scope of work.
 - D. ECC is not liable for loss, damage, or expense directly or indirectly from the use of its products or services, or from any other cause.
- 2. Price does not include any applicable taxes or fees. Tax exempt certificate must accompany purchase order, or sales tax will be charged.
- 3. Price valid for 60 days.
- 4. Payment Terms
 - A. Net 30 days with 1 ½% per month add.
 - B. 100% of each invoice is due within 30 days of invoice date.
 - C. Retainage of any invoiced amount is unacceptable unless specifically agreed to in writing by ECC at the time of order, and shall in no case exceed a period of 90 days.
 - D. If payments are not timely received by ECC, and this account is turned over to an attorney for collections, Customer agrees to pay all reasonable costs and attorney fees incurred in collection of the past due amounts.
 - E. Payment as the project progresses is expected.
 - F. Back charges are not accepted by ECC unless prior written authorization is obtained from ECC.

5. Prices quoted are for ECC to be a supplier, not a subcontractor or general contractor. Additional fees may be charged if ECC is required to be a subcontractor or general contractor; or if ECC is required to provide insurance beyond ECC standard for this project.
6. Price does not include bonding.
7. Freight
 - A. **Price does not include freight.** If shipped by ECC, freight is FOB Factory, pre-paid and added to invoice. Equipment may also be picked up or shipped by customer.
 - B. Price does not include equipment unloading/setting/proper storage.
8. Price does not include specialized pump motor stator over temperature relay/seal leakage-monitoring device for protection of each submersible pump motor. If specialized relays/sensors are required by the pump manufacturer, the units shall be as specified and provided by the pump manufacturer, to assure that the pump and motor warranty is not compromised. Wiring diagrams for the units shall be provided by the pump supplier to the systems integrator (ECC) for submittal purposes. The units shall be provided by the contractor/pump supplier to the systems integrator prior to panel construction, who shall install the units in the control panel. The contractor/pump supplier shall provide start-up/documentation/training services as required for this equipment.
9. Price only includes items described in above scope of work. Items not specifically described in above scope, but which may be required, are assumed to be provided by others, and may result in additional cost to this contract if ECC is to provide. **Price does not include the following, unless specifically mentioned in the scope:**
 - A. Spare parts
 - B. Equipment/mounting brackets/hardware/services/installation.
 - C. Performance/Payment bond.
 - D. Process instrumentation (air, water, etc.) tubing, connections, or pipe taps external to control panel, heat tape or above-grade freeze protection.
 - E. Level/Pressure/Flow/Temperature/Chemical sensors/gauges/switches.
 - F. Cord connectors/support brackets/hooks/strain relief devices/mounting hardware, seal fittings for any equipment, not limited to pump cord/floats/level sensors.
 - G. Telephone line/internet service connection or coordination.
 - H. Any utility charges, inspection fees, or permits.
 - I. Conduit/wire runs.
 - J. Termination of wiring.
 - K. Incoming utility service transformer, electric service meter/disconnect/CT-PT cabinet/generator/transfer switch/junction boxes, and associated conduit/strut/wiring/installation, etc.
 - L. Pumps/motors/junction boxes/mechanical piping/valves/actuators/solenoids or installation thereof.
 - M. Hoisting for pumps/mechanical piping/equipment unloading/setting.
 - N. Demolition/removal of existing equipment.
 - O. Equipment racks or concrete pole bases.
 - P. Excavation/boring/trenching/backfill, asphalt/concrete/rebar/housekeeping pad work, core drilling/cutting/grouting/firestopping of holes in vaults/wetwells/concrete/masonry structures for conduit/piping or other equipment, welding.
 - Q. Electrical service/temporary electric service.
 - R. Locks of any type.
 - S. Back-up/bypass pumping/operation of station(s) (such as during installation/start-up).
 - T. Painting or coatings of any kind.
 - U. Chemicals of any type.
 - V. Drawings of any kind (conduit/wire layout, loop drawings, etc.), other than control panel drawings for equipment provided above.
 - W. Nameplates/labelling for equipment provided by others.
 - X. Studies/reports of any kind (coordination/short circuit/protection device/arc flash/harmonic analysis, other than those specifically detailed above).

- Y. Video documentation, testing, training, reports.
 Z. Any required anchorage/seismic design/calculations/structural engineer seal. (ECC will provide electrical gear manufacturer's standard anchoring/installation instructional data sheets.)
10. **Price does not include start-up/on-site services.** This service, if required, is at additional cost to the above scope of work per ECC's Service Contract schedule of prices – please contact ECC to discuss.
11. Cancellation of purchase order after submittals have been prepared will result in cancellation fee of 25% of order.

Sincerely

Franklin V. Chott
 Electric Controls Company, Inc.

Market Volatility Note: Due to the volatility of the commodities market, we reserve the right to adjust our pricing up or down and delivery times longer or shorter, based on the current market conditions that would affect this project, such as steel, conduit (PVC/steel/aluminum) and wire (copper/aluminum), as well as delivery times from our suppliers.

5 **Purchasing:**

To purchase the above scope of work:

1. Please enter information below OR send purchase order w/ same information, and return to ECC.
2. Include copy of State Tax Exempt certificate with returned documents.
3. **Submittal Documentation:** ECC will provide submittal documentation (control panel drawing and bill of materials) for customer approval prior to ordering equipment. Please indicate if catalog cut sheets are required as part of the submittal documentation. **If no selection is indicated, submittal documentation will not include catalog cut sheets.**
 - ☐ Yes: Catalog cut sheets for all items except control components are required as part of submittal documentation.

RE: Rockway Control Panel

Dear Nathan,

Following are prices for the requested equipment for the referenced project:

One (1) Triplex 70 horsepower, 460 volt 3 phase control panel with solid state motor starters with bypass contactors, transducer control with back up float system, Shark unit power monitor and in stainless steel enclosure PER THE ATTACHED ECC SCOPE

PRICE.....\$96,893.20

I look forward to hearing from you. Please let me know if there are any questions or comments concerning this item.

Sincerely,

Derrick Brandt

General Notes and Comments:

- The prices shown above include associated freight costs
- The prices are firm for 30 days from the date of the proposal
- Delivery is 8-10 weeks from submittal approval and notice to proceed
- Submittals will be provided 4-6 weeks after receipt of order
- Payment terms for this order would be: **NET 30 Days**
- Visa and MasterCard are accepted with a 4.5% processing fee
- The prices shown above DO NOT include installation
- The prices shown above include start up service
- The prices shown above do not include applicable taxes.
- Municipal Equipment Company **shall not, in any event, be liable** for indirect, special, consequential, or liquidated damages or penalties of any kind for any reason.
- Note that the pricing validity is for 30 days. Freight costs, material costs, and **delivery time frames are extremely volatile** at this time.

Re: MCC Replacement

ECC Quote #: 231027FVC01

Dear Mr. Brandt,

Per your request, Electric Controls Company, Inc. is pleased to provide the following scope of work for your consideration.

1 Current System

ECC provided the existing motor control center (MCC) and control system in 2001/2002. The current MCC consists of a main incoming power section with 400 amp automatic transfer switch (ATS). The MCC also includes a surge protection device (SPD), three (3) 105 amp-rated solid state motor starters powering the existing pumps, a 10 KVA transformer, 100 amp/18 ckt. loadcenter, and an integral pump control panel.

The existing telemetry unit is in a separate panel wired to the existing equipment. The existing telemetry equipment at this site communicates information (pump run indication) used at the Sands Lift Station.

2 Proposed System

The proposed system would consist of a new electrical rack with new utility disconnect(s), meterbase, and ATS (all to be provided and installed by others)

ECC would provide a new stainless steel pump control panel with motor starters and controls that would accommodate the same functionality as the existing controls, but would be of the same "flavor" as many recent pump control panels provided by ECC at other Osage Beach lift stations (similar to lift station CL-01).

The existing telemetry equipment at this site would remain in a separate enclosure, and would be reconnected to current inputs/outputs as it is currently. It is expected that this unit will not need to be reprogrammed.

3 Equipment/Services Provided by Electric Controls Company

**Challenged to Excel
Recognized for Achievement**

(1) Control Panel

Incoming Power: ~316 A, 480 VAC, 3-Phase, 3 wire, (Panel rated for max 5, KA SCCR)

Panel to Control:

- A) (3) Wastewater pumps 70 HP, 81 FLA (93 A @ 1.15 Service Factor), 480 VAC, 3-Phase motors via solid state starters, with separate FVNR across-the-line contactors

Enclosure:

- NEMA 3R/4X pad-mount (or on 12" legs)
- Constructed of 304 stainless steel (brushed #4 finish)
 - With painted steel subpanel(s)
 - With painted steel inner door (in control section only)
 - Approximate dimensions: 72" H x 72" W x 18" D

Includes:

- A) Control panel to be manufactured consistent with lift station CL-01, ECC drawing #400701
- B) Main incoming power distribution block
- C) SPD (Surge Protection Device)
- D) Phase monitor with primary 1 amp fuse protection
- E) Power monitor (Shark 50) with display mounted through inner door (Voltage display provided only. Current display can be added at additional cost).
- F) Circuit breaker short circuit protection for each pump
- G) Circuit breaker short circuit protection (30 amp 2-pole) for (1) odor control unit: ~5 HP, 30 FLA, 240 VAC, 1-Phase motor (no control by this panel)
- H) 120/240 vac circuit breakers to accommodate control panel loads, generator block heater/battery charger/site lighting circuits/various control panel interior loads (transformer is required for this – provided in separate section below provided loose for installation by others external to panel)
- I) Interior service light, GFI duplex receptacle, and condensation heater
- J) 120 vac power filter
- K) Process display/controller for wetwell level primary process control
- L) Intrinsically safe barrier(s) for level sensor connection (to accommodate 5 float connections and 1 submersible level transmitter connections)
- M) Process Control Mode selector switch (Float/Process Controller/Reset) and pilot lights, with auto failover to float mode
- N) HOA switches, elapsed time meters, pump run/starter fault/seal fault/thermal fault/high level pilot lights mounted through inner door
- O) External alarm light
- P) Dry contacts provided (for remote monitoring by others) wired to terminal blocks in panel: phase fault, SPD fault, high level (process controller), high level (float), pump run indication, starter fault/overload trip, thermal fault, seal fault
- Q) ECC installation of ABS/Sulzer pump protection unit/display (thermal/leakage/bearing/vibration) in panel (equipment provided by Municipal Equipment Company: (1) PC441 pump protection controller, (1) CA511 display, (3) CA441 seal monitor, (3) CA442 temperature monitor)
- R) ECC to provide and install battery bracket and provide installation of new telemetry unit (High Tide) in control panel, wired to monitored monitored/status points (High Tide unit, battery, and power/communications peripherals provided by Municipal Equipment Company)
- S) Engineering Services: Panel design, functional testing at ECC, startup, training, for equipment provided by ECC for this site

Designation:

- A) Rockway Pump Control Panel

Notes:

- A) Price does not include incoming cold sequence disconnect, utility meterbase, utility service disconnect, or automatic transfer switch.
- B) Price does not include installation. Control panel provided for installation/wiring on project site by others.
- C) Price does not include concrete housekeeping pad recommended for pad-mount enclosures. Existing pad is planned to be reused in place.
- D) Price does not include ABS/Sulzer specialized pump protection unit/display (thermal/leakage/bearing/vibration) or ancillary equipment (such as current/voltage sensors/CT's/PT's/communication cables, intrinsically safe barriers for seal/thermal/bearing sensors), or equipment configuration/programming/set-up/start-up. Pump protection units/equipment to be provided by Municipal Equipment for ECC to install in control panel. Other ancillary equipment described above to be provided by Municipal Equipment for others to install in OR external to ECC control panel.
- E) Price does not include High Tide telemetry unit or battery. All components and communications/power peripherals for this unit to be provided to ECC by Municipal Equipment Company for ECC installation in the control panel. All telemetry equipment configuration/programming/set-up/start-up to be provided by Municipal Equipment Company.

(1) Submersible Level Transmitter

Manufacturer: Keller

Includes:

- A) Transmitter w/ 60' cable

Designation:

- A) Wetwell Level

Notes:

- A) Price does not include equipment installation or conduit, wire, pipe tap, corp stop, process connection. All equipment is provided for installation by others, unless otherwise indicated in this section.
- B) Price does not include junction box, mounting strut, water tight cord connector(s), equipment to hang/secure transducer (such as ceramic/metal rod, stainless steel bracket/hook assembly, stainless steel cable/clamps/strain relief devices/mounting hardware), seal fittings, conduit, wire.
- C) Where required, additional cable on level transducer may be ordered at an additional charge of \$2.00 per foot. Transducer cable to be terminated at control panel or junction box.
- D) Price does not include additional twisted/shielded cable between junction box and control panel.
- E) Price does not include stilling well (~ 4" - 6" diameter PVC pipe w/ 1" holes drilled every 12", set ~6" off bottom of wetwell, if req'd).

(1) Transformer

Description: 15 - 25 KVA, 480:240/120 VAC, 1-Phase/3-Wire

Enclosure: NEMA 2 (Painted Steel), Floor-mount

Includes:

- A) Weather shield to provide NEMA 3R rating

Designation:

- A) Transformer

Notes:

- A) Does not include primary or secondary short circuit protection. This to be included by ECC in the pump control panel.

4 Equipment/Services Provided by Others

1. Review existing conduit holes in concrete pad under MCC, to confirm that new panel will fit in its place.
2. Remove existing electrical equipment (MCC/ATS/Control panel).
3. Provide bypass pumping during construction.
4. Provide and install incoming power equipment (utility disconnect(s), meterbase, automatic transfer switch) on new electrical rack, and associated conduit/wire between this equipment and pump control panel.
5. Install all equipment provided by ECC in this scope of work. Provide and install conduit/wire as required between pump control panel and all equipment (incoming power, pumps, instrumentation) connected to it.
6. Confirm operation of generator/ATS with pump control panel and pumps.
7. Provide/install conduit/wire between pump control panel and existing telemetry unit.

5 Schedule:

1. Submittals could be provided within 4 - 6 weeks after receipt of purchase order by ECC.
2. Estimated equipment delivery 8 – 10 weeks after receipt of approved submittal by ECC. These terms subject to change based on market volatility and delivery of parts by ECC suppliers.
3. Please contact estimator BEFORE or AT TIME OF QUOTE if other arrangements are required.

6 Terms/Notes/Exclusions:

1. System Warranty
 - A. System warranty against defects in material and workmanship is the earlier of 18 months after the date of shipment or 1 year after the date of installation.
 - B. Warranty excludes surge/transient damage.
 - C. Warranty includes parts only for ECC-provided equipment included in this scope of work, as all on-site work on this scope of work is to be performed on a Time & Material basis.
 - D. ECC is not liable for loss, damage, or expense directly or indirectly from the use of its products or services, or from any other cause.
2. Price does not include any applicable taxes or fees. Tax exempt certificate must accompany purchase order, or sales tax will be charged.
3. Price valid for 60 days.
4. Payment Terms
 - A. Net 30 days with 1 ½% per month add.
 - B. 100% of each invoice is due within 30 days of invoice date.
 - C. Retainage of any invoiced amount is unacceptable unless specifically agreed to in writing by ECC at the time of order, and shall in no case exceed a period of 90 days.
 - D. If payments are not timely received by ECC, and this account is turned over to an attorney for collections, Customer agrees to pay all reasonable costs and attorney fees incurred in collection of the past due amounts.
 - E. Payment as the project progresses is expected.
 - F. Back charges are not accepted by ECC unless prior written authorization is obtained from ECC.
5. Prices quoted are for ECC to be a supplier, not a subcontractor or general contractor. Additional fees may be charged if ECC is required to be a subcontractor or general contractor; or if ECC is required to provide insurance beyond ECC standard for this project.

6. Price does not include bonding.
7. Freight
 - A. Price includes standard freight to jobsite. Freight is pre-paid, FOB Factory.
 - B. If FOB First Destination is desired, include additional charge of 2% with purchase order to ECC.
 - C. Price does not include equipment unloading/setting/proper storage.
8. Price does not include specialized pump motor stator over temperature relay/seal leakage-monitoring device for protection of each submersible pump motor. If specialized relays/sensors are required by the pump manufacturer, the units shall be as specified and provided by the pump manufacturer, to assure that the pump and motor warranty is not compromised. Wiring diagrams for the units shall be provided by the pump supplier to the systems integrator (ECC) for submittal purposes. The units shall be provided by the contractor/pump supplier to the systems integrator prior to panel construction, who shall install the units in the control panel. The contractor/pump supplier shall provide start-up/documentation/training services as required for this equipment.
9. Price only includes items described in above scope of work. Items not specifically described in above scope, but which may be required, are assumed to be provided by others, and may result in additional cost to this contract if ECC is to provide. **Price does not include the following, unless specifically mentioned in the scope:**
 - A. Spare parts
 - B. Equipment/mounting brackets/hardware/services/installation.
 - C. Performance/Payment bond.
 - D. Process instrumentation (air, water, etc.) tubing, connections, or pipe taps external to control panel, heat tape or above-grade freeze protection.
 - E. Level/Pressure/Flow/Temperature/Chemical sensors/gauges/switches.
 - F. Cord connectors/support brackets/hooks/strain relief devices/mounting hardware, seal fittings for any equipment, not limited to pump cord/floats/level sensors.
 - G. Telephone line/internet service connection or coordination.
 - H. Any utility charges, inspection fees, or permits.
 - I. Conduit/wire runs.
 - J. Termination of wiring.
 - K. Incoming utility service transformer, electric service meter/disconnect/CT-PT cabinet/generator/transfer switch/junction boxes, and associated conduit/strut/wiring/installation, etc.
 - L. Pumps/motors/junction boxes/mechanical piping/valves/actuators/solenoids or installation thereof.
 - M. Hoisting for pumps/mechanical piping/equipment unloading/setting.
 - N. Demolition/removal of existing equipment.
 - O. Equipment racks or concrete pole bases.
 - P. Excavation/boring/trenching/backfill, asphalt/concrete/rebar/housekeeping pad work, core drilling/cutting/grouting/firestopping of holes in vaults/wetwells/concrete/masonry structures for conduit/piping or other equipment, welding.
 - Q. Electrical service/temporary electric service.
 - R. Locks of any type.
 - S. Back-up/bypass pumping/operation of station(s) (such as during installation/start-up).
 - T. Painting or coatings of any kind.
 - U. Chemicals of any type.
 - V. Drawings of any kind (conduit/wire layout, loop drawings, etc.), other than control panel drawings for equipment provided above.
 - W. Nameplates/labelling for equipment provided by others.
 - X. Studies/reports of any kind (coordination/short circuit/protection device/arc flash/harmonic analysis, other than those specifically detailed above.
 - Y. Video documentation, testing, training, reports.

- Z. Any required anchorage/seismic design/calculations/structural engineer seal. (ECC will provide electrical gear manufacturer's standard anchoring/installation instructional data sheets.)
10. Buy America
- A. The Infrastructure Investment and Jobs Act signed into law on November 15, 2021 includes substantive changes to Buy America requirements compared to those specified in the preceding American Iron and Steel Act. As with previous legislation, we are awaiting any additional guidance for the US Environmental Protection Agency or other Agencies for further clarification relating to current Buy America requirements.
- B. As of now, the industry at large is unable to ascertain the parameters of the Buy America requirement. We cannot make any guarantee that this scope of supply will be in compliance with any Buy America requirements under the Infrastructure Investment and Jobs Act. Accordingly, any offer for sale, proposal, or budgetary quote/estimate submitted should not be construed as meeting such Buy America requirements unless explicitly stated otherwise.
11. The on-site portion of the scope of work would be provided on a time and material basis per ECC's standard Service Contract Schedule of Prices (which can be provided upon request). Only equipment/services rendered would be invoiced. No equipment/services beyond the agreed upon Not-To-Exceed amount listed would be provided without prior approval by the customer.
12. The above is estimated to take approximately 1 - 3 days.
13. Cancellation of purchase order after submittals have been prepared will result in cancellation fee of 25% of order.

Sincerely

Franklin V. Chott

Department Comments and Recommendation:

Below is a list of the vehicles that we would like to proceed with purchasing through Joe Machens. Everything listed is within budget and my notes below provide additional details. These vehicles were discussed in great detail during the budget process.

Parks - F-150 Crew Cab - \$48,649.00. Replacement for 2008 Park Explorer with 112,162 miles on it currently. This is an old hand-me-down patrol car from the police. Over 10,000 in maintenance has been spent on the truck since 2019.

Water - F-350 with aftermarket service bed - \$110,800 total budget. \$63,320, for the truck. Once we get the truck, we will come back to the board for approval of the aftermarket service bed. It replaces the existing 2015 F-350 service truck (80,623 miles) with a bent frame.

Sewer - F-350 with replacement service bed - \$110,800 total budget. \$58,944, for the truck. Once we get the truck, we will come back to the board for approval of the aftermarket service bed. It replaces the existing 2012 F-350 service truck (93,320 miles) with ongoing crane, electrical, and transmission issues.

I recommend approval.

FY2024 Available: \$505,816

FY2024 Requested Amount: \$80,549.00

Department Comments and Recommendation:

The City is purchasing these meters using our sole source distributor. This is our annual bulk water meter purchase from Schulte Supply and we feel comfortable with this vendor. This purchase will replace all the meters in the system that are older than 10 years. The meters carry a full 10 year warranty and are prorated after 10 years. These meters will cost the city \$80,549.00. I recommend approval.

Department Comments and Recommendation:

The City is purchasing 15 Sulzer sewer pumps from our sole source distributor. We purchase the vast majority of our pumps through Municipal Equipment and feel comfortable with this vendor. We are purchasing 6 model XFP100E CB1.2, 6 model XFP100E CB1.3, and 3 model XFP150E CB1.6 pumps. Five of the pumps will be installed when they arrive, the remaining will be for stock. We currently do not have any of these pump models in stock and are in desperate need of them. These pumps will cost the City \$122,577.75 + shipping. I recommend approval.

The  of Lake of the Ozarks

Osage Beach, Missouri is in the heart of Lake of the Ozarks, one of several large man-made lakes in the United States with 92 miles of main channel. It is the Midwest's premier lake destination that boasts world-class boating, shopping, dining, fishing, State parks, and other must-not-miss recreation. Osage Beach is located in central Missouri on US Route 54 about 42 miles southwest of Jefferson City, Missouri, the State's capital. The community is part of a rapidly growing region with excellent schools, beautiful scenery, and endless opportunities that make Osage Beach a desirable place to be.

From mini-golf & go-karts to trampoline parks, Osage Beach is home to several attractions the whole family can enjoy. And some unique shops for the shopping enthusiast.

If you want to spend some time in the great outdoors, Osage Beach can provide you with some great hiking trails, city parks, baseball & softball fields, golf courses, and of course, some of the best boating in the Midwest.

Enjoy some of the finest cuisine both on and off the water at one of the many fine dining establishments located in Osage Beach.

Of course you are going to need some place to stay during your visit. We have you covered there as well with all inclusive resorts, family resorts, bed & breakfasts, hotels, vacation homes & condos, and camping.

For your next Lake vacation, we want to welcome you to the "Heart of Lake of the Ozarks". Osage Beach, Missouri.

City Administrator Comments:
Alderman Rucker has requested a discussion as to Population Signs for the City of Osage Beach.

Notes to consider:

- Due to changes to Engineering Policy Guides (EPG), MoDOT will not be installing/maintaining/updating current population signs; any current signs will be removed upon the end of life (TBD on current population sign end of life and subsequent removal),
- EPG state population signs cannot be installed on the same posts as City Limit

signs,

- If there is a desire to have population signs, options include 1) pursue MoDOT permission and a Roles & Responsibility contract with MoDOT for City owned and maintained signs on MoDOT ROW, or 2) find locations NOT within MoDOT ROW for City owned and maintained signs (City ROW or private ROW).
- I estimate Osage Beach has potentially 7 current signs (OB Pkwy -2, HWY 54 -2, HWY D, HWY 42, and HWY KK).

- Camden County Road Property Tax Questions (*City Treasurer, K Bell/City Attorney, Cole Bradbury*)
 - Pending county audit report update.
